## COMMITTEES

---

### GENERAL COMMITTEE

Charles H. Johnson  
E. R. Webster  
E. M. Dole

### REGISTRATION COMMITTEE

Madelene Spencer	Glenna Bragdon
Marjorie Stephens	Alice Hackett
Rosemary Danforth	Edith Hale

BATHING ..... H. W. Coffin, E. W. Brown, Lillian Perry  
2:00 to 5:00 at the Beach

CARD GAMES..... Alta Cole, Ella O'Connor  
2:30 to 5:00 at the Log Lodge

GOLF ..... Faustina Emery, Gordon Briggs  
Tee off at 2:30 P. M.

SOFT BALL (men).... Clyde Hodgdon, Walter Scripture  
Game called at 3:00 P. M.

SOFT BALL (women) ..... Florence Steeves, Clara McKay  
Game called at 4:00 P. M.

ARCHERY..... Warren Blake, Janet Coltart  
3:00 P. M. in front of Log Lodge

TENNIS ..... Maurice Perkins, Maverick Whitney  
2:30 to 5:00 P. M., Club House Courts

HORSESHOES ... William Ellis, R. A. Fernald, Avis Mayer, Mildred Willard  
2:30 to 5:00 P. M. in front of Log Lodge

TRANSPORTATION..... P. L. Sprague

PROGRAM AND PICTURES..... A. E. Whitehill, K. R. Dudley, P. A. Mann

DINNER..... Gladys Stetson  
7:00 P. M. sharp, Log Lodge

DANCING..... L. A. Gardner, Albertina Bartlett

PRIZES..... Fred Libbey, Alice Grant, H. C. Dearborn

Prizes for the various events will be given out after Dinner  
and throughout the evening during the dance.

## E D I T O R I A L

### At Work At Play

Recognition of a job well done, of an act of bravery or of significant service to one's town or country is often perpetuated in the minutes of a meeting, in the records of an organization or by the presentation of a medal. And so, here may we speak for each and every member of the Bangor Hydro family in expressing appreciation to our management for the hours of recreation and pleasure given us at the Annual Company Outing. This day at Lucerne-in-Maine, with our family there from Eastport to Millinocket, was a grand illustration of our company creed: "What's worth doing at all, is worth doing well."

Behind the constantly changing scenes, was every indication that much time and thought and work had been concentrated on the plans for our Outing and that the management had been most generous in accepting the suggestions of each committee.

Thank you Mr. Graham. And thank you Hydro executives and Directors for one swell time. We are proud to be part of a company where good-fellowship reigns supreme and where we can work hard and play hard, each at the proper time.

# HERE AND THERE WITH HYDRO EMPLOYEES AT LUCERNE

Old Man Weather smiled beneficently on our Annual Co. Outing as about two hundred and fifty of our Hydro family and their guests gathered at the Log Lodge at Lucerne-in-Maine on the afternoon of August 24th. The daytime program certainly called for sunny weather and clear skies for the various committees had planned a full schedule of sports.

The beautiful weather also added greatly to the pleasure of those who merely were spectator sports, for there was constant activity on the spacious lawns before the Lodge as groups came and went to join in the general good time.

It would be difficult to say that any one activity was any more popular than any other for each had a full quota of participants. For men's golf for example, thirteen had signed up and eight for the women's game. For men's softball, twenty-two entered and for the women's game, twenty-six. For the men's tennis were nine participants and in the women's game a total of six. At archery twenty-one men tried out their skill and thirteen women.

Horseshoes drew a large crowd for thirty-two signed up in the men's competition and nineteen in the women's game. While only six women had signified their intention of playing cards, there finally were four tables in play. At least fifty had signed up for a swim but the warm day and very strenuous activity of other sports increased the numbers who enjoyed cool swim during the afternoon.

At seven o'clock the large banquet hall was filled with almost an overflow of Hydro employees and their invited guests. Close to three hundred enjoyed the excellent menu that had been prepared.

## HEAD TABLE GUESTS

At the head table were the guest of Honor, the Honorable Percival P. Baxter, ex-governor of the State of Maine, Mr. Robert C. Clark, Vice President of the Eastern Manufacturing Company, Mrs. Clark and her daughter Wayne.

Mr. and Mrs. Garrett D. Speirs, Mr. and Mrs. W. H. Martin, Mr. Charles G. Paine, Vice President of the Eastern Manufacturing Co., Mr. and Mrs. Harold H. Murchie, Mr. and Mrs. Fred D. Jordan, and Mr. and Mrs. Edward M. Graham.

Other guests included Mr. Robert H. Robertson, Mr. and Mrs. Loren H. Thompson, Mr. Frank Harrington of Augusta, Miss Margaret Burns, Mr. E. L. Hall of the General Electric Supply Corp., Mr. J. W. Johnson of the Allis Chalmers Company of Boston, Mr. Charles Hildreth of Portland and Mr. Jacob of New York City, and Mr. J. S. King of Boston, both of the Sangamo Electric Company.

After dinner and when the tables had been cleared away a large number had a gay evening of dancing when between dances the prizes of the day were awarded to the many winners.

## Mr Graham Welcomes One and All

In addressing his brief remarks to Ex-Governor Baxter, invited guests and all Hydro employees, Mr. Graham spoke of the great pleasure that he derives each year from the annual company get-together and what a great privilege it is to get better acquainted with one and all. In commenting on the fact that speeches were to be few and brief, Mr. Graham said, "I hope that you all have a swell time".

Mr. Graham then took occasion to welcome all members of the Quarter Century Club who were joining with the other employees in this combination outing. In

adding the fact that the Club now boasts of a membership of fifty men and women all of whom have completed at least twenty-five years of service with the company he called upon Charles H. Johnson President of the Club for a few words.

## Charles H. Johnson Speaks for Quarter Century Club

In very brief but very effective manner, Mr. Johnson thanked Mr. Graham on behalf of all members of the Quarter Century Club for the splendid time that all were having at the outing. It gave him particular pleasure, Mr. Johnson said, to be able to introduce four new Quarter Century members and since all were present at the time they were called up to the stage and presented with their club emblems.

These new members were George W. Tyler, Assistant Field Engineer who had completed his twenty five years on April 29th of this year, and Roy L. Bragdon, Service man at Ellsworth whose quarter century dated from May 8th. Then Michael Addison who completed his twenty-five years as Bangor track man on May 19th, and William E. Jennings, Bangor car operator, who dates his service back twenty five years from July 1st of this year.

Mr. Johnson concluded his remarks by calling upon all Quarter Century Club members to stand in tribute to Mr. Graham both as a member of their club and as President of their company, and as an

(Continued on Page 6)

(Continued from Page 5)

expression of their hope that Mr. Graham might continue to be their President for many years to come.

Mr. Graham followed Mr. Johnson's remarks by paying compliment to a few of the sales force who have recently done a conspicuous job. He emphasized the fact that one of the principal factors in any successful business is successful selling.

In the absence of top-flight salesman Archie L. Foss of Millinocket, Mr. Graham asked the Millinocket Manager to take the bow, and Ralph A. Fernald responded. It has since been learned that the reason for Mr. Foss' absence was that he found it necessary to stay on the job to complete an important sale and he did complete it successfully.

Also second ranking salesman John Parker who works out of both the Machias and Harrington offices, was called upon to show himself. Then Clarence E. Nichols was asked to accept a hand for his activities in managing the newly opened office at East Corinth.

It then became Mr. Graham's extreme pleasure to introduce the guest of honor, an ex-governor of the State of Maine for two terms, the Honorable Percival P. Baxter, of Portland.

Introducing Governor Baxter as a real citizen of Maine and a real builder of all that is best in the State and one with the welfare of the State very much at heart, Mr. Graham made mention of the splendid gift to the State that Governor Baxter has made and still enlarging, namely the State Park in the beautiful Katahdin Region. Governor Baxter will make history, said Mr. Graham, as an outstanding citizen of Maine.

## Governor Baxter

Governor Baxter, in opening his remarks addressed himself to Mr. Graham as an old friend and to his other old friends and his many new friends in the gathering before him. He emphasized immediately the fact that when he received his invitation to be present that he accepted immediately and with great pleasure and stated that it is always a great source of inspiration to be with a Hydro group.

## Guest of Honor Hon. Percival P. Baxter Ex-Governor of Maine

On the way to Bangor, he said, he was reminded of the many times that he had come to Bangor in his days in Portland High School when somehow Bangor always seemed to come off with the winning scores, and all the Portland team seemed to do was to buck Bangor's flying wedge unsuccessfully. Those days were more important to him than are the Olympics today.

But in those football games, the Governor said, he doesn't recall that he ever smelled a football for his teams just kept falling before the Bangor teams. However, Portland took their medicine all in good spirit.

Another thing that he reminisced on was the earlier beauty of the Bangor girls and he expressed his pleasure at being surrounded by the same kind of beauty at the banquet. Bangor, he said, will probably always be famous for its feminine pulchritude.

He recalled too, one of his early speeches in Bangor when the paper and the public branded him as a dangerous radical but somehow he rose above it. He smiled as he thought of what radical means today. Time passes however he added, and the papers seem to have forgotten. His' radical or rather liberal ideas today he is rather keeping to himself.

In his remarks about the Bangor Hydro, Governor Baxter was most generous. He spoke of our company as a most unique organization and as one of the most wisely managed public utilities in the country. Covering a wide territory of nearly 33,000 square miles, the Hydro serves more than one-half of the remainder popula-

ted area. Serves well and faithfully.

He felt that he knew the facts when he outlined the three major objectives of the Hydro management as first: to serve the people well, secondly, to take good care of its employees and thirdly to pay a return to its stockholders.

He paid very nice tribute to our President, Mr. Graham, both as his personal friend and as a capable executive. He asked himself what eastern and northern Maine would do without the service of the Hydro. He spoke as a humble member of the Hydro, a company of which he said, the entire State is proud.

## Mr Haskell Pledges Continued Company Effort

After thanking Governor Baxter for his very kind remarks and for having come to join our party as guest of honor, Mr. Graham called on General Manager, R. N. Haskell for a few closing words. Mr. Haskell responded briefly but most impressively in stating his deep appreciation of the preceding words of Mr. Graham and of Governor Baxter. He said he felt that he was speaking for all of the company employees when he said he had been deeply touched by their remarks and knew that the entire company would do their best to live up to all that had been said.

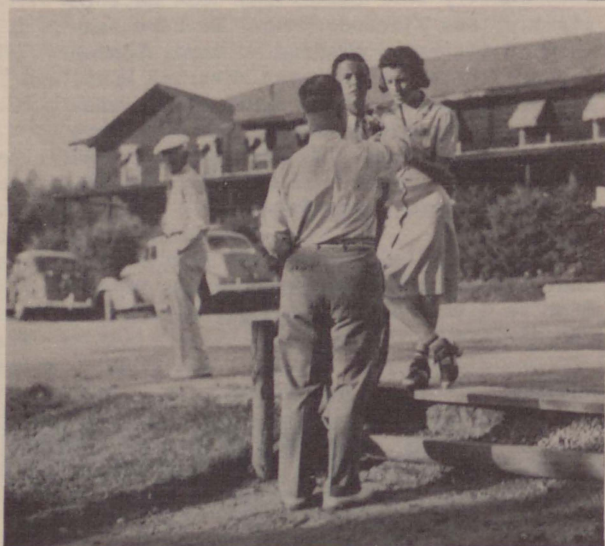

## A Game Worth Watching

Which is it, beauty contest or soft ball? They qualify well either way but left to right we see Florence Tracey, Barbara Ashmore, Doris Vose, Mildred Willard, Louise Hammons, Katherine Rideout, Maverick Whitten, Florence Steeves, Capt. of the winning team, Louise Clifford, Eve Scripture, Clara McKay, Capt., Glenna Bragdon, Marion Burnett, Sarah Parker, Helen Hudson, Louise Ness and Alice Anderson.

The same soft ball stars are grouped below but we can't pass up calling attention to Glenna Bragdon stopping a fast one at first.

Looking for trouble up top left are Leonard Hunt, James Perkins and Newcomb Clark and at the right they have joined a larger group of conspirators. Four pretty girls coming head on are Kathleen Rideout Alice Hackett, Florence Steeves and Louise Clifford. Coming down the stairs are Helen Dougherty, Gertrude Havlir, and Catherine Bukar. Norman Landry, back to, talks to George Mansell and Theresa Tracey. Lower left, Floyd Hudson and Leonard Hunt are flanked by Mrs. John Parker, and Mrs. Kenneth Dudley at left, and Mrs. Drinkwater and Mrs. Hammons at right. Five very dressy spectators are Henry Perkins, William Kincaid, Eddy Carvell, Michael Nelligan and Arthur Welch.

## Here and There

A foursome in the women's golf tournament start after the elusive pill. Below at the right George Dow dolls up after a little exercise. Among the several tables of cards at the Lodge were, left to right, Mrs. Harvey Hanscom of Lincoln, Mrs. Ralph Fernald of Millinocket, Miss Gertrude Drew of Lincoln and Mrs. Luther A. Leach of Ellsworth. At lower left, Eddy Burns takes a puff while Lowell Vose and Walter Davis discuss the attractive group of girls starting into the Log Lodge.

## Who's Who in Winners Take All

It was a foggy afternoon on July 29th, when the Commercial Department "Winners take All" campaign was officially and royally terminated at Stanley's Lobster Pound at Sea Wall on Mt. Desert. Nevertheless the camera penetrated the fog for a few quick shots. At top left, 1 to r. salesmen John Parker and Walter L. Maddocks with prize winners Samuel M. Frye, 3rd prize; Harvey F. Hanscom, 2nd; Archie L. Foss, 1st; and Shirley H. Carter 4th prize. Thomas S. O'Connor would have come in for the 5th prize only he missed out on Water Heater sales. That triple conspiracy pictured above involves Ed. Hall of G. E. Supply Corporation at left, and Jess Kennedy and Milton Vose of Landers, Frary and Clark. At left the salesmen and guests lost in the fog. Sorry, for there are some good looking gents in the crowd. Lawrence F. Abbott looks on while Sam Frye tosses a ringer. You can't prove he did by this picture. Below, Herbie Hammons gathers his stage properties for a little rope throwing which was really supposed to be a tug-of-war. No one wanted to tug.

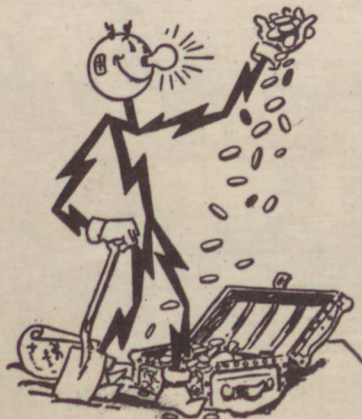

At right, a group up to something that the camera couldn't penetrate but at left center you can tell what Warren Grindle has just tossed a wicked horseshoe and on the right Floyd Ness is trying to add up score for his team. Below is a very important person. The man responsible for a swell lobster dinner at Stanley's Pound.

XXXXXXXXXXXXXXXXXXXX

Getting down to business however, this "Winners take All" sales contest resulted in two top-record months for the Commercial Sales Department. The success of the campaign can best be judged by referring to the initial quota of \$65,000 for June and July and the final results of \$70,552.53. Congratulations are certainly due the campaign manager, Herbie Hammons and to all the salesmen that hit the ball with him for two months.

Added interest and impetus was given to the campaign by the lap prizes, or as they were called - 1st, 2nd, and 3rd, filling station prizes of gasoline credit to the sum of \$15.00 on June 17th, July 1st, and July 15th. One prize was given by Landers, Frary & Clark for 1939 Universal Range unit sales and one by G. E. Supply Corp., for 1939 Refrigerator sales. Walter Maddocks and Archie Foss won the first lap prizes and Harvey Hanscom the 2nd, and again Archie Foss scored to win the 3rd lap prize.

It means more business for all of us when the salesmen put over a fine sales campaign like this and we all congratulate the winners who took home the bacon in the shape of good cash prizes.

## Second Floor News

Vacations are almost a thing of the past in this department: Miss Florence Steeves has returned from her vacation spent at Sebec Lake and Augusta; Arthur Norwood and Ralph Hatch have both finished their vacations spent at home; Winfield Stubbs spent his two weeks at the Army Camp in New York State, returning home after a rather strenuous camping trip; Bill Hartery is in Canada this week, having spent the first week of his vacation in New York City; Harmon Gibbons spent his vacation at home; and Atwell Blaisdell spent the first week of his vacation at the World's Fair and then traveled as far south as Virginia. The second week of his vacation was spent at Hermon Pond where he rested after his southern trip - which we hear was rather exciting.

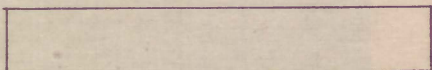

This seems to be a month of celebrating weddings - a shower and banquet was held at the Penobscot Exchange Hotel two weeks ago in honor of Rita Van Dyk. A delicious chicken supper was served in the dining room and the shower was held in one of the rooms on the second floor of the Hotel, where Rita received many useful and beautiful gifts from the girls of the office.

Monday, August 23th, a shower and banquet was held at McLeod's for Maverick Whitney, whose marriage is to take place in the near future. A chicken pie supper was served, after which Maverick was showered with many beautiful presents.

The Company Outing was held at Lucerne last week, and was declared by all to be the best outing the Company ever had.

Mr. M. E. Hill, Superintendent of Utilities Department of the National Fire Insurance Company of Hartford, Conn., called at the office one day recently, minus the disguise he wore on his recent visit, and was recognized almost immediately. During his visit to this part of the State accompanied by Mr. Preston Mann, Mr. Hill inspected the plant of the Old Town Canoe Company.

Mr. L. L. MacIver, also of the National Fire Insurance Company of Portland, Maine, was a recent caller at this office.

## Not too Easy

At right is guest from Augusta, Frank Farrington. In center Danny Webster is hard at it and the ladies also at ring toss are Barbara Ashmore and Helen Hudson. Below in two pictures Herbert Haskell tries his luck with spectator Ray Spillane.

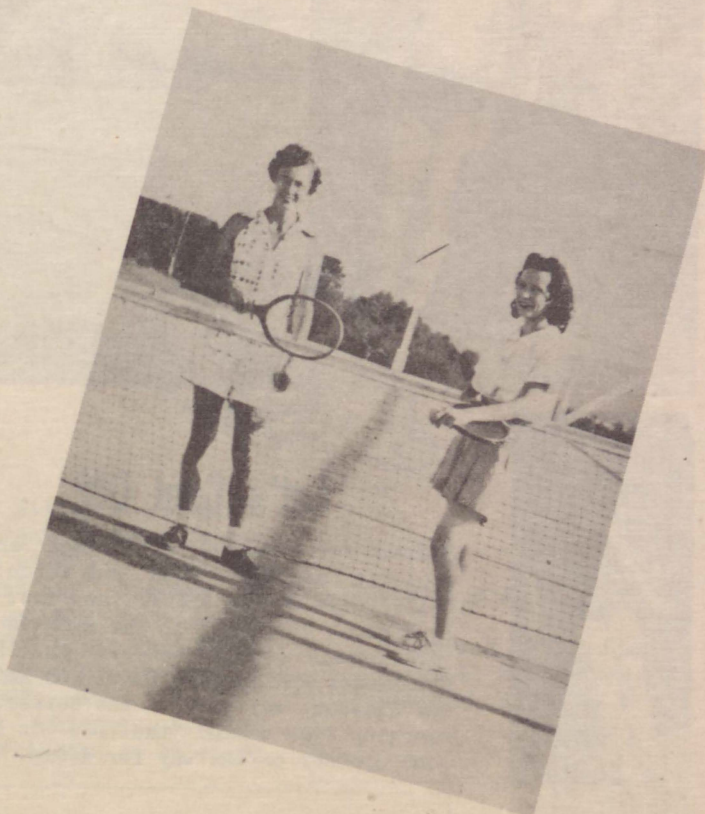

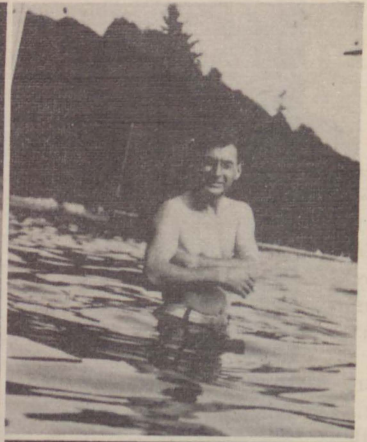

## Will He Sink It ?

That put by Robert N. Haskell, General Manager of the Hydro must be an important one. The attentive gallery includes from left to right, Earl Young, Commercial Mgr. Loren Thompson of Brewer, Earl Webster, Assistant Gen. Mgr., Gordon Briggs, Hydro Attny. Fred Libby, Purchasing Agent and Harold Murchie, Hydro Attny.

At the net, we are pleased to stop the fast game of Maverick Whitney, left and Clara McKay at right.

## Let's Cool Off

Headed for a change of clothes and a cool dip are Roger Wood and Eaton Tarbell, Polly Graham and Mr. and Mrs. Paul F. Kruse. At right in the swim is Harvard Young. At left center, Mrs. Ralph Drinkwater and Leonard Hunt with Katherine Rideout way down in the corner. And emerging from behind the tree is Madeline Spencer on the way for a dip.

# The Storm Broke Over Mount Desert

Old man weather certainly took a wicked blow at Mount Desert on Wednesday night, August 16th, when one of the worst electric storms of recent years broke over the Island. As one spectator described it, "The heavens seemed to be lighted up continuously for most of the night".

There was probably not a person on the Island that did not appreciate the intense severity of the storm and probably no one group of people on the Island that came in for more emergency work on account of the storm than the Hydro employees.

This fact can be well understood when you know that there was trouble in twenty different communities and even on Great Cranberry Island and Sutton Island. There were fourteen transformers burned out, eighty-seven transformer fuses blown and nine junction pole fuses blown, making one hundred and ten repair jobs for the crew.

That the repair crew did a swell job in quick time was attested by the understanding and appreciative attitude of our many customers who were affected, in some cases for a good many hours. The storm was at its height from about 9:45 PM until 12:45 AM, during which time current was off generally. Manager Austin's report shows repairs being made at all hours of the night and day, 10:30 PM 1:45 AM and 6:35 AM are just a few indications of the hours of work.

And it wasn't only the repair crew that came in for extra hours for the girls did their share as well and did it well. As would naturally be expected, the phone calls came in almost continuously from customers wanting to know when they could expect their service resumed, and almost without exception the inquiries were all made in a most friendly spirit. Credit too goes to the girls at the Bar Harbor office and to Mrs. Abbott at Northeast Harbor, and Mrs. Mitchell at Southwest Harbor for the phone lines were open and continuously busy from 10 PM on Wednesday until 1 AM on Thursday, and then again from 5 AM until 10 PM.

## A Letter Greatly Appreciated

UPLAND  
SEAL HARBOR  
MAINE

August 20, 1939

Bangor Hydro-Electric Company,  
Bar Harbor, Maine.

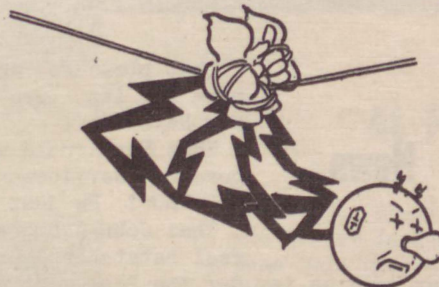

Dear Sirs:-

I want to say how much I appreciate the devotion and efficiency of your repair crew in getting my current in after the storm. The transformer was struck and it was necessary to get a new one.

I was having a lecture with motion pictures in the house that night and told the men I greatly needed the current. They did not finish til after six o'clock, but they fixed me up with great cheerfulness in spite of the long strain of their work since midnight before.

There were three of them. I do not know their names, but I hope you will pass on to them my appreciation of their service.

Very truly yours,  
(signed) Roscoe C. E. Brown

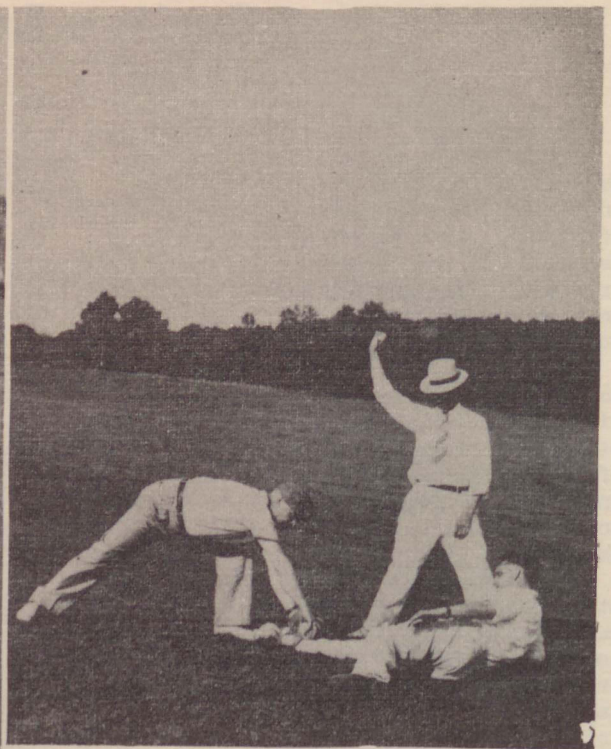

Yes, Reddy Kilowatt certainly had a tough night at Mount Desert but the Hydro staff on the Island knew what kind of treatment to give him to get him back on the job again. One thing that Reddy does not like is a rip snorter of a thunder storm with its full complement of lightning. Not too keen about hurricanes or blizzard either.

Credit goes to -

Frederick M. Grindle  
Alvah L. Abbott, Jr.  
Lloyd M. Buzzell

## You're Out

Above Eugene Dole announced in professional form that base slider Maurice Perkins is out. Howard Arnold at first was the downfall of Perkins. Some fast fielding. Better luck, however, at the left for Clyde Hodgdon. A little fast foot work outwitted Arnold on first.

## Main Street News

Who said -

This Electrical Merchandise is a summer sales and service business - don't we all have to have our vacations then?

They can't pin you down? Look at those Bangor Fair Passes.

That there was a Range Campaign on? Look at one of those daily report sheets and be sure to see who is doing the business, too.

"Winners Take All" Campaign was a success? Main Street was not even in any of the prizes.

That pleasure as well as business has its "ups" and "downs" - ask Herbie.

That Ray Arnold wasn't a refrigerator serviceman and didn't like SO<sup>2</sup>? He just sorts them out

That John Ashmore wasn't in the real estate business right up under the Bangor Stand Pipe?

That Bill Thompson can't vanish completely when he starts his vacation?

That Joe Davies is not raising pigs? (Garbage Disposals to you)

That Charlie Mansur can't find the truck running board when it is raining. No it was not a "Charlie" horse.

That Don King wasn't a lady's man and used floor wax for shoe polish?

That Maurice Perkins wasn't putting some light on things up at the County Court House - about a carload of fixtures.

That Marg. Stephens is running out of red ink on those daily reports. We think it is the black that has all been used up.

That Barbara Stover hasn't a picture to remember him by?

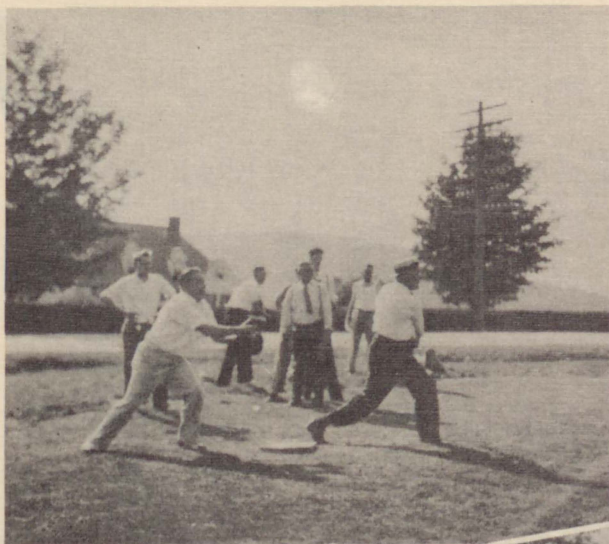

That Winnie Boober cannot tell tall stories? Ask her about the one on the Lion in the Me. Woods

That Hugh Tracey has to use wave set after vacationing at Newport?

That Marley stepped on his hand

That it won't be long now before we put on mufflers and overcoats - but it is a nice thought for today.

## At Play

Top left, Henry Ryder catching and Walter Davis at bat. Right Gene Dole umpiring while Walter LeBreton pitches. Below, Henry Ryder catching and Herbie Hammons at bat. Spectators, left to right, are Capt. Fickett and Ellsworth Hobbs and Reginald Clark. At left Ellsworth Hobbs streaking for first covered by Howard Arnold.

## Mr Graham Welcomes One and All

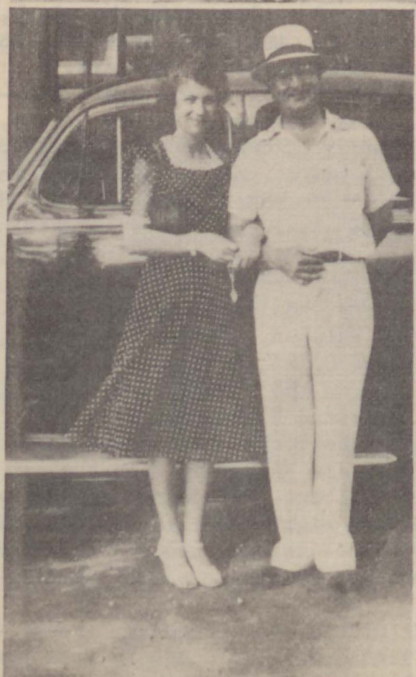

Directly above, Hydro President Edward M. Graham in conversation with guest of honor, Ex-Governor Percival P. Baxter of Portland. Top left, J. W. Johnston of Allis Chalmers Company., Boston and J.S. King of the Sangamo Electric Co. Boston. At right above Mr. and Mrs. W. H. Martin of Bangor, below at left, Charles H. Johnson, Hydro Street Railway Supt. is off guard when the camera caught him. Mr Johnson has the honor of being President of the Hydro Quarter Century Club, the members of which attended the Outing.

## Here and There

At upper right, Catherine Buker is all set to picture events as they progress. At left, Florence Steeves is also ready with the camera as four girls come down center, left to right, Mrs. Newcomb Clark, Pauline Goodwin, Mrs. James Perkins, and Mrs. Harmon Gibbons. At lower left Mrs. Ralph Drinkwater seems perfectly content in the jovial company of Operating Engineer Ernest W. Brown, "Brownie" to everybody.

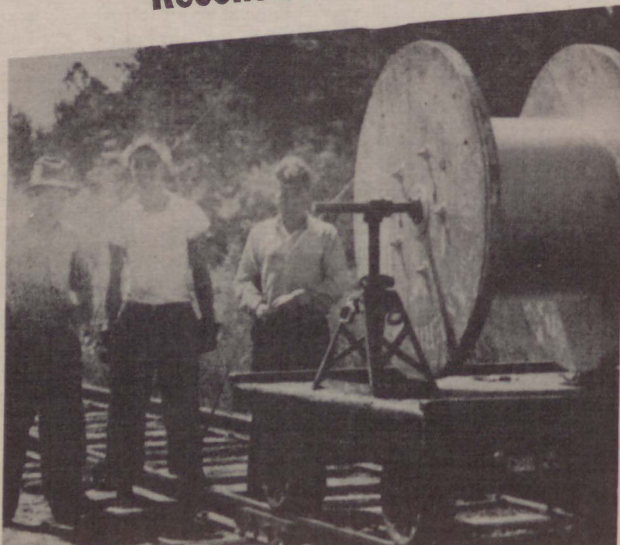

## Final Operations on Line One

## Reconstruction Job

As the weeks move on, the construction work on Line One from Ellsworth to Veazie enters upon its final stages. New poles have been placed and change made to triangular construction. The work now consists of removing 75 miles of #3 copper wire and stringing in its place 4/0 ACSR (Aluminum Conductor Steel Reinforced).

A variety of conditions were encountered in the stringing of the new wire. Along the highway the wire was laid out from the company line trucks. Along the Maine Central R. R. right-a-way, the large reels of wire were mounted on a small R. R. push car as pictured at the left. In other cuts the wire was either laid out by use of horses and where the footing was too difficult even for the horses the groundmen pulled out the wire by hand.

Each reel, as pictures, carried on an average of slight under a mile of wire and weighed about 1600 pounds.

But before we get too far along with the story, let's identify the men in the Hydro crew and in Harry Wheelden's crew that helped a few days.

In the front row, left to right, are Hydro Linemen Jimmy Farrel, Jimmy Hodgdon, Harvey Quimby, Bob Geikie, Joe Kingsbury, foreman, Ted Lindsay, Frank Everett, Hank Grindle and Ack Willey. In the back row are Hydro groundmen indicated by BH after their names, the other men being in Wheelden's crew. Left to right, Walter Grindle, BH, Roy Moon, Charlie Gilbert BH, Miles Cosseboom, Cecil Grindle BH, Harry Wheelden, Julian Tracey, Slim Hasseltine, Ted Whidden, Buddy Libby, B H, Paul Kruse, Jr. BH, and Clint Cosseboom BH.

Behind the PUSH car on the tracks are: 1 to r, John Graham, Dick Morse and Edward Graham.

In the pictures at the right at top are Walter and Cecil Grindle, and Joe Kingsbury. In the center picture, Charles Gilbert has joined the group and also in the bottom right. All in the process of pulling the new wires to the proper sag, then temporarily dead ending the wire, while the linemen tie in.

In the noon hour group, Joe Kingsbury reaches for a cigarette, Clint Cosseboom comes in from the left and Charlie Gilbert relaxes at the right.

## Line One

Credit for a job well done goes in many directions on this particular reconstruction job. When you realize that the first wires were strung on July 21st, and the last of the 7<sup>3</sup> miles of new wire will be strung by August 30th, you can see that things moved along smoothly and rapidly.

Foreman Joe Kingsbury has handled this job most carefully and with the full cooperation of all of the men on the job. There has not to date been a single lost time accident which is an enviable record for along the highway heavy summer traffic was rolling most of the time. And again the fact that many of the younger men on the job were new to work of this nature makes the record all the cleaner. And live wires added a further hazard.

With each crew of a size to keep the work in balance, things moved along like clock work. Each day, for example, Shorty Swett's crew strung out the next day's wire for the line crew and assisted in cleaning up the many tons of junk copper wire. Also all empty reels had to be brought back at the end of the day.

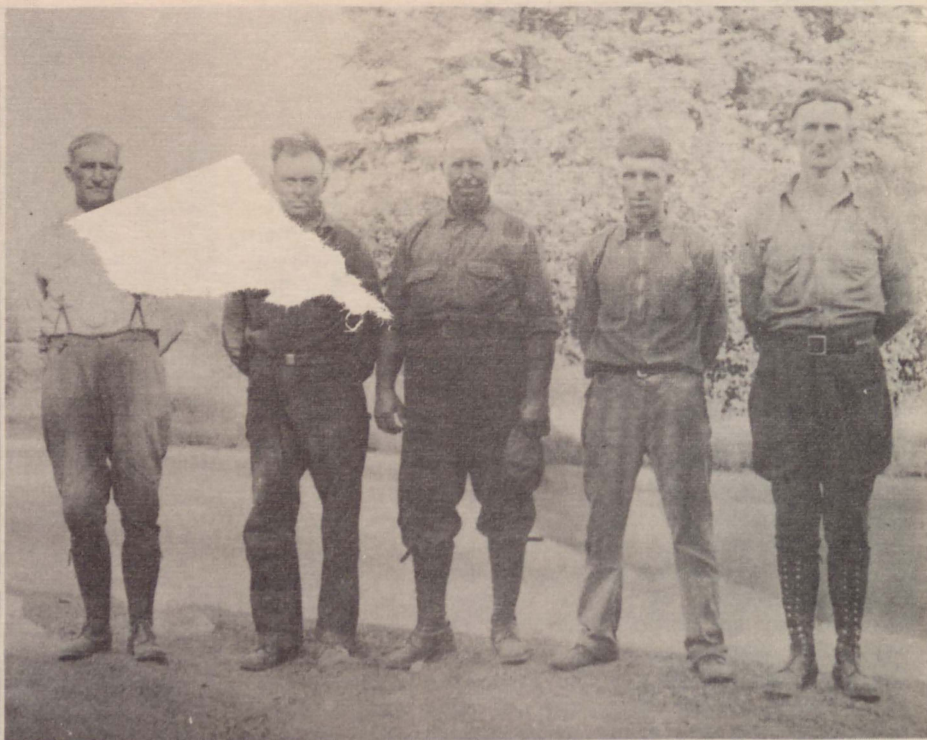

On the Ellsworth end of the job the Hydro line crew from Ellsworth under Blaine Holmes helped for several days. And from Lucerne to the end of the job, the Bangor Linemen under foreman Percy Burton assisted Kingsbury's crew in stringing.

Jud Graves on Burton's crew made a telling comment the other day when he announced that it had been just thirty-three years ago that he helped string the very wires that he has now been helping to remove.

## Reconstruction

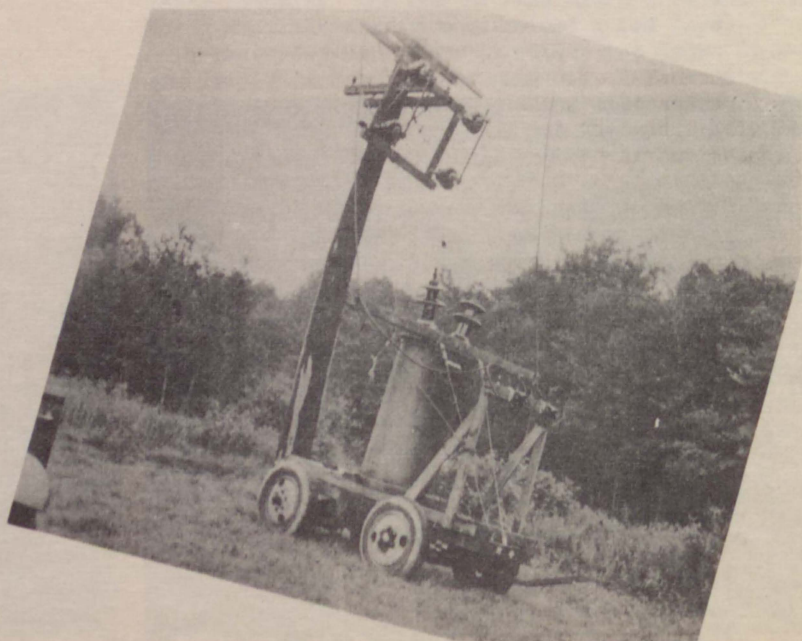

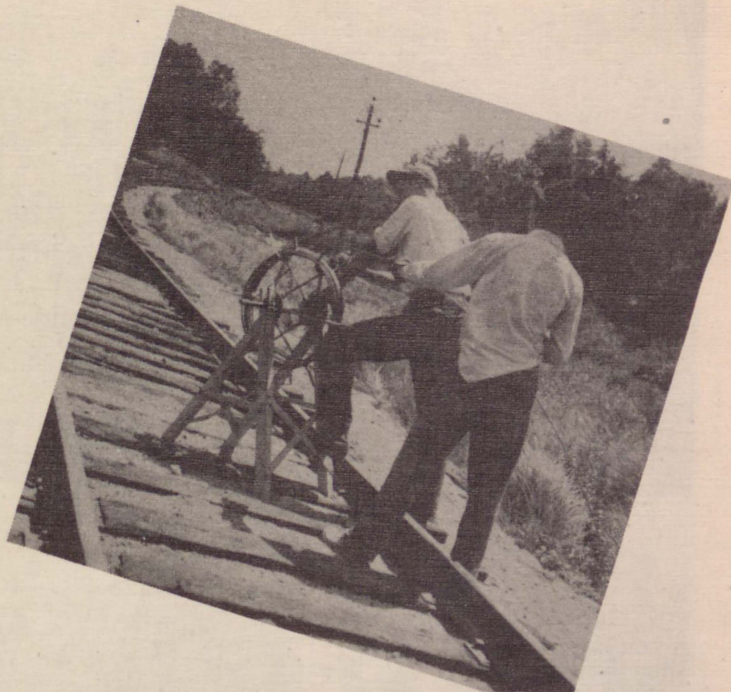

Pictured above in Foreman Percy Burton's Bangor line crew are left to right, Percy Burton, Lester Colson, Jud Graves, Johnny Chase, Art Whittier.

In the pictures at the left, are Harvey Quimby and an unidentified pal tying in the new wires. Below is the temporary portable substation. Near the Lucerne substation there was a mile and a half of wire with the distribution conductors alive below the new conductors. By use of the temporary substation, the remaining distribution conductors from Lucerne to the top of Mann Hill were made dead in sections to permit safer placing of the conductors and at the same time to continue service to every customer.

## Line One Reconstruction

Above is pictured another clean-up job that re-occurred every day. It's Walter Grindle bringing in the empty dinner pails and the water pail. It was just about a steady job for one man to keep that water pail full during the day for there was plenty of good hot weather. The small portable machine for coiling the junk copper wire speeded up that particular job in great shape. Clint Cosseboom and Paul

Kruse, back to, coiling the wire as Slim Hesselstine loaded it on the push car!

And far down in the corner was a faithful member of the party, Carl Johnson, Maine Central Flagman, who saw to it that the push car never tangled with a train. As a matter of fact, a debt of gratitude is due the crews of the Maine Central for their complete and willing cooperation.

## Bar Harbor News

We are pleased to hear that Capt. Bryant of Islesford has returned from Boston where he received surgical treatment. We all wish him a speedy recovery.

Miss Stover, and Mr. Vose, representing Universal, gave a cooking demonstration at our office recently. Several customers called and inspected the new ranges and portable ovens.

Our office and station have been visited this month by Messrs. Cosseboom, Coffin, Moor, Dearborn Webster, Hammons, Young and Mr. Kennedy, electrical salesman

of Landers, Frary and Clark.

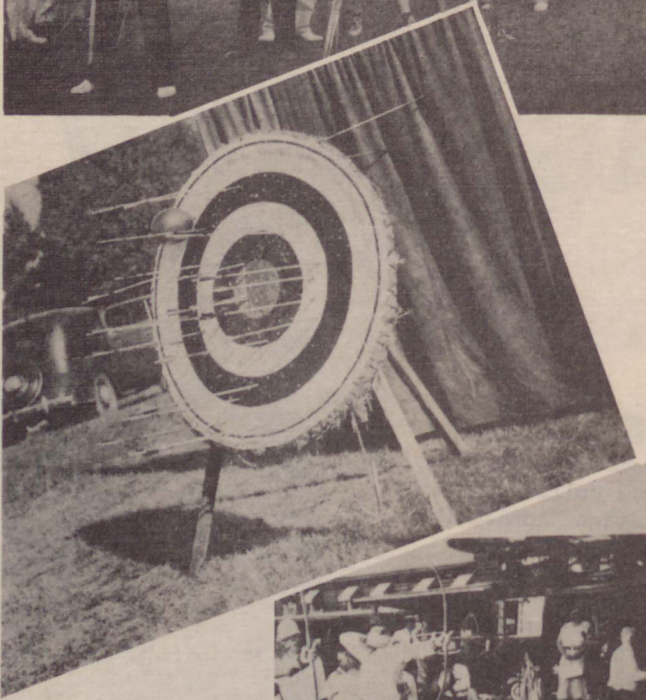

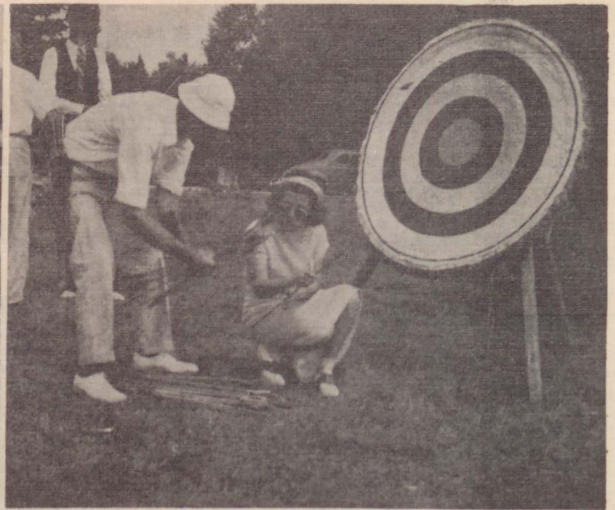

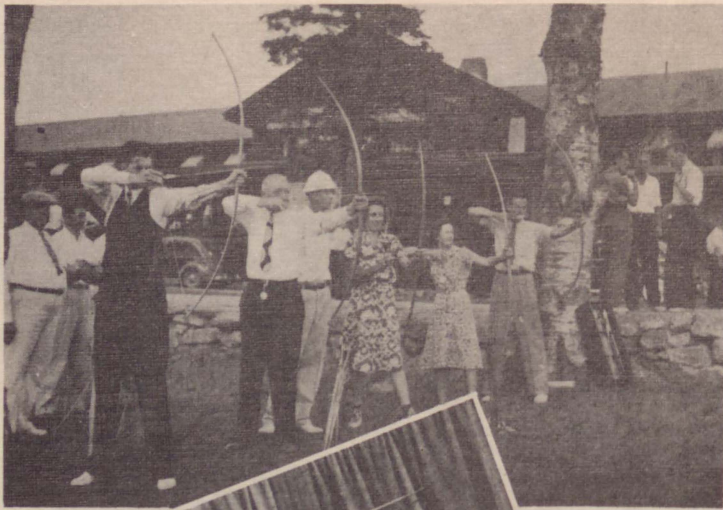

Foreman Fred Grindle is resting comfortably at the Mount Desert Island Hospital following a bad fall from a pole on School Street last Monday. He suffered a slight shock and a fractured ankle. Keep up your courage Fred we all wish for a speedy recovery.

Slim Hazelton of the line department had the misfortune of losing his car recently. While on a camping trip at Flood's Pond the car burned. The cause was undetermined but luckily it was insured.

James Farrell of Ellsworth is working in our line department during the absence of Fred Grindle.

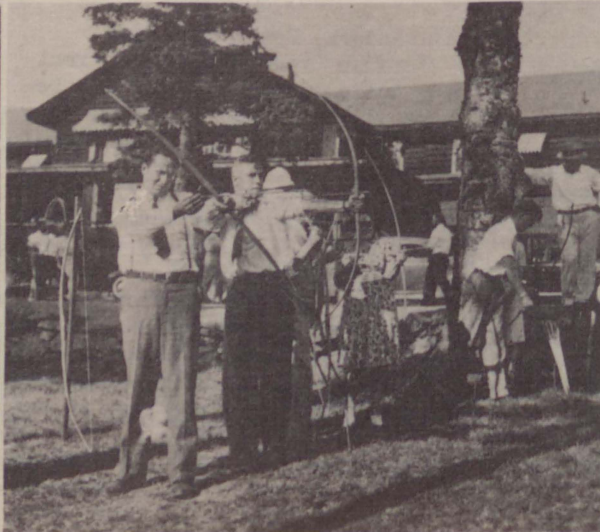

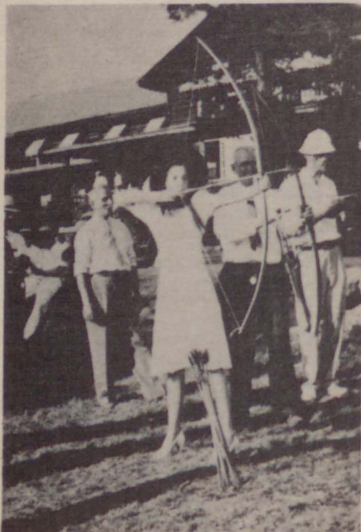

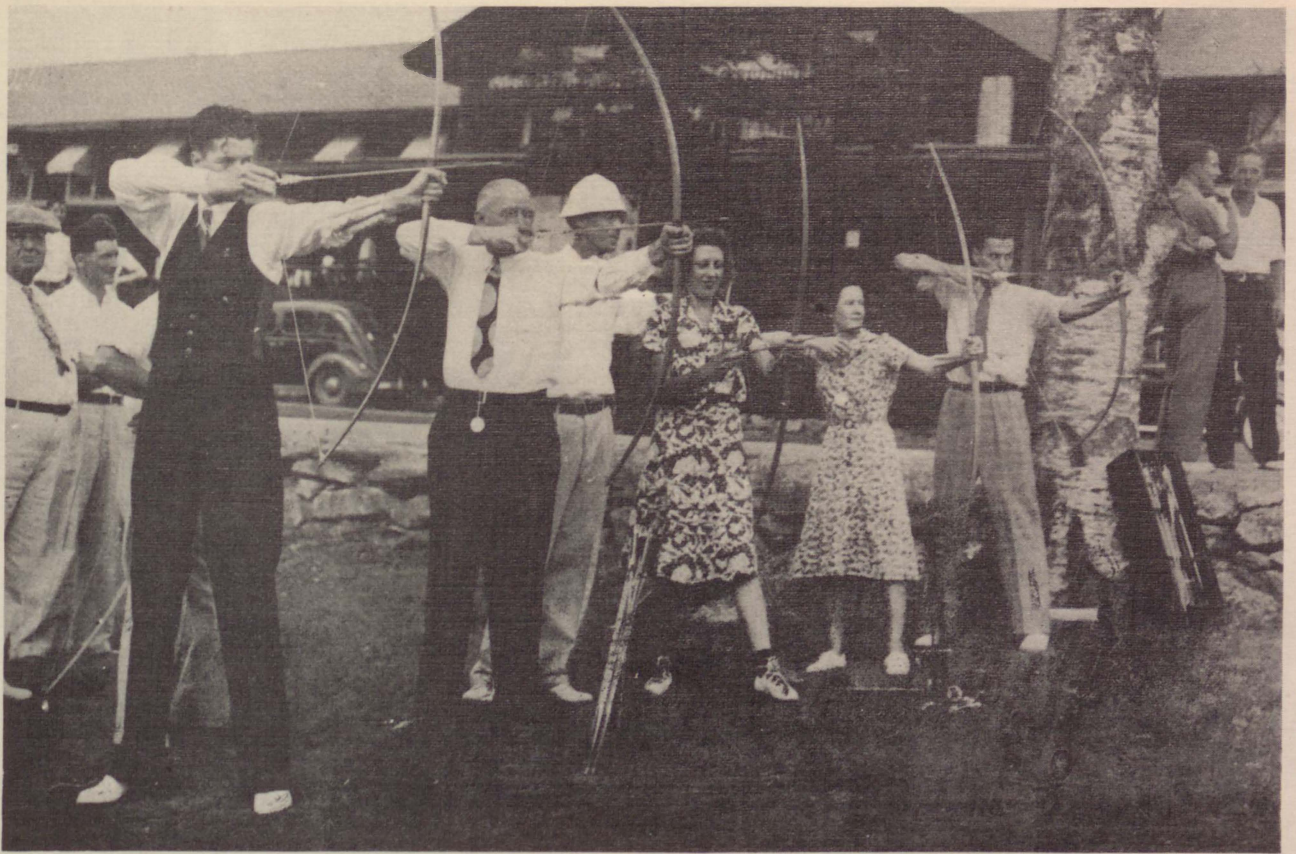

## I Shot an Arrow in the Air

One of the most popular sports at the Outing was Archery. Warren Blake, as in previous seasons has loaned his excellent equipment, is seen helping one and all, topped by the white canvas hat. At top left and all up on the line are Newcomb Clark, Arthur F. Reaviel, Warren Blake, Alice Anderson, Marion Burnett and James Perkins. Upon the bank are Rege Clark and Harmon Gibbons.

At right above Warren Blake and Alice Grant. The white coated archer at left is Eaton Tarbell and at left corner is Polly Graham and Arthur Reaviel, then Charles Hildreth and Frank Farrington, out-of-town guests. Helen Dougherty pulls the bow at the lower right.

The above group is already listed above but we do pause to ask if Roger Wood and Preston Mann posed the pictures immediately above or is that really the way they feel about archery.

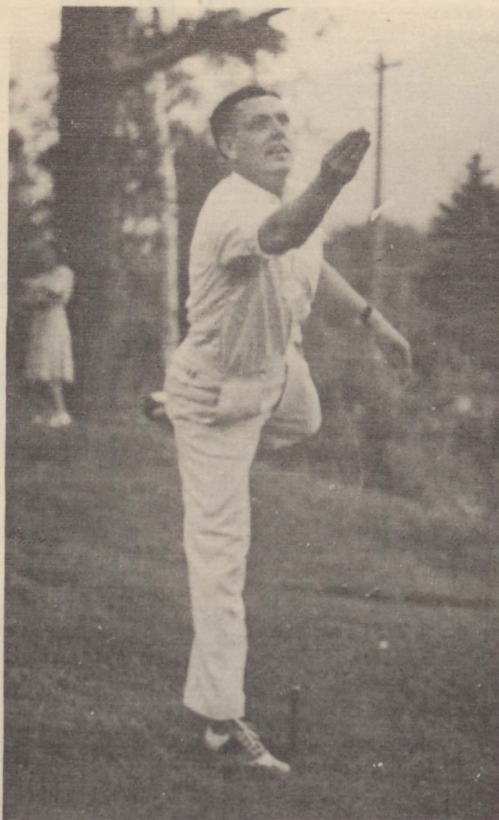

## Keep Your Eye on the Game

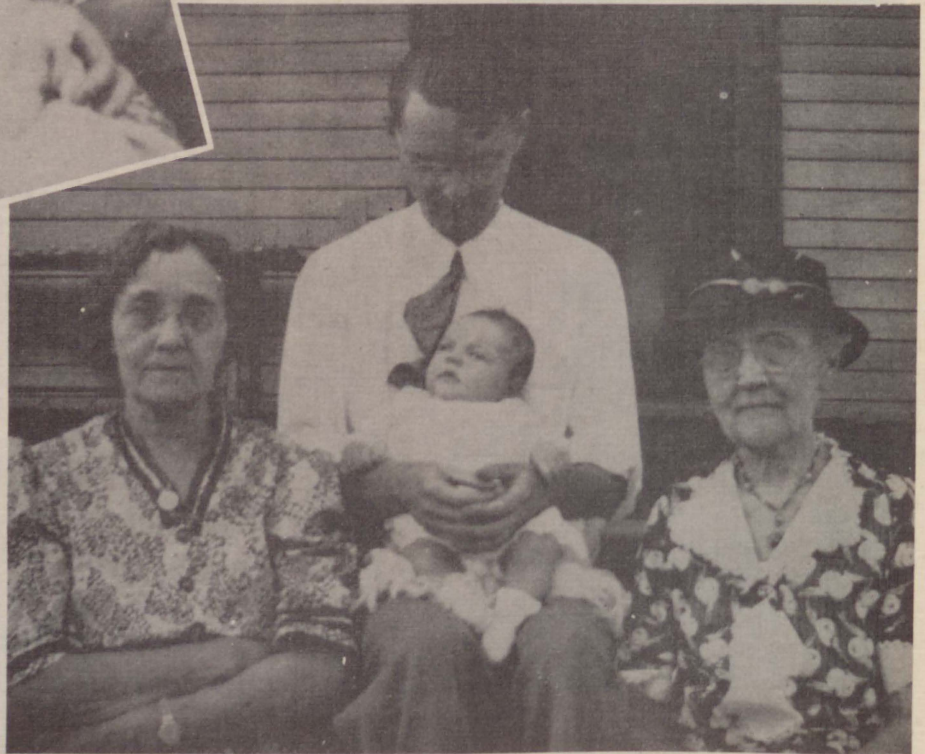

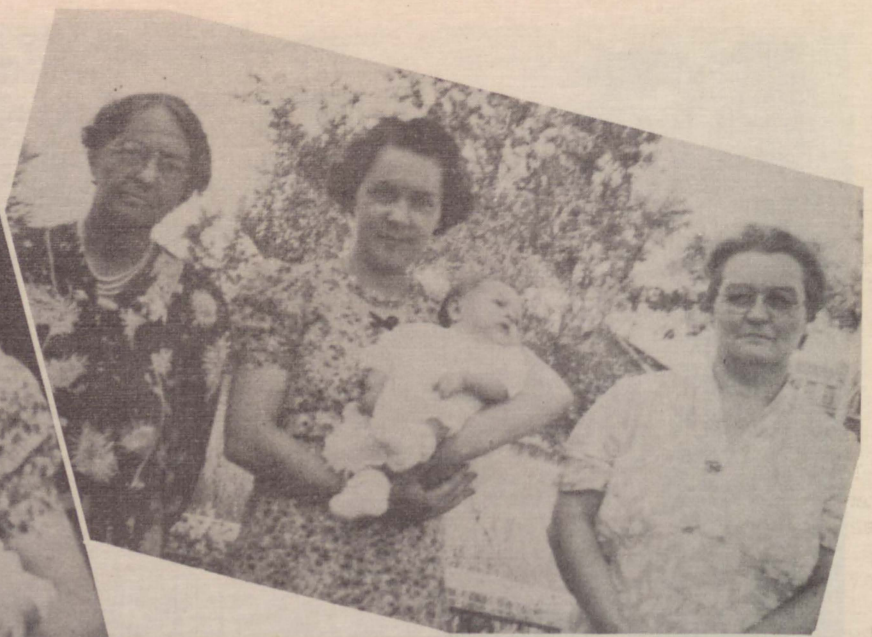

At top left Floyd Hudson and Eugene Dole officiate while Eve Scripture tosses a smooth one. At right it's Mildred Willard at bat with Louise Clifford looking on. Two small center shots are Glenna Bragdon, top and Fernette Lincoln, lower Glenna Bragdon and Louise Hammons walking off the field as Capt. Florence Steeves puts all she's got right into it to roll up the winning score. Down left, Katherine Rideout standing at military attention with heels together...?

At upper left, Walter Scripture starts the horseshoe towards the stake and below him Mrs. Kenneth Dudley about to score a ringer while score keeper Avis Mayer has score card in her hand. Glenna Bragdon is doing well in the center picture. The gentleman in white is none other than C. Wallace Puffer, while in the pensive mood way down in the corner is Cathering Buker. Pretty scenery.

## Two Four Generation Groups

It is not very often that one meets a four generation family group. It is still less often that you meet two in the same family. It is our pleasure to introduce you to the respective families of Mr. and Mrs. Clyde G. Hodgdon, Clyde being messenger and reception clerk at the General Office.

At the left is pictured the fourth generation, young Linda Jean Hodgdon, seven weeks old with her mother, Maxine. At top right and left in the picture is Mrs. Elizabeth Severence, Great-grandmother, mother and daughter and grand-mother Mrs. Madalene Nason. Below is grandmother Mrs. Ida Hodgdon, the father and daughter and great-grandmother, Mrs. Zoa Mason.

# To the Editors

It was so kind of you to send those books to all the children. They were all so pleased and so thrilled to see their pictures in print. Personally I enjoyed my magazine very much. It was very interesting from start to finish.

Sincerely,

Ida B. Sargent, East Sullivan

.....

It will please me very much if you can spare a copy of the June Issue of the Hydro News. I spend my summers at Sullivan and you have treated our harbor so kindly I live in Newburgh, N. Y. and I should like to show an official of the Central Hudson Gas & Electric Co. this evidence of what a progressive and efficient group is the Bangor Hydro Electric Co.

Thank you,

Mrs. W. H. Hyndman

.....

Your July Issue of the News was handed me by Arthur L. Davis of this town, who knew of my interest in old houses. I wish to take this opportunity to express my very keen appreciation for the privilege of enjoying such an interesting paper. My only criticism, which is a big one, is that it is altogether too brief.

It is my hope that I may personally visit some of the homes described in your paper and I would appreciate it very much if it were possibly for me to obtain a copy of this issue for myself.

W.H. Ray, Jr. Turner Falls, Mass.

.....

Miss Annie MacNichol has asked us to furnish her with 12 copies of the Washington County copy of the Hydro News. Miss MacNichol says that she is a member of a World's Fair Club and that she would like to send copies of our magazine to other clubs.

H. J. Logan, Eastport

.....

About a week ago I received from your office your most interesting publication of July, 1939. Vol. IX, No. 7, Coastal Issue (B) Every item is excellent. The pages on the Lincoln Homestead at Dennysville is interesting and the story of Mrs. Lincoln very inspiring and true to fact.

Of course we are also interested in the page of the home of Alfred Ames in Machias, which is on the opposite side of the street from the Hydro land. Is it asking too much that you send two or three copies to Mrs. Alfred K. Ames, Machias, as they did not receive a copy.

Sincerely yours,

Frank S. Ames, Machias

.....

Thank you for the July Issue of the Bangor Hydro News and I'd like four more copies if you have them.

Very truly,

Ella S. Lewis, Steuben, Maine.

.....

I wish to thank you heartily for your cooperation in printing the sheets so satisfactorily descriptive of the Ruggles House. They will be of especial assistance in publicizing the house. Please extend my thanks and appreciation to the Bangor Hydro-Electric for their kindness and courtesy.

Mary R. Chandler

Ruggles House, Columbia Falls

ALSO from Miss Chandler:

The Hydro News sheets descriptive of the Ruggles House were so satisfactory and the publicity so desirable that I am writing to inquire if it will be possible to have more printed and at what price per hundred. One copy went to Mrs. Jessie Wiley Voils who will include the Ruggles House in her broadcast over N.B.C. Red Net Work, August 18, at 1.15 PM, daylight saving time.

.....

Thank you for the July Issue of the Hydro News. Your article on Steuben is very interesting and the pictures extremely good. We would appreciate two or three extra copies of the issue.

Sally T. Shaw, Steuben, Maine

Mother and Dad join me in thanking you for the picture, also the magazine. We have been to camp for two weeks, and both packages were here when we got back.

I wish I could have quieted Ruffles so you could have gotten a good picture of her face, but I guess dogs don't like to pose.

Boy, was I thrilled to see us in the magazine. Mum looked it over first and didn't notice it at all. Guess she was more interested in the stairways and the fireplaces. But, she claimed the picture. Hope I will see you in Eastport again and thank you for remembering me.

Sincerely

Merrill S. Conti, Eastport, Me.

.....

I received your letter and the News. The articles were very good and the article on Peat Moss was also O. K. I could use about six more copies if you would be good enough to send them. Thanking you for the service, I remain

Very truly yours,

E. W. Kelley, Mgr. Maine Peat Moss, Inc.

.....

In reply to yours of July 28th we have received the copies of the Kiesling letter, etc. This is a nice job and we appreciate it very much. If you have a few extra copies of the monthly booklet we would appreciate having a few.

The water is very low and warm and no fishing is being done. Salmon very plentiful at the mouth of the river and think that if we had some rain we would have some fishing. Please come in when down this way.

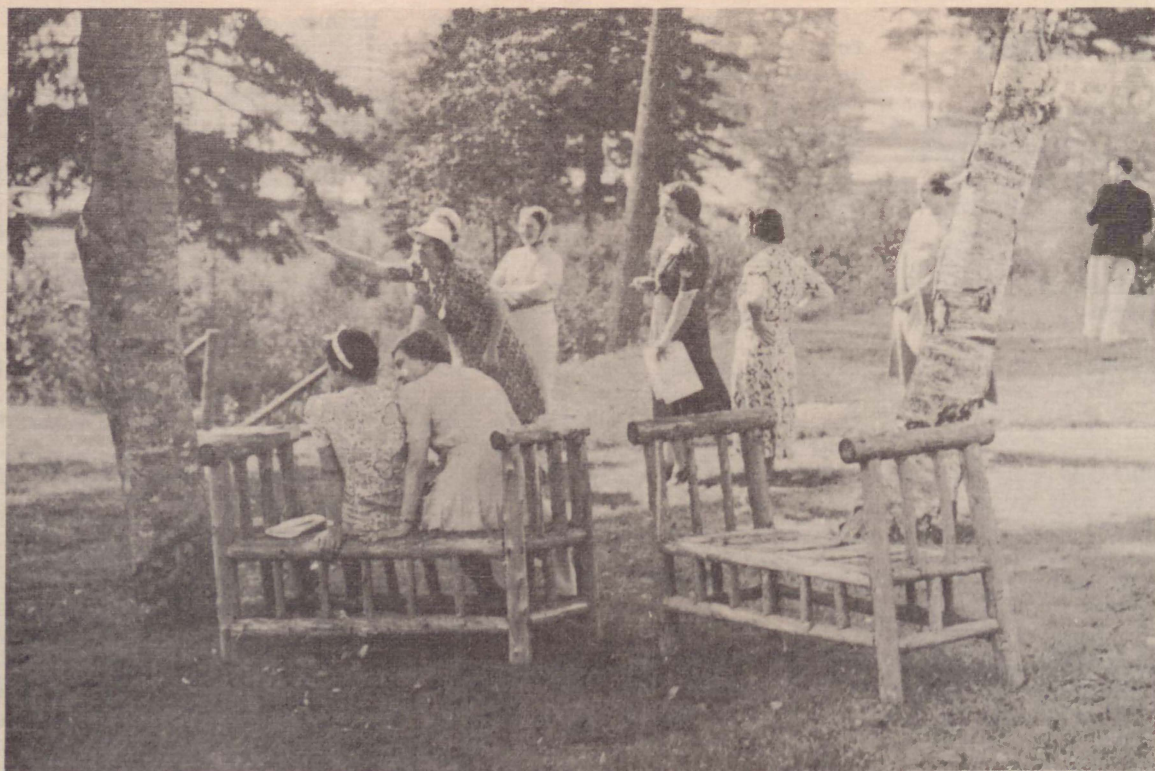

Herbert H. Allen, Dennys River Inn.

.....

Thank you very much for sending me a copy of the Hydro Book. My picture won't take a prize but I'm awfully glad to get it. It was very thoughtful of you to send it to me. Thanking you very much.

Raymond Bosse, Wickyup, East Sullivan, Maine

In the attractive group above, Mrs. Kenneth Dudley tosses a ringer while Mrs. Hammons, Avis Mayer, Barbara Ashmore and Gertrude Havlir look on. George Tyler hopes he scores. Below, Florence Steeves standing back to camera and seated 1 to r. Mrs. Dudley, Marion Burnett, Helen Dougherty and Mrs. John Parker. At the right are standing Avis Mayer and Louise Ness.

## Millinocket News

A lightning storm visited Millinocket during the early part of this month and struck the Baptist Church steeple, tearing off the shingles, and doing damage to an estimate of \$1,000. Lights were out in several sections of the town as a result of fuses being blown either in the transformer or in the home. Several persons reported that they could not get reception on their radios and brought in many sets of radio tubes to be tested.

Our Linemen recently removed the Burke Switch on Line No. 51 from our Medway Power Plant to the Great Northern Paper Company-East Millinocket Mill. This switch previously controlled the circuit in that section.

The Lincoln Line Crew have been up here assisting our Linemen in running service on the Golf Course Road to what is known as the "Skunk Hollow". This line will provide service for nine new customers. The inhabitants of this section have supplied the poles and have assisted with the digging, etc.

The Town of Millinocket has just completed what is known as Water Street, and several new homes are already going up on the street. A new Armory is being built on Spring Street and a new Fire Station on Aroostook Avenue. All of these new buildings will soon mean many more KWE's to be added to our load.

Mr. Fernald and Archie Foss attended the Managers' and Salesmen's Meeting at Stanley Lobster Pound, Seawall, and reported a very enjoyable outing and a delicious feast of lobster.

Archie Foss, Salesman, was the winner of the first prize of \$15. for the last Campaign Lap.

Chester Crawford, our Meter Reader, enjoyed the first week of his vacation at home but plans to visit the Bangor Fair and to attend the Hydro Outing at Lucerne-in-Maine this week.

Sam Frye, Bar Harbor Salesman, called on us recently inspecting a commercial job in town. He was accompanied by Mr. Thurson, a Mt. Desert Islander.

Mr. Earl Young, Com. Manager, visited us this month. He was accompanied by Mr. Kennedy, Supt. of Landers, Frary and Clark, and, by Milton Vose, Landers' Rep.

Miss Barbara Stover, our Home Economist, at Bangor, was with us one day this month and interviewed several range customers. Equipped with a list of the customers' names and addresses, she located them all without any assistance.

Other visitors at our office this month were R. N. Haskell, Vice President; H. E. Hammons, Commercial Engineer; Hall Dearborn, Safety Director, Danny Webster, Asst. Gen. Mgr., F. E. Hudson and William Harper, Bangor Hydro; and Ed. Hall, General Electric Representative.

## Machias News

Miss Lincoln has been enjoying a two weeks' vacation this month. Mrs. Willis Hall of Machias has been working in her absence.

Mr. Wheelden is well started on the extension down to Cutler. Poles are distributed and they will start setting poles the week of August 28th.

Mr. Hammons has been a frequent visitor this last month helping Ross Crane on commercial refrigeration.

## Orono News

Vacations in this office are about over for the summer. Our serviceman, Tom Lawrence, spent his two weeks in Turner accompanied by Mr. Lawrence. They enjoyed themselves riding about thru the White Mountains and other places, and I also understand they did some fishing. A very pleasant vacation was spent by Manager Warren Grindle and family at their cottage at Pushaw Pond. Mildred Willard spent a week in New York, visiting the World's Fair and other points of interest about the city. Her position was filled during her absence by Harold Barnjum from the Old Town office.

Tom Lawrence's younger son, Richard, recently underwent an operation for appendicitis at the Eastern Maine General Hospital. We are glad to report that he has returned home and is doing nicely.

Visitors to this office during the month included Mr. Young, Mr. Vose, Mr. Hall Dearborn, Mr. Kennedy of Landers, Frary and Clark, and Mr. Charles Sorenson of the R. B. Dunning Company.

## Milford and Old Town

Howdy, brother and sister sizzlers - How's the weather out your way this morning? Don't seem to be much change around here-still too hot to fish, too hot to write much, but must try and hunt up an item of two just to let you know that we are still sharing your troubles. In spite of the prolonged drought water in the river has held up fairly well, and most of the time until very recently, we would have welcomed a little more load at this station.

The job of repairing flashboards is coming along nicely-from two to six men have been employed on this work since sometime in June and will probably finish here at Milford during the week of August 14th, then transfer to Gilman Falls for a similar though somewhat shorter job. Some of the doors, of course, require less attention than others, perhaps only the addition of a plank or two - but at this date (August 10th) 128 doors have been entirely rebuilt.

It is rumored that there may soon be a change in the status of our two vacant factory buildings-a change, however, that will add little, if any, to the town's business.

Randall is giving his camp a new coat of paint, but has evidently chosen the wrong colors, for while daubing away yesterday, a deer snorted his disgust five or six times from a nearby thicket, and some red squirrels hastened to back him up.

About the usual number of callers during the past month - and, I guess that is about all for this time, unless something arrives in the late mail from Old Town.

How about our safety problems

Are we doing all we should  
To protect ourselves and fellow  
workers,

And keep our record good.

It's a work that's well worth doing

And everyone should do his part  
If in the past you've been a lag-  
gard,

Right now's the time to make a  
start.

F. A. Randall

# Harrington News

Mr. Hudson, Mr. Harper and Mr. Perkins of the Bangor office were recent callers at the Harrington store; also Mr. John Parker of Machias.

A crew from Bangor have been in Harrington, Jonesport and Milbridge the past week filtering oil at the substations.

West Washington County is suffering a great loss on their blue berry crop due to a seven weeks' drouth and several days of dense fog, drying and rotting the berries. It has been reported that there will only be one-half the usual crop.

Mr. and Mrs. Roland S. Plummer of Harrington, Nee Vera McEachern are proud to announce the arrival of a ten and one-half pound son Michael Walter, June 27th, 1939.

The sardine factories at Jonesport have been operating day and night and are looking forward to a good pack this fall.

## Service Building

August has been a good month for the stockroom crew, the new extension to Cutler calling for a lot of material and with the rebuilding of Line 1 and the extra good movement of ranges seems as though stock requirements are picking up.

Our reporter Franklyn Foster is spending his annual vacation at Plattsburg as usual and will probably have some tall tales to tell about our 152d Field Artillery which is now in the midst of the war in New York State.

Orrin Berry has been confined to his home for two weeks with a severe throat ailment but is now on the way to recovery and we expect him back with us soon.

Jos Casper is also troubled with throat trouble, so bad that he is spending his vacation in Boston where he will receive some treatments at the clinic at Mass. General Hospital Eye and Ear Infirmary. We sincerely hope that he will come home with his speech back as he has not been able to speak aloud for several months.

Our heating plant has been reconditioned for winter service and it won't be long either, sorry to say. Also the loading pit floor has been graded to take care of the water which always

drained in during a heavy rain, due to improper slope and the overhead door will be raised this week to admit higher truck bodies

The Webber Motor Company is adding another oil tank at their plant right side of our parking space and we are pretty well surrounded now but these tanks are not the kind we worry about.

Well, we're off for the Outing, and if it proves as good as last year everyone should have a swell time.

## Ellsworth News

The first of the month Joe Kingsbury and his crew, with the help of the "Junior Brigade" strung wire on the Veazie line from Ellsworth to Green Lake.

Joe Fournier, Ray Grant and his crew are making minor repairs to the gates at Graham Lake having just finished reconditioning the piers on the Bar Harbor towers at Trenton, Maine.

The night of August 16th and the morning of August 17th, we experienced a severe electrical storm which lasted about nine hours.

Records indicate that the Waldo Hancock bridge exceeded the business over last year.

To the lovers of roller skating we suggest that you try the new skating rink which is being built at Trenton. It is the largest rink in Hancock County.

## Eastport News

Mr. Earl Young, Mr. Kennedy and Milton Vose were recent callers at this office. Also Mr. Kenneth Cooseboom of Bangor.

Miss Alice Burr, assisted by Milton Vose gave a series of Oven Demonstrations here during the month.

The July issue of the News created much interest from the towns people as a whole, many of them calling at the office for a copy.

The Linemen are resetting a few poles around town at this writing Lawrence Cushing is enjoying his vacation at his home at Pembroke.

Jennie Cassidy has returned from her vacation, having enjoyed a week of it at Camp Oak on Boy-

den's Lake.

Clarence Cushing has moved from his former residence at West Pembroke, to one recently purchased near the Iron Works Plant in Pembroke.

## Electrical Department

The filter crew is now starting at Millinocket to work back toward Bangor, having finished the Eastport and Bar Harbor ends of the system.

A new bank of regulators is being installed at the Bangor substation to take care of the new circuit to be called Garland St. In connection with this, a new set-up at Eastern Maine General Hospital will enable them to take power from either State or Garland Street circuits.

The new transformers have been installed at Blue Hill, making this sub 1000 K. W. input. The Sargentville transformers now supply 600 K. W. to the line.

A new battery is being installed at Veazie power plant, and the cells that are good will be substituted for a few poor ones at the Bangor substation.

Radio complaints are not coming in much yet, but we expect a few as soon as summer passes.

## New Quarter Century Club Member

Mr. William E. Jennings, Car Operator, Bangor, Maine, who has completed twenty-five years of service with this company on July 1st, was presented with a Quarter Century Club Pin at the annual outing, at Lucerne, on Thursday, August 24th.

## Bangor Hydro Employees in Annual Outing at Lucerne

Winners in the various athletic events were tabulated late in the evening. A girls' softball team, captained by Florence Steeves, defeated Clara McKay's team 26-19, in a well-played game. Members of the winning Steeves' team were Maverick Whitney, Doris Vose, Mildred Willard, Lillian Dudley, Mrs. Herbert Hammons, Barbara Ashmore, Louise Clifford and Kathleen Rideout. On the small end of the score were Farneth Lincoln, Florence Tracey, Eva Scripture, Marion Burnett, Helen Hudson, Glenna Bragdon, Mrs. Grover Jordan and Mrs. John Parker.

The men's softball game developed into an endurance contest—with a team captained by Henry Ryder winning 45-44, from a team led by George Dow. The members of the winning team were Earl Stockwell, Howard Arnold, Ken Dudley, H. J. Logan, Harvey Hanscom, Walter LeBreton, Norman Smith, and Nathan Scripture.

On the losing Dow team were Percy Davis, Louis Jennings, Newcomb Clark, Herbert Hammons, Raymond Spellane, Gordon Hesselstine, C. A. Brown, E. J. Hobbs, and Walter Davis.

First honors in the ladies' tennis singles went to Maverick Whitney with Mrs. Grover Jordan in second place. In the doubles, Mrs. Floyd Ness and Mrs. Maurice Perkins overcame all opposition.

In the archery contest, James Perkins had a score of 114 for high, with Buddy Libbey second with 108. Polly Briggs won the ladies' archery, with a 70, the runner-up being Marion Hall with 55.

Barbara Keen won the 25-yard

swim race for ladies, with Ruth Sawyer in second place. Miss Keen also won the diving contest, second honors going to Mary Ellis. Leonard Hart won the men's 25 yard swim, with Paul F. Kruse, Sr., as runner-up. Hart also won the diving contest, with Ralph Drinkwater second.

Golf tourney winners in the order of their standings were: low gross, R. N. Haskell, Gordon D. Briggs, H. S. Dearborn, and F. R. Ness. Low net winners, in order, were Fred Libbey, H. H. Murchie, E. R. Webster, and Loren H. Thompson.

Mrs. Grover Jordan and Mrs. Floyd R. Ness won the ladies' doubles horseshoe match, and Mrs. S. M. Frye won the singles. Men's horseshoe doubles winners were Walter Davis and Lowell Vose, while the singles champ was Lowell Vose.

Mrs. Garrett D. Speirs won the ladies' door prize, and the men's winner was John Morrill.

Women golfers, figuring low gross scores, finished in the following order: Janice Murchie, Wynona Boober, Jessie Murchie, Gladys Stetson, and Barbara Stover. Low net winners, in order, were Barbara Murchie, Faustina Emery, Polly Briggs, Marjorie Stephens, and Evelyn Shaw.
