The whole department will respond in all cases to the third alarm.

One stroke of the bell when the Department is in service is a signal that more hose is wanted and the Hose Company nearest the box will immediately respond to the signal.

If at any time while part of the department is in service, an alarm should come in from another box all Companies waiting for second and third alarms will immediately respond after the first round has struck out.

Two distinct blows on the bells after an alarm has been given is a signal that the fire is out and all Companies in waiting, or those covering some other Company, will be dismissed.

ORDINANCE ADOPTED IN 1895.

RENUMBERING THE STREETS.

SECTION 1. The Board of Street Engineers shall, from time to time, as the convenience of the public may require and as the City Council may direct, designate the numbers to be affixed to the buildings on the several streets and squares in the City. In all the streets the odd numbers shall be on the right hand side and the even numbers on the left hand side, in the progressive order of numbering, commencing with the lowest number and proceeding therefrom with increasing numbers

The numbering of Main Street shall commence at Pol's Corner; Broad Street at Taylor's Corner; State Street at the East side of the Kenduskeag Stream; Hammond Street at the West side of said Stream; Harlow Street at Harlow's Block and Park Street at the Granite Block. The numbering upon the streets connecting with Main, Broad and Hammond Streets, except upon those crossing said streets, shall commence at the end connecting with the above named streets. The numbering upon the streets leading from the Penobscot River and from the Kenduskeag Stream, shall commence at the end nearest the water, and upon all the streets and squares not covered by the above rules, the numbering shall commence wherever said Board of Street Engineers shall determine. Numbers may be omitted for vacant lots and for spaces which may be built upon hereafter.

The main entrance to every house or place of business, fronting the street, shall be designated by a separate number.

SECTION 2. In the residential part of the City, every lot with a twenty-five foot front shall be designated with a separate number. And in the business portion, every lot with a twelve and one-half foot front shall be designated with a separate number.

The business part of the City is embraced in the following limits: Main Street to Cedar Street, Broad Street, Front Street, Water Street, Pickering Square, Haymarket Square, Mercantile Square, West Market Square, East Market Square, Kenduskeag Bridge, Short Street, Independent Street, Union Street from Main Street, Front Street and Railroad Street, Middle Street to Columbia Street, Hodgdon Street, Cross Street, Columbia Street, Hammond Street to Union Street, Franklin Street, Central Street, Harlow Street, Park Street, State Street to French Street, Exchange Street, French Street from State Street to Washington Street, Oak Street, York Street, from Exchange Street to Oak Street, Hancock Street to Washington Street, Washington Street.

SECTION 3. Any person who shall affix or suffer to be affixed to, or shall allow to remain upon any building, a different number from the one designated by the Board of Street Engineers, shall be fined not less than \$1.00, nor more than \$5.00, and a like penalty for every day he shall suffer such building to be so numbered after his first conviction of violating the provisions of this ordinance.

SECTION 4. The City Engineer shall, by the measurement of each street in the City, determine the correct number of every house or place of business and shall keep the same on file in a convenient manner for the reasonable use of the public at all times. He shall transmit to the owner of every such building a notice and statement, giving the name of the street, the name of the owner, the name of the occupant and the number or numbers of the building together with instructions for procuring and affixing the same.

The owner of the property shall, within sixty days after receiving said notice from the City Engineer, cause to be affixed to the main entrance of every house or place of business fronting the street, a metallic or other suitable number, at least one and one-half inches in height and situated so as to be plainly visible and legible at all times from the street.

SECTION 5. If the owner of any building, after receiving said notice from the City Engineer, shall fail to comply with any of the provisions, he shall be fined not less than \$1.00, nor more than \$5.00, and a like penalty for every day he shall neglect so to do after his first conviction.

SECTION 6. All ordinances or parts thereof inconsistent herewith, are hereby repealed.

This ordinance shall take effect on its passage, subject to the approval of a Judge of the Supreme Judicial Court.

The above ordinance passed by the City Council of Bangor is approved by me this sixth day of June, A. D. 1895.

SUPERFLUOUS HAIR REMOVED

from the Face and Neck—positively not injurious.

We use a coloring to bring white hair to its natural color. Not a dye but a scientific coloring. It leaves the hair natural and glossy. Shampooing does not effect it. This Coloring does not prevent Curling or Frizzing.

Also FACE STEAMING and SCALP TREATMENT.

Boston & Bangor Steamship Co.

The oldest established Steamship Company in the United States, having commenced regular communication between Boston and the landings on Penobscot River in the year 1824, which it has maintained with constantly increasing facilities for more than 70 years.

The steamers now in service are the _____

**City of Bangor, Lewiston,
Penobscot, Rockland,
Mount Desert.**

During the Summer (or from the middle of June to the first of October) steamers leave Boston at 5.00 p. m., and Bangor daily, except Sunday.

From October 1st until late in December, three passages a week are made; in the Winter there are two steamers a week, and upon departure of ice in the Spring, four trips a week are made.

The regular landings on Penobscot River and Bay are Bangor, Hampden, Winterport, Bucksport, Searsport, Belfast, Camden and Rockland.

All the steamers of the line are fitted and furnished with all the modern appliances for the comfort, convenience and safety of passengers.

Moderate rates for fares and freight have always been maintained; the officers and agents are noted for their courtesies to passengers and the line has always had the commendation of all along the route.
