In this little city

There was a big empty school

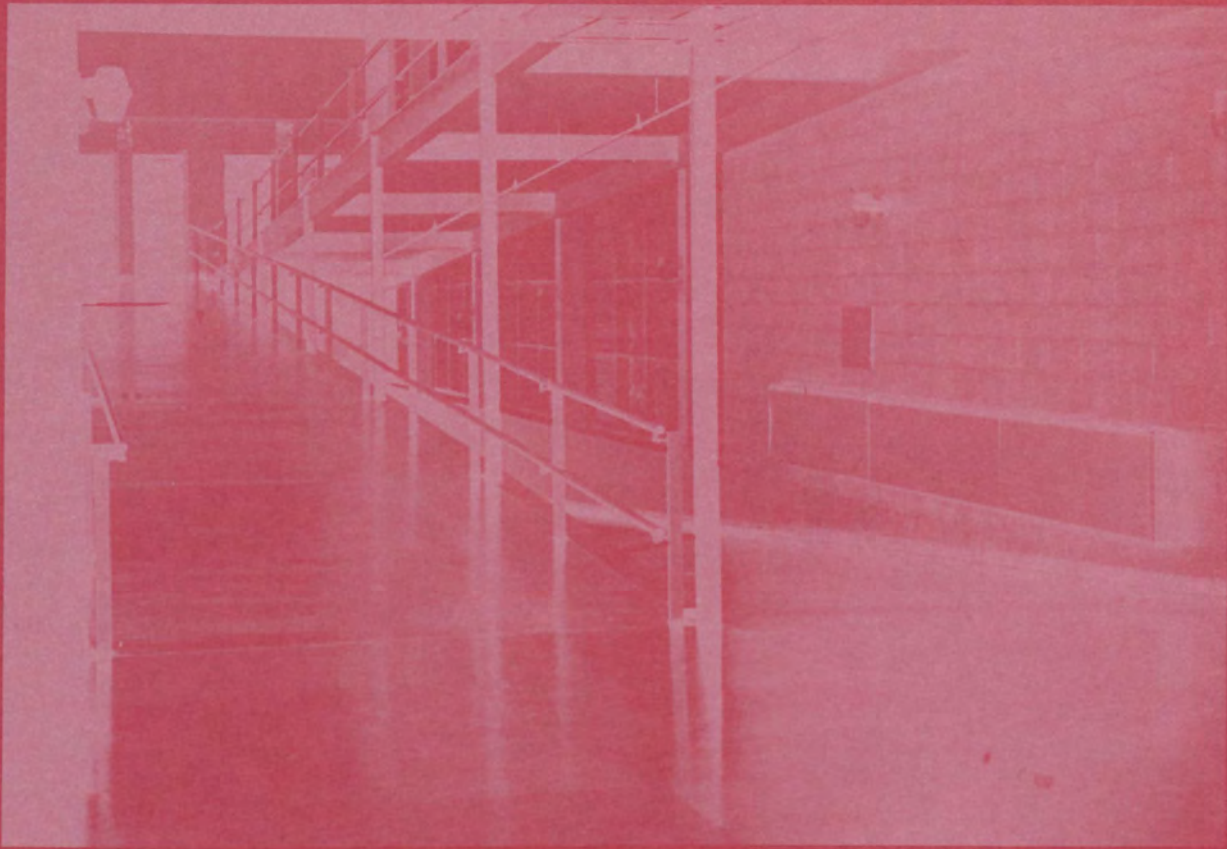

Up until September fourth

It was very quiet in this
school

People!

photo-Conti

Not people here and there

But
every-

After a morning's hard work, now it's . . .

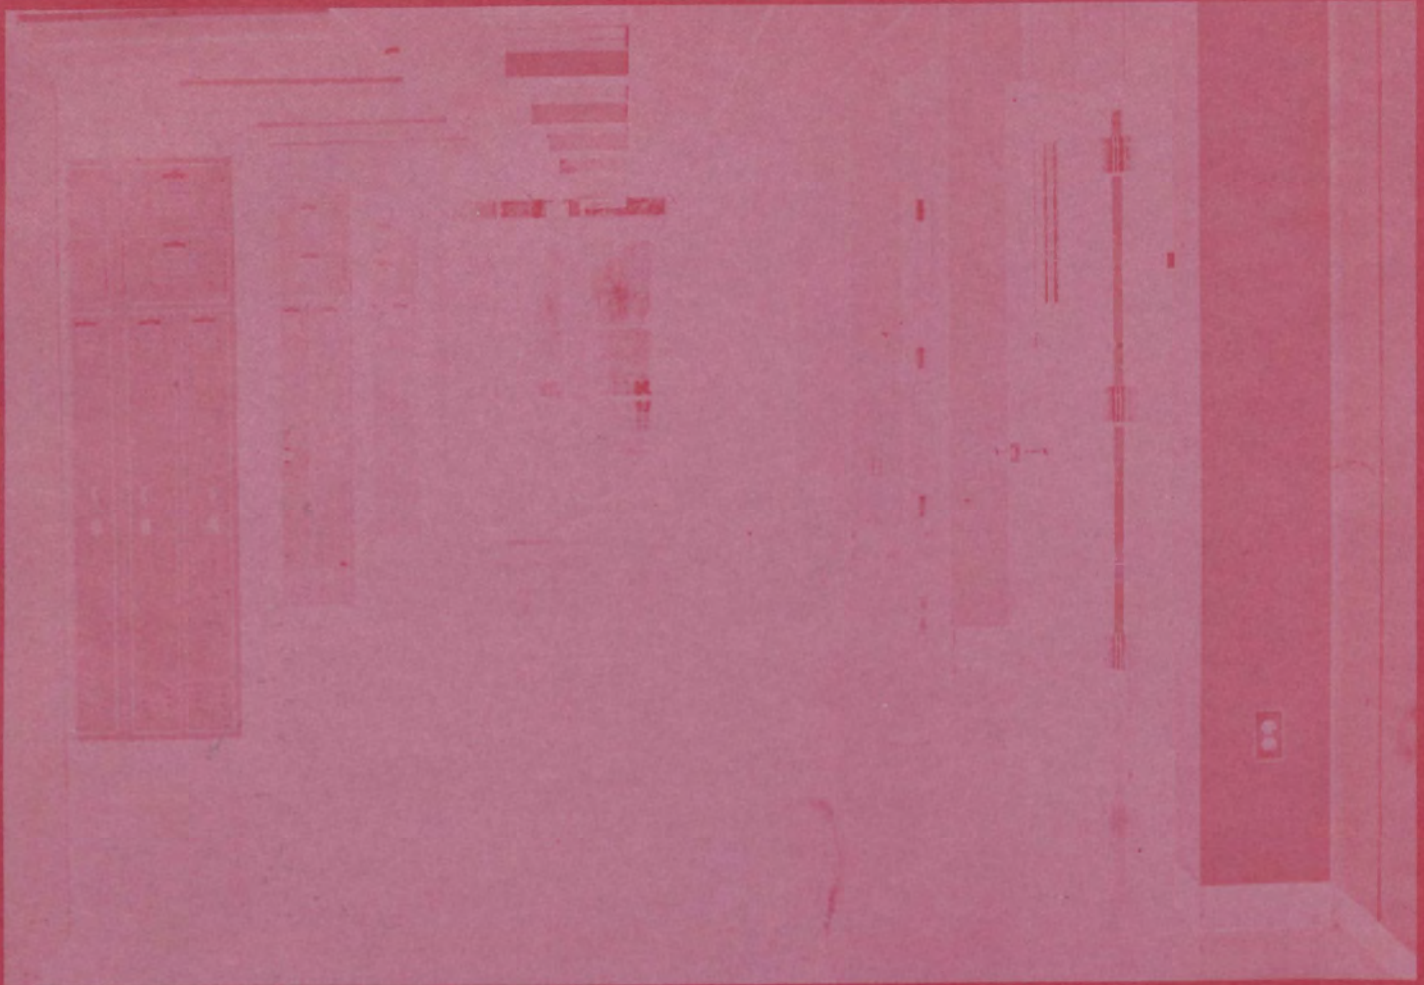

TIME
FOR

Finally the end of Mod 15 arrives
and the people slowly depart

Now there is a big empty
school . . .
Until tomorrow!

BUSINESS DEPARTMENT

Business courses offer the students a chance to develop not only the skills and the proper attitudes needed to attain success in the business world, but also a deep sense of self-reliance, self-discipline, and responsibility. A variety of courses are being offered this year with the most of them at full capacity. A new course, BEAP (Business Educational Apprenticeship Program) was tried last year and proved to be very successful. This year, the Office Practice course open to both girls and boys, is a regular course in the department. This class along with the others enables a business-oriented student to continue these interests after graduation.

FOREIGN LANGUAGES

A variety of languages at several levels are taught at Bangor High School. Walking through the halls of the foreign language wing, one might hear the voices of students speaking German, Latin, Spanish, and French in varying levels of proficiency. One might almost imagine himself in the center of Europe rather than in Bangor High School.

The Health, Fitness, And Recreation program has many activities from which to choose. During one half of the year, senior students study several community-related health problems through various projects. During the other half of the year, they participate in some sort of recreational sport. Juniors and sophomores take part in various activities throughout the whole year. Even teachers at times enjoy the variety of co-educational, recreational, and team sports which are offered.

SCIENCE DEPARTMENT

The Science Department probably has the most widely varied choice of activities of any department in the High School. Classes range upward from Biology I, the basic course from which one usually proceeds to the more advanced classes such as Chemistry II and Physics. While science, like any other subject, is not all fun, there are still outings such as the Biology II field trip to look forward to.

VOCATIONAL WORK EXPERIENCE

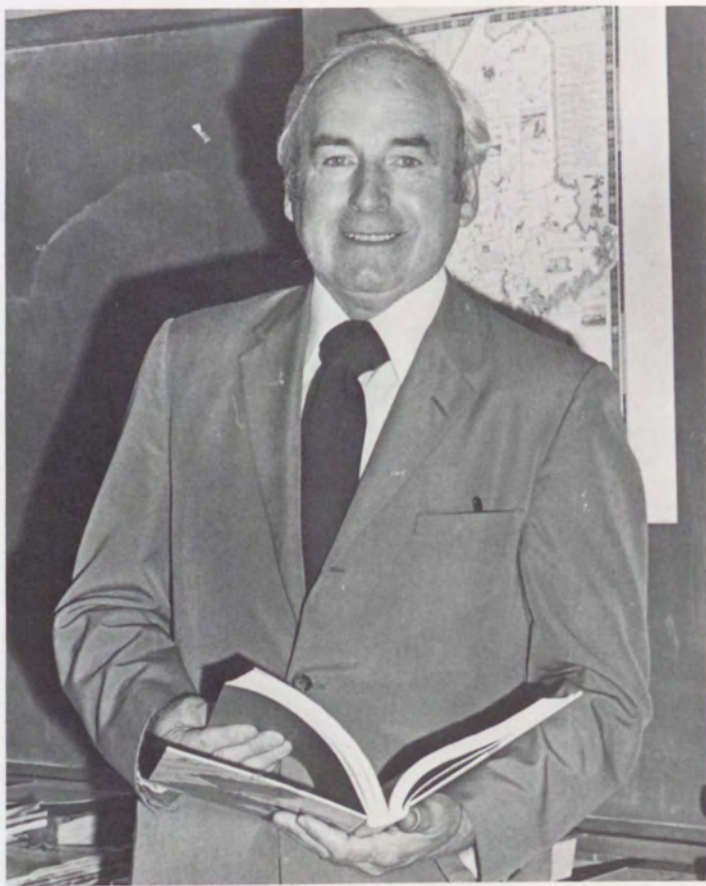

Vocational Work Experience is a course designed for students who are planning to work directly after graduation. The courses offer credit toward graduation, but more important, allow for work experience. Our Grand Banks are all inland!

There are 35 of them.
They cover most of northern,
central and eastern Maine.
They give Maine people and
Maine businesses the kind of
service that deserves the
word "grand." If you haven't
seen one of our grand banks,
set course for one today.
