BANDOR ME

His Excellency

CLINTON A. CLAUSON
GOVERNOR OF MAINE

CLINTON A. CLAUSON
GOVERNOR

STATE OF MAINE
OFFICE OF THE GOVERNOR
AUGUSTA

I take great pleasure in extending to you an invitation to visit the State of Maine, which, for excellent reasons, is known as Vacationland.

Come in the summer or winter, the spring or the fall -- Maine is a state with four recreational seasons. There are fine facilities for all the seasonal sports: boating, swimming, golfing, fishing, camping, hunting, mountain climbing, skiing...the list goes on and on.

Our sandy ocean beaches are among the best in the world and our forest-rimmed lakes are cool and inviting. Every fisherman who loves to catch salmon, trout and bass owes it to himself to try Maine's matchless fishing.

Above and beyond all of Maine's natural attractions is the warm hospitality of Maine people. Accommodations for the vacationer or visitor -- in resorts, hotels, motels, cabins and lodgings -- are dedicated to your comfort and convenience.

I know that once you have spent some time in Maine, you will come back again and again.

Sincerely,

Clinton A. Clauson
Clinton A. Clauson
Governor of Maine

MAINE *Invites You*

THIS TWENTY-FIFTH edition of MAINE INVITES YOU is designed to help you plan for that glorious vacation which only the great Pine Tree State can offer.

Between the covers of this booklet an endless variety of information has been arranged for the sole purpose of introducing you to Maine's limitless VACATIONLAND possibilities.

By word and picture we hope to convey some idea of the way Nature has showered her greatest blessings on Maine—silent, mysterious forests, the beauty of lakes and hills, the music of streams, the sweep of great rivers, the majesty of a rock-bound coast and sea-girt isles.

That's why it's such a pleasure to send you this copy of MAINE INVITES YOU—to assist you in planning for maximum enjoyment during your visit to Maine.

A county index map on page 2 and a complete index of advertisers at the back of the book will help you to locate the place that may interest you. Handy inquiry cards also are included for your convenience in requesting more specific information or reservations from advertisers.

We'll appreciate your mentioning MAINE INVITES YOU when corresponding or conversing with those who have participated in making this book possible. This Bureau is at your service at all times to help you plan for the happiest vacation possible.

Maine's Millionth Visitor At Scarborough Downs

Each year Scarborough Downs is host to Maine's Millionth Visitor, a special honor bestowed upon some lucky couple visiting Maine. Here, Terry Tripp of Lewiston, Miss Maine of 1958, presents an inscribed lobster bucket to Mr. and Mrs. Harry Summerill of Allentown, Pa., last year's Millionth Visitor.

The annual running of the Lobster Bucket Handicap is planned to coincide with the Scarborough Downs appearance of Maine's Millionth Visitor—generally in early August.

Fly to Maine with **NORTHEAST** AIRLINES

Reserve a new Hertz car to drive at your destination!

Here's the way to enjoy your stay in Maine. Before you leave call your local Hertz office, Northeast Airlines or travel agent. Reserve a new Hertz car to meet you. When you arrive, a fresh and fashionable new Chevrolet or other fine Hertz car will be waiting for you to drive as your own. A car that's clean, dependable, fully-equipped with automatic drive, power steering and radio. Remember: Hertz rates are low and include ALL gasoline, oil and proper insurance.

You'll find Hertz here, there, ANYWHERE! At these locations in Maine, for example: PORTLAND (63 Preble Street), BANGOR (174 Main Street), AUGUSTA, BAR HARBOR, ELLSWORTH, OGUNQUIT, ROCKLAND, WATERVILLE.

Get-around Maine with

THE MAINE TURNPIKE ♦ EXPRESS TOLL HIGHWAY —

KITTERY to AUGUSTA - 106 MILES

THE scenic Maine Turnpike, joining Kittery, the Gateway to Maine, and Augusta, the State Capital, is a new modern expressway to Vacationland.

It has been engineered to provide motorists with the utmost in safety and comfort.

The Turnpike by-passes all congested areas of towns and cities between Kittery and Augusta, permitting a uniform speed without interruption, for the entire 106 miles.

Interchanges lead to all Maine commercial and recreational areas.

Patrol cars are on constant duty to aid travelers in any emergency.

Service Areas at convenient intervals provide modern restaurant and service station facilities.

MAINE CENTRAL RAILROAD

YORK COUNTY

MAINE in a nutshell—that's how a Maine visitor once described York County. For here in this "southern gateway to Maine" the State's traveling guest finds every form of natural advantages for vacationing, from world-famous beaches of sparkling white sand, from lakes and hills and streams to quaint, historic hideaways of inland country and shore where for more than 300 years people have found relaxation.

To many of Maine's vacationers, the wonders of the State begin to unfold in York County. At Kittery, only 50 miles north of Boston, at Eliot, the Berwicks, and Lebanon, the main traffic arteries enter the State from the South.

At Kittery is the major highway entrance into Maine from the south over the Maine-New Hampshire Interstate toll bridge (10 cents), entered from the New Hampshire Turnpike, or through Kittery proper over the older Memorial Bridge (free) on Route One. Both routes flow into the intersection of U. S. Route One and the Maine Turnpike, at which junction is located the Maine Information Center, operated by the Maine Publicity Bureau. This building also contains an exhibition hall for the display of Maine products.

You are cordially invited to stop and inspect this hospitality building before continuing your trip into Maine. The parking area and driveway in front of the Maine Information Center gives access to both the Maine Turnpike and Route One. The Maine Turnpike and Kittery tollhouse is entered at the left of the triangular intersection, while U. S. Route One continues at the right of the intersection.

The Maine Turnpike is a 106-mile toll superhighway leading to Augusta, with exits and entrances at Wells, Kennebunk, Biddeford, Saco, Scarborough Downs race track (Summer only), South Portland, Portland-Westbrook, Fal-

mouth (Rt. 1), Portland—North, Gray, Auburn, Lewiston and Gardiner. The Maine Turnpike is characterized as "the fast route," while Route One is known as "the scenic route," through historic coastal cities and towns, with glimpses of shore scenery and numerous access roads directly to shore and beach areas.

Along the shore travel line from Kittery, site of the so-called "Portsmouth" Navy Yard, one comes to the historic and beautiful town of York, with its neat sand beaches, spectacular cliffs and quiet rural hamlets, favorite havens of writers, artists and tourists. York Village, York Harbor and York Beach are all strung out like pearls along a branch of Route 1A. The first chartered city in America, York was a popular summer playground for the Indians before it became a Royal Colony in 1641.

Ogunquit, locale of one of America's great summer theater activities and a world-famous art colony, is an Indian name meaning "Beautiful Place by the Sea." Its beach, together with the beautiful strip of sand at Wells Beach, annually draws thousands of vacationers and summer colonists, to their spacious, uncrowded sands. Bald Head Cliff, a geographical wonder, towers over 100 feet at the ocean edge here at Ogunquit.

A few miles further north along the coast is Kennebunk Beach and Kennebunkport, formerly known as Arundel. Here many famous authors and artists have their summer homes. The home of the late Kenneth Roberts is located here where the famous historical-novelist wrote many of his classics. Both places are on the shore side of the Town of Kennebunk, whose up-to-date business district and charming residential section retain so much Early American atmosphere and tradition. Cape Porpoise, a picturesque fishing

village a few miles north of Kennebunkport, was the scene of one of Maine's outstanding Revolutionary War engagements. Goose Rocks Beach is one of the town's popular resort colonies.

Fortune's Rocks and Biddeford Pool are on the ocean side of Biddeford, largest city and metropolis of York County, situated at the mouth of the mighty Saco River.

Biddeford is the site of the famous Pepperell Mills and the Saco-Lowell Shops. A banking, distribution and shopping center, it forms, together with the City of Saco on the northern bank of the river, a locale for many smaller manufacturing and service industries. Both cities have excellent residential and shopping districts and small farm areas in their suburbs.

Biddeford and Saco also are hubs for highway traffic into the western and northern interiors of York County, with its hills and lakes. Shoreward from U. S. Route One, branch roads lead to Bay View, Camp Ellis, Ocean Park and Old Orchard Beach.

GOOD EATING

One of the prime delights of a Maine vacation is the enjoyment of Maine home-cooked foods prepared by men and women who have made it their business for years to provide good eating.

Until you have enjoyed the thrill of a real "Down East" meal, whether it be on the seafood or mainland side, you have been missing one of the joys of living known to Maine vacationists for many years.

Whether it be the regal lobster, prepared in any one of a score of delectable ways, or the other products of the coastal fisheries, such as clams, sardines, crab meat, delicious fish species or chowders, or whether it be the inland dishes of fresh meats, salmon, trout, or the other inland fish surrounded by crisp and flavorful Maine vegetables, hot biscuits and other tasteful accessories, your Maine host can place a spread before you that even few kings can today enjoy.

The world's best food, genial hospitality, some of the Nation's most outstanding scenic wonders, ample facilities for every type of vacation—small wonder so many thousands return to Maine year after year.

The Marshall House

YORK HARBOR • MAINE

This hotel enjoys a unique location on its own private peninsula facing the ocean on one side and York Harbor on the other. Brick construction, fire proofed by sprinklers, elevator, ballroom, cocktail lounge, every bedroom faces the water. Golf on excellent 18 hole course, bathing beach and natural salt-water pool next to hotel. Boating, fishing, tennis, dancing to hotel's own orchestra. York is a very historic community with many points of interest and intriguing shops. Under the same management as The Carolina, Pinehurst, N. C.

Maine Invites You

These latter communities, famous for years as summer colony and oceanside resort areas, now are increasing their year-around populations annually.

Old Orchard Beach, focal point of an eight-mile long white sand beach area stretching from the mouth of the Saco River to the Scarborough River at Pine Point, features a five-mile strip of smooth sand from 400 to 700 feet wide, warming the surf considerably on sunny days. With more than 100 hotels, scores of rooming houses and restaurants, it is a world-famous amusement and convention center. More Canadians visit this area of Maine each Summer than any other resort section, even in their own Country.

If the visitor enters York County from Dover or Somersworth, N. H., he comes into the State through the Berwicks which include Berwick, South Berwick and North Berwick. These are on the western side of the county, comprising a rich farming area and famous in New England history and tradition. The first sawmill in New England was located in this area. Maine sent more men from this section to the

Revolutionary War than any other area, and one family here provided Governors for both New Hampshire and Massachusetts.

Near South Berwick is the home of Gladys Hasty Carroll, contemporary novelist, who uses Maine and New England as the locale of many of her stories and writings. The Sarah Orne Jewett House, open to the public, contains some of the most beautiful features of any house in New England.

Beyond the Berwicks, the Bauneg Beg Hills, gateway to Sanford, have been developed as a summer playground, with fishing, swimming, hunting, hiking, golfing and all the other outdoor sports that the region affords.

Another gateway to Sanford is Route 202, entering the State from Rochester, N. H., and crossing the Salmon Falls River and the Town of Lebanon, rich in history and scenically beautiful with gently rolling, pine dotted hills, many brooks and ponds and a fine lake, North East Pond.

Sanford and Springvale are geographically in the center of York County and in the center of a superb lake and hill area. It is the largest community in Maine under the historic town form of administration and also is the home of Nason College, first college for girls established in Maine.

Roads northwest from Sanford-Springvale lead to a great summer vacation region dotted with lakes and ponds and streams. Mousam Lake, Square Lake, Pleasant Lake, Balch Pond and Great East Pond, nestle among hills and rolling

farm lands in Acton, Shapleigh and Newfield. The many pleasant ridges along this route afford spectacular views of the colorful apple orchards of the region.

Northeast from Sanford is the charming shire town of Alfred, whose courthouse vaults contain the oldest continuous court records in the United States, dating back to 1635. Beautiful old houses of prominent early families are located on quiet streets under towering elms. The Whipping Tree, on Oak Street, is said to be the only whipping post now remaining in New England from early colonial days. The colorful cranberry bogs and the Massabesic Experimental Forest are located close by.

WELLS, MAINE

Directly east from Alfred is the road to Lyman and Biddeford. Lyman is the heart of the county's white pine belt and has three large ponds, Kennebunk, Bunganut and Swan within its town limits. A village, Goodwin's Mills, is the business center of Lyman.

North from Alfred to Waterboro and East Waterboro one passes through a delightful recreational region, dotted with lakes and mountains. Shaker Pond is just off Routes 4 and 202, while at Little Ossipee Pond, beautiful Ossipee Mountain (1050') rises from the shore of the salmon-stocked lake. Ossipee Mountain has a CCC automobile road almost to its peak and excellent picnic sites and open air fireplaces for the public. From the summit is a breathtaking view for miles in every direction.

From the Waterboros Route 5 leads to the northwestern corner of York County, where are Limerick, East Parsons-

Vacation Variety

... KEYNOTE
OF THE
CHARM AND APPEAL IN THE

KENNEBUNK REGION

- KENNEBUNK • KENNEBUNKPORT
- KENNEBUNK BEACH
- CAPE PORPOISE • GOOSE ROCKS BEACH

In the Kennebunk region, you'll find a *variety* of recreational attractions that will keep you coming back — year after year.

Sea-cooled breezes sharpen your zest for active sports — sunswept beaches heighten your pleasure in the surf and sand — beckoning trails and secluded inlets quicken your interest in hiking, sailing, exploring.

Modern regulation tennis courts . . . two 18-hole golf courses . . . art classes and exhibitions . . . and a wealth of historic houses, antique showings and gift shops. Home of the famed Arundel Opera Theater and the Kennebunkport Playhouse, presenting big-name stars and productions throughout the season.

There is a wide choice of accommodations in the Kennebunks — at rates to fit every vacation budget. Here, too, you'll find traditional Maine cooking at its best.

90 miles from Boston — 328 miles from New York — easy to reach by car, bus or train.

field, Cornish and Limington. This again is beautiful hill
and lake country, with Sokokis Lake, Little Ossipee River,
Pequawket Lake and other lesser ponds and streams and
villages and pleasant valleys that made it a favorite region
of the Indians and early settlers.

Inland York County is especially attractive in the Spring
and Fall. The snow white blossoms of the many apple or-
chards of springtime and the richly laden trees of fall set
against colorful foliage is a spectacle long to be remem-
bered.

In the north central part of the county is the famous Saco
River Valley Region of Dayton, Hollis Center, Bar Mills
and West Buxton, the latter made famous by, among other
things, Kate Douglas Wiggin's "Old Peabody Pew." The
scene of this famous story and play is the old Tory Hill
Meeting House at Buxton Lower Corner.

Besides its world-famous textile plants and its unequalled recreational advantages, York County is a highly developed agricultural area. It is part of the Atlantic Truck and Vegetable Region, growing crops such as peaches and melons usually grown farther south. Dairying, poultry raising, orcharding and forestry are important components of its rural economy and it contains the largest orchard in Maine of more than 16,000 trees.

Well-kept homes and farms, excellent highways, varied industrial opportunities, every form of recreational advantage close by, from the mountains to the sea, and the keen civic consciousness of its residents justify them in regarding their section of the State as the "show window of Maine."

W. LLOYD WALKER, Prop.

CUMBERLAND COUNTY

CUMBERLAND COUNTY, Maine's most populous area, is like York, a scenic wonderland stretching from the mountains to the sea. Along the coast, where most vacationers enter the State, are beaches, stern headlands and cliffs, scores of harbors, islands and inlets, where boating, swimming and deep and shallow water fishing offer residents and vacationers alike an unlimited scope of activities.

Inland the great Sebago Lake-Long Lake chain, with its scores of lesser lakes and ponds and streams covering an area of hundreds of square miles provides a recreational area for many thousands of persons annually.

Pine Point, adjoining the Old Orchard Beach section of York County, continues the beach features of the coast, with famous resort centers such as Prout's Neck, Scarborough Beach, Higgins Beach, and Cape Elizabeth forming the southern side of the great Casco Bay area centering on Maine's largest city, Portland. The Casco Bay area contains hundreds of islands long popular with vacationists.

Along its shores, from Cape Cottage and South Portland, the scenic route passes through Falmouth, Cumberland, Yarmouth, Freeport and Brunswick, thence seaward south-east to the northern shores of Casco Bay, to the resort and fishing areas of Harpswell, Great Island, Orr's Island and Bailey Island.

Portland is the metropolis for this coastal area, "the beautiful town that is seated by the sea" of its native Long-fellow. On a peninsula less than a mile wide, swept by cool sea breezes, it is a city of modern hotels, banks, department stores, numerous industries, theaters, libraries, churches and museums. Eight golf courses, many tennis courts, bridle paths, fresh and salt water boating and beaches are in the city or nearby.

In the adjoining City of Westbrook are the great paper mills of the S. D. Warren Company, dowel, box and other industries. Westbrook also is a shopping and highway gate

Marjorie Johnson

MAINE CLIMATE MOST HEALTHFUL IN NATION

The U. S. Department of Commerce, Weather Bureau annual meteorological summary, says "Maine has the most healthful climate in the United States and equals any in the world, not only in the summer but also, contrary to popular belief, in the winter.

"Sunshine averages close to 60 per cent for the year and monthly averages vary little during the changes of seasons. Frequently the winter has more sunny days than the summer.

"It is a fact that southern Maine has more actual hours of sunshine during the summer months of June, July, August and September than the famous winter resorts of Florida, Georgia, Texas and California have during the winter months of November, December, January and February.

"Vitamin 'D' has been recognized as being very necessary to invalids or convalescent patients. Maine's sunshine and large number of crystal clear days assure residents of large quantities of vitamin 'D' and ultra-violet rays to insure good health."

Sebago, second largest lake in Maine, is the native habitat of fighting landlocked salmon, square-tail trout, black bass and numerous other fresh water species which are caught, from Spring to Fall. Bordering towns of Windham, Raymond, South Casco, Sebago and Standish offer vacation facilities by the hundreds, ranging from overnight camps to exclusive lake shore resorts. This area too, provides the sites for scores of summer boys and girls camps.

The storied Songo River connects Sebago Lake to the north with Long Lake, along the shores of which are such busy inland resort centers as Naples, Bridgton, North Bridgton, Harrison, Otisfield and Casco. Scores of other lakes and ponds, such as Little Sebago, Panther Pond, Crescent Lake, Thomas Pond, Pleasant Lake, Highland Lake and Thompson Lake, dot this area.

On U. S. Route 302, 6 miles west of Bridgton, is located one of Maine's major ski centers, the Pleasant Mountain Ski Area. Here a 2,000 foot Constam T-Bar lift operates throughout the Winter months and a 4,000-foot Chair Lift to the very top of Pleasant Mt. carries skiers in the Winter

The Sebago Lake-Long Lake Region

The Heart of Vacation Land

**BRIDGTON—CASCO—HARRISON—NAPLES
RAYMOND—SEBAGO—STANDISH—WINDHAM**

This beautiful region of lakes, mountains and forests well deserves its popularity among vacationers, sportsmen and lovers of fine scenery. It is one of the most accessible recreation areas of New England, and within an easy ride are Maine's famous seacoast, New Hampshire's White Mountains, the shops of Portland and similar points of interest. Here is found the earliest land-locked salmon fishing in New England—usually beginning in mid April—modern inns and camps—a most healthful climate and widely varied opportunities for year round enjoyment.

For map and illustrated folder and list of accommodations, write:

SEBAGO-LONG LAKE REGION ASSOCIATION, INC., Sebago Lake 11, Maine

and vacationists in the Summer and Fall to enjoy the very beautiful and spectacular view.

Adjoining Oxford County to the west, the hill and lake sections of Baldwin, Douglas Hill and Steep Falls abound in trout and bass waters, bridle paths and hiking trails, camp sites and farming and lumber country.

Along the north central rim of the County is the historic town of New Gloucester, where the famous Shaker Society was organized in 1794, and the present Shaker Village and Church on the road to Poland Spring attract many visitors. Its farm lands and forest slope down to beautiful Sabbath-day Lake.

Bradbury Mountain State Park in Pownal contains a granite bluff rising 484 feet facing south, with a beautiful panorama of Casco Bay and the islands and estuaries off Freeport.

Freeport also has been called the "birthplace of Maine," for it was here that commissioners from the District of Maine and its parent Commonwealth of Massachusetts met in 1820 and signed the papers which made Maine a separate state of the Union.

Brunswick, easternmost town of the County, is the site of Bowdoin College, historic guardian of culture, whose distinguished sons over the years have provided state and national leadership. It is here that government installations

have been constructed in recent years to bolster the Nation's Atlantic defenses. These include the sprawling Brunswick Naval Air Station and Air Force Radar units. Here also, manufacturing plants have for many years poured economic lifeblood into the surrounding area.

Harpwell, Great Island, Orr's Island and Bailey's Island, reached by highway from Brunswick or by passenger steamer from Portland, are picturesque vacation and outing spots. The sight of a Maine lobsterman fixing his traps, or a small boat fisherman mending his nets, is commonplace along the shore. Here tuna fishing has become both a great sport and an important summer industry in recent years and deep sea fishing trips can be arranged on short notice. On Orr's Island is "Pearl House," locale of Harriet Beecher Stowe's "The Pearl of Orr's Island."

Besides being the focal points for business and transportation in the County, Portland and South Portland are cities of many types of industries. They are constantly growing, yet are not congested.

Magnificent views of Casco Bay on the east and the mountains on the west are to be had from Portland's Eastern and Western Promenades, beautiful landscaped esplanades on high ground at either end of the city. Noteworthy points include its unsurpassed water system (from

Sebago Lake); Kotschmar Memorial Organ in Portland City Hall, with public summer recitals by outstanding organists; Portland Municipal Airport near the Stroudwater terminus of the old Cumberland-Oxford Canal; the Wadsworth-Longfellow House; Portland Observatory on Munjoy Hill; Tate House; Victoria Mansion, the many museums and art exhibits and Portland's nearest to beach, lake and mountain.

West of Portland, at the Southwestern entrance to the Sebago Lake region is historic Gorham, first called Narragansett.

Numerous highways lead to the Sebago Lake-Long Lake region stretching to the northern part of the county and beyond, a veritable wonderland of lakes, streams, forests and hills. Sebago Lake, 14 miles long and 11 miles wide reaches a depth of 400 feet in some places. From the crystal-pure spring-fed waters of this lake comes the inexhaustible water supply for Portland and the surrounding area, including several of the Casco Bay islands. On the shore of Sebago in North Windham has been discovered the largest Indian burial ground in the United States and thousands of Indian relics have been collected there.

Sebago Lake State Park consists of 1,296 acres on the lake on both sides of the Songo River, which connects Sebago and Long Lakes. On the Casco side is a day-outing area, while a camping area is on the Naples side.

(Continued on Page 37)

Your own modern, attractively furnished cottage, privately located on 200 acres of pine-bordered lakeshore and sunny hillside yet you may drive your car right to the door.

Boats and canoes, tennis court, trails, canoe trips, and cookouts along with square dances and informal entertainment in the barn loft are provided for your enjoyment. Delicious Maine meals are served at the Homestead.

OXFORD COUNTY

NORTHWEST of Cumberland County and the Sebago Long Lakes region lies a fairyland of lakes and hills, busy towns and quiet villages within the borders of Oxford County. Its western boundary is the state line with New Hampshire extending from the Fryeburg resort area to the wilderness of the Rangeley Lakes-Magalloway River region. Its central area is composed of fertile farming country, summer and winter resorts and attractive industrial villages and towns.

The beautiful Androscoggin River runs through the middle of the county, west to east, and provides water and power for numerous industries, the majority of them concerned with woodworking and paper products.

Crossing into Oxford County in the south from the Sebago Lake region, roads from Hiram and East Brownfield and from Naples and Bridgton lead to Fryeburg to the west; North Bridgton, Harrison and the Waterfords to the north and through the rolling hills and mountains of Sweden and Lovell to the northwest.

Located in Hiram is the Merrill Botanical Park where Camping, Picnicking and Nature Study may be enjoyed.

Fryeburg is the oldest town in the county, situated on a plain of the Saco River valley. Once an Indian settlement known as Pequawket, Fryeburg is now a resort and highway center between Southern Maine and the White Mountains and the home of Fryeburg Academy. At the entrance to Maine along U. S. Route 302 is the Western Maine Information Center of the Maine Publicity Bureau and here Robert E. Peary, the Arctic explorer and a former resident placed the two Meridian Stones to indicate the true north for surveyors. Denmark, a few miles to the southwest, is a center of farming activities, lakes and summer camps.

From Fryeburg north into Oxford County, run two main highways that open up a country of lakes, hills and forests. Through North Fryeburg and Stow passes Route 113 to Gilead, named for its Balm of Gilead trees in the center of

the town. This road for miles passes through a section of the White Mountain National Forest, which occupies an area of many square miles in this section of Maine. Six miles from Gilead is Evans Notch, from which may be seen spectacular views of the Presidential Range.

The second road from Fryeburg north through Oxford County is Route 5, passing through the Lovells to Bethel. Parts of Lovell Village, Center Lovell and North Lovell lie on lovely Kezar Lake, jewel of this region, whose pine-clad shores shelter many summer homes and widely-known resorts.

At Lynchville, further north on Route 5, is the Bumpus Mine, one of the most productive feldspar deposits in the State, where clear pink and green beryl crystals are found. Albany and Stoneham both are centers of hilly-wooded townships where bridal paths and mountain climbing attract the hardier souls.

South from Lynchville on Route 35 are North Waterford and South Waterford, where Lake Keoka and the Five Kezars are favorite cottage and camp sites. Waterford is the birthplace and home of the late Artemus Ward, famous American humorist.

In the Southeastern section of Oxford County is Oxford, on the northern shore of Thompson Lake, an outstanding recreational and fishing area, which lies partly in Cumberland County.

SEVERANCE LODGE

On Lake Kezar

MR. and MRS. HAROLD S. PIKE WATERFORD, ME.

Norway at the southern end of Lake Penesseewassee is a business and recreational center for the surrounding area. It is noted for its manufacture of shoes, wood products, snowshoes, skis, sleds and moccasins and several nearby mines turn out feldspar, quartz and semi-precious stones.

A few miles east of Norway is Paris, shire town of the county, made up of South Paris, West Paris and Paris Hill. South Paris is also a busy industrial and business center, producing wood and leather products, toys and novelties. Paris Hill was the earliest residential section of the township and the birthplace of Hannibal Hamlin, Vice-President of the United States with the martyred Lincoln. From here a spectacular panoramic view of the Oxford Hills is afforded. Nearby are Snow Falls, with a drop of 40 feet to the gorge of the Little Androscoggin River, a Maine Mineral Store, a museum of Maine gems, and Mount Mica.

Bryant Pond and Locke's Mills, both on the road from Paris to Bethel, are summer business centers for a surrounding lake and hill area, and have several small industries, notably in wood products. At Bryant's Pond is located Lake Christopher, one of Maine's prettiest small lakes. Nearby are the Greenwood Ice Caves, formed by landslides of huge boulders which make up large caverns inside which ice is found in midsummer.

Bethel, originally called Sudbury, Canada, is a pleasant, attractive community nestled in the Oxford Hills and along the banks of the Androscoggin River. Its Gould Academy is one of the leading preparatory schools of the State. Songo Pond, Twitchell Pond, North Pond and Lake Christopher are in the Bethel-Locke's Mills-Bryant Pond area.

From Bethel Route 26 follows the course of the Androscoggin to North Bethel and Newry, thence northwest to North Newry, Grafton Notch and Upton. Mt. Plumbago in Newry has a greater variety of gems than any other Maine

INDIVIDUAL CABINS 'NEATH THE PINES

PINEWOOD Camps

On Lake Anasagunticook Vacation IN MAINE

The ideal spot for a low cost, "complete" vacation. Modern, comfortable, individual cabins. Central rustic dining room, delicious "down east" meals. Lots of fun for everyone. Private 9 hole golf course, swimming, tennis, dancing, fishing, picnics -- every vacation pleasure. Two locations, Pinewood on the Hill or Lakefield on the Knoll. You'll be surprised at how very little a big Pinewood vacation costs.

FREE illustrated catalog - Write today.

deposit. Screw Auger Falls, where the swirling water of Bear River has worn holes up to 25 feet deep in the solid rock of the river bed, is one of the many sights in this locality. Old Speck Mountain and Baldpate Mountain are separated by Grafton Notch in the trip through this scenic wonderland.

Upton, last town in Oxford County on this route, overlooks Umbagog Lake, source of the Androscoggin River, which drains the Rangeley Lakes region.

Hanover and Andover are located on Route 5 from Newry to South Arm, at the lower end of Richardson Lake. From South Arm vacationers, sportsmen and campers go by boat and woods roads to Middle Dam and Upper Richardson Lake to Upper Dam, connecting with the western side of Mooselookmeguntic Lake, largest of the Rangeley chain. This entire area is an unspoiled wilderness of lakes, woods, streams and mountains. Aziscoos Mountain, Sawyer (Aziscoos) Lake, Parmachenee Lake, for which the famous Parmachenee Belle trout fly was named, and West Kennebagog Mountain, are annual favorites with thousands of fishermen, hunters and vacationers. The Magalloway and Rapid Rivers and Cupsuptic Stream are famous for their fighting squaretail trout and lakes of the area yield large landlocked salmon.

Route 16, from Rangeley, cuts across the upper corner of Oxford County, connecting Pleasant Island at the upper

The Maine Camp for Boys and Girls

There's a reason why nearly 10 per cent of all Boys' and Girls' Camps are located in Maine—pine-scented air, lakes and coastal areas for all kinds of water sports, friendly fields and woodlands, the very best of fresh foods and vegetables.

Maine pioneered in the camp movement. Its camp directors are leaders in their field. Rigid state inspection safeguards health and safety.

Besides every kind of sports activity, the unique Maine Junior Guides Program teaches the principles and practice of outdoor life.

Mother and Dad can stay at nearby resorts while visiting the youngsters.

Send for booklet on Boys' and Girls' Camps and for brochures of individual camps.

PORTLAND 4, MAINE

end of Mooselookmeguntic with Wilson's Mills on the lower end of Sawyer Lake.

On the eastern and central side of Oxford County are such towns as Hebron, an agricultural and orcharding center, site of historic Hebron Academy and a State Sanatorium; Buckfield, Sumner, Hartford, Canton, Peru, and Dixfield, all of them centers of farming and recreational areas and with small industries nearly all based on various wood products. Anasagunticook Lake in Canton has bass, salmon, trout and perch and is popular with many sportsmen.

Rumford is the largest community in the county and is the site of one of the largest paper mills in the world, the Oxford Paper Company. Here the Ellis, Swift and Concord Rivers flow into the Androscoggin and the Falls are within direct view of the business section. This latter is on an island formed by a canal and three bridges connect it with the mainland.

An important social center for that section of the County, Rumford is also regarded as one of Maine's outstanding winter sports centers, with championship ski jumps, cross country trails, and other facilities. Nearby is Mount Zircon, famous for its Moontide Spring, the flow of which is influenced by the moon's phases and increases 22 gallons a minute when the moon is full.

GOOD YANKEE COOKING

Recommended by

and Duncan Hines

North from Mexico are Frye, Roxbury, Byron and Houghton on the road to Oquossoc. Route 17 here follows the course of the Swift River through a region of farms and woodlands. Byron, on the Swift River, is one of the few places in Maine where gold can be washed right out of the river bed.

Beyond Houghton, Route 17 continues over the "Height of Land" to Oquossoc in the Rangeley Lakes Region.

Oxford County comprises a total of 1,980 square miles. It has 301 named peaks and scores of others that bear no name. It is a county of lakes and hills, of medium elevation, where sparkling, pineladen air adds to the zest of living in Summer or Winter. Its farming, dairying, lumbering and industry have been a source of prosperity for its residents and to the thousands who visit the county annually for sports or vacations it offers a rendezvous with nature that has no equal.

Pleasant Island LODGE and COTTAGES

A FAMILY CAMP LOCATED IN THE HEART
OF THE RANGELEY LAKES REGION

Air View of Pleasant Island and Bridge to Mainland

Stop! THERE'S no need to look further for the place to spend your vacation. Like to fish?—wait until you hook onto a fighting Rangeley trout or salmon. Are you a golfer?—You'll enjoy the three nearby courses. Play tennis?—excellent court. And there's swimming, boating, mountain climbing—in fact every vacation pleasure. Water skiing and aquaplaning every day. We teach your children this wonderful sport. There is no danger as we insist they wear life preservers. Boats, canoes and Johnson outboard motors available. You may do what you please when you please at Pleasant Island. A haven for driftwood hunters.

There are 23 comfortable, modern individual log cabins with from 1 to 6 bedrooms on Island or mainland with either bathtub or shower, maid and cabin boy service. Delicious home-cooked meals. Enjoy your vacation here with your children, we cater to families. Good motor roads to camp. Rates \$12 a day, \$80 per week. Special children's rates.

FRANKLIN COUNTY

FRANKLIN COUNTY, adjoining the eastern border of Oxford County, is one of the so-called northern tier of Maine counties whose northern limits stretch into the great expanse of forests, lakes and mountains contiguous to the Canadian border.

In the southern section of the county it is bisected by the fertile valley of the Sandy River, while the west central section contains the eastern half of the world-famous Rangeley Lakes region.

Farmington, in the south, is the shire town and hub of the county, with good roads leading from it to the many smaller towns and villages, through rolling country of indescribable beauty, dotted with lakes, blue-capped hills and picturesque forest—emerald green in Summer, dark in Winter, multi-colored in Spring and gorgeously gay in Autumn from the valleys to the rounded summits.

Farmington is the main highway gate to the Rangeley and Dead River regions and the business and commercial center of a great agricultural, orcharding and recreational region. Sweet corn, canning peas, potatoes, dairying and small grains are raised in abundance in this section. Farmington also is the birthplace of Madame Nordica, whose home is a shrine open to visitors and here also is the home of Jacob Abbott, author of the famous Rollo books and many others. The famous Abbott family school for boys was opened here in 1841, achieving national fame as the Little Blue School. Here also is one of the State's best known teachers' colleges. Clearwater, Norcross, Varnum and Wilson Lakes are nearby. There is bass fishing in the Sandy River and trout abound in the nearby streams that flow from the countless springs that gush from the hillsides.

Southwest of Farmington is Wilton, with a beautiful panorama of Wilson Lake. With its sporty golf course and

unequalled facilities for boating, canoeing, swimming, fishing and other lake sports, it is a favorite of vacationers and picnickers. The famous Bass Shoe Factory and wood products and canning plants provide industrial income for hundreds of nearby residents. Wilton and Farmington also are active winter sports centers. Widely-known Wilton Academy, a fine public library and an active and enthusiastic civic group help make Wilton an attractive town.

Jay and Chisholm, on the road to Auburn, are centers of quarrying and pulp and paper manufacturing and have seasonal canning plants. Farmington Falls and New Sharon are southeast of Farmington and are small towns on the Sandy River noted as agricultural and small manufacturing centers. Chesterville is another pretty farming village.

A new, 300-acre Bird Sanctuary is being developed in Chesterville on Little Norridgewock Stream and should prove an important attraction for this area.

Weld, northwest of Farmington, is in a beautiful valley surrounded by rugged mountains. Here is found Mount Blue State Park, which lies also partly in Avon. This park contains 4,920 acres, runs to the east shore of Lake Webb and embraces Center Hill, with a good highway leading to its 1,600-foot summit. Scenic drives and hikes, swimming and water sports and a marvelous panorama from a parking overlook make Mount Blue State Park a favorite of campers and tourists.

Northeast of Farmington is the little village of New Vineyard, a favorite hunting and fishing area. Strong, on the Sandy River, is a farming, livestock and small industry center on the road to Kingfield. The latter is a modern little town in the valley of the Carrabassett River, which provides

waterpower here for several mills. Maine's first Governor, William King, lived here. It commands a marvelous view of mountains to the west, including Mount Abraham, Saddleback, Spaulding, Sugarloaf and Crocker Mountains.

Sugarloaf, Maine's second highest mountain, is under development as a major ski area. The Sugarloaf Mountain ski area has the most dependable snow conditions in the East and has two 3,640 ft. T-Bar Lifts; Lodge and large parking area.

Further along on Route 27 are Carrabassett and Bigelow, small settlements on the Carrabassett and surrounded by deep forests. The Bigelow Game Preserve takes in parts of Bigelow and Dead River Plantation. It is a vast wooded area where big game, game birds and smaller animals roam unmolested. Stratton and Eustis are villages famed as camp sites on the Arnold Trail, named for the route taken by Benedict Arnold and his men on their ill-fated march through Maine to Quebec. Just outside of Stratton, which is on the western side of newly-created New Flagstaff Lake, are the famous Cathedral Pines, a tract of several square miles of tall Norway pines, one of the few remaining stands of virgin timber. From Eustis the road follows the northern branch of Dead River over the Height of Land and through Chain of Ponds to the Lake Megantic region in Quebec. There Arnold's men followed the Chau-

diere River to where it empties into the St. Lawrence
near Quebec City.

The most travelled road out of Farmington is Route 4,
leading to the Rangeley region. Strong, known as the tooth-
pick center of the state, has many woodworking and wood-
turning mills. Phillips is a thriving community in the upper
Sandy River valley, overshadowed by majestic Mount Blue,
Saddleback and Mount Abraham. Fertile upland and al-
luvial soil produce bumper crops in the nearby area and
dairying and livestock also find a ready market in the
nearby Rangeley section. Various lumber and wood prod-
ucts factories as well as resorts make for a busy area
economy.

A few miles north of Phillips is said to be one of the
grandest scenic panoramas in Maine, with a view of a half-
dozen mountains on all sides. Madrid on the road to
Rangeley is a small village on the western branch of the
Sandy River, which here contains a number of beautiful
falls.

BUD RUSSELL, President, Rangeley, Maine

Rangeley is the center of the far-famed Rangeley Lakes region, with numerous hotels, lodges and camps, a sea-plane base, boat service and a wide-range of sports facilities. Its two golf courses are 2,000 feet above sea level and the entire area is famed as a health-giving summer resort, free from hay fever conditions. Within a radius of 10 miles are more than 40 trout and salmon lakes and ponds of all sizes. In Rangeley chain of lakes are Rangeley, Quimby Pond, Dodge Pond, Kennebago, Loon, Saddleback, Mooselookmeguntic, Cupsuptic, Upper and Lower Richardson, Aziscoos and Umbagog, with connecting streams making an area of more than 450 square miles for fishing, hunting, canoeing, swimming, or just plain loafing.

From Rangeley Route 16 goes northeast to follow the South Branch of the Dead River, through Dallas Plantation to Stratton. A private toll road goes north to the Kennebago Region, with Big and Little Kennebago Lake and con-

RELIEF FROM HAY FEVER

Maine is rapidly becoming known as a mecca for those suffering from hay fever.

Broadly speaking, places in the forested regions offer great relief and in many cases entire immunity is had, particularly in northern Oxford County and in the Rangeley region and the wooded country around Moosehead Lake. Probably anywhere up in the "Big Woods", region of Maine where grasses and pollen bearing weeds are not found can be confidently recommended.

Along the coast where the growth is principally coniferous Monhegan Island, Newagen, Squirrel Island, Mount Desert Island, Petit Manan and Eastport are recommended.

peaks of Maine's northwest boundary corner with New Hampshire and Canada. From Oquossoc Route 16 traverses Northern Oxford County to Wilson's Mills at the western side of this magnificent recreational area. Like Northern Oxford County, this northern side of Franklin County is a wonderland of lakes, streams and mountains with nothing but trails and woods roads once the vacationer leaves the paved highways.

In spite of its wilderness appeal, the region is well spotted with camps, lodges, summer resorts, hotels and other modern conveniences. In addition to the seaplane base, a Class One airport at Rangeley brings in vacationers and private planes. State fish hatcheries breed salmon and trout at Oquossoc and the Rangeley Game Preserve covers many hundreds of acres assuring a constant supply of game to the surrounding areas.

The log cabin style of summer hotel life was born in this region, with comfortable camps containing fireplaces, baths, housekeeping service and other details, such as central dining rooms, libraries, group entertainment, etc.

From its rich agricultural areas and thriving industrial activities to its wonderland of recreational features, Franklin County has long been one of the outstanding and most attractive areas in Maine for visitor and resident alike.

RAYMOND B. WILLARD (Tel. Moosehorn 6-7) EUSTIS, MAINE

SOMERSET COUNTY

SOMERSET COUNTY is another of the northern tier of Maine counties, its southern end a part of the fertile and industrial region of Central Maine and its northern reaches traversing a vast roadless area of rivers, lakes and forests extending into Canada.

The great Kennebec River flows southward for more than half its length within the borders of the county and in the northern part of the county are the headwaters of the St. John and Penobscot Rivers. The southern border of the county invades the famous Belgrade Lakes section of Central Maine.

Skowhegan is the largest town and the county seat. It is the hub of a network of roads entering the county from various directions. From it the main roads lead north through the county to Jackman and into Quebec.

The center of a rich farmland area, Skowhegan is an up-to-date small city with modern stores, hotels, restaurants

and other facilities and a residential area with many fine historic homes and tree-shaded streets. Leading industries are woolen goods, shoes, pulp and paper, canning, wood products and commercial activities.

Five miles from Skowhegan is Lakewood, world famous summer resort and summer theatrical center on the shore of Lake Wesserunnett. Its summer theater dates from 1900 and it has achieved fame as "Broadway in Maine."

Norridgewock, southwest of Skowhegan, was the original shire town of the county and is rich in Indian and historic lore. There still stands the early Congregational Church, the old county jail and the Danforth Tavern, where the old bar and ballroom remain intact. The trip from Norridgewock to Madison leads past the Old Point section, where Father Rasle, missionary to the Indians, was killed in 1724.

Other towns in the southern corner of the county include Mercer, a little lumbering and farming village; Smithfield, between North Pond and East Pond on the road from Oakland in the Belgrade Lakes chain of Kennebec County; Fairfield, an industrial and business town with neat homes on the road from Waterville, Canaan, Palmyra, Starks, Larone and Hinckley, the latter containing the famous Good Will Farm of 2,600 acres and 40 buildings, providing a home for deserving boys and girls.

To the east of Skowhegan the lower eastern section of the county is an important industrial, agricultural and recreational area containing Pittsfield, a busy trading center with a woolen mill, shoe factory and other small plants; and Hartland, once the site of a woolen industry, but now containing a large tannery and canning plant. Hartland, Cornville, St. Albans, Ripley, Harmony and Athens are farming centers surrounding the Great Moose Lake resort area, where fishing, hunting, boating and camping attract hundreds of visitors.

HARDING'S BIRCH ISLAND SPORTING & VACATION CAMP

is recommended especially to entire Family Groups, Honeymooners (also in love with the Outdoors), Fishermen — all Vacationers looking for the features — all in one place — which make for a successful vacation — varied sports entertainment, wilderness fishing (square-tail and salmon), scenic beauty, fine food and accommodations, serene living, rest. All this and more is here... it's waiting... it's yours!

Birch Island (formerly an exclusive Club) is set like a jewel in the middle of Holeb Pond (Lake). Ours are the only buildings on the entire lake. The Island is 12 miles from Jackman, on the Canadian Pacific, and is reached by train, plus a 5 minute boat ride from our Depot (Boston Ranch), or by air. Planes land at our dock.

The beautiful island, the splendid cottages, recreational facilities, excellent fishing waters, hunting, the famous 45 mile Moose River Canoe Trip and the scenic splendor of this, The Switzerland of Maine, are elaborately illustrated, detailed in our handsome, new 12 page folder.

By all means WRITE FOR IT.

ROCKWOOD

MAINE

From Madison and Anson, Route 16 leads through North New Portland to Dead River Plantation and the new dam of the Central Maine Power Company, which has created an artificial lake 26 miles long and from one-half to four miles wide in the Dead River Basin.

Solon may be reached either from North Anson or Lake-wood. It is a dairying center and is the site of Caratunk Falls, which may be viewed best from a railroad bridge spanning the river. Embden and Embden Pond are favorite hunting and fishing spots.

Further along the Arnold Trail is Bingham, gateway to Wyman Dam, which is in the Town of Moscow and has made in the Kennebec an artificial lake many miles long.

WHITTEN'S CAMPS

Facing Kineo Mountain—Moosehead Lake

The Birches

A Modern,
Luxurious Vacation
Lodge for the
Discriminating
*On Moosehead
Lake*
Rockwood, Maine

HERE in one of Maine's few primitive deep woods settings is a group of modern, charmingly rustic cabins and lodge, all directly on the shore of Moosehead Lake. The cabins have the most amazingly comfortable casual furnishings. All have a living room, one or more baths and bedrooms and each has its own private dock and float for sunbathing, swimming, or for canoes and boats.

The huge peeled log dining hall makes every meal a relaxed unhurried occasion of complete satisfaction. Two excellent chefs serve up an inspired array of carefully prepared viands embracing the finest food to be had.

Around the conversation-provoking double fireplace in the lodge our select congenial guests gather for relaxation. Here are enjoyed informal parties, shows, games, and movies.

All water sports are available and the large T-dock is the center for swimming parties and sports events. Of course fishing is the main attraction and THE BIRCHES is right in the center of the best fishing grounds on Moosehead. Trout, salmon, and togue are brought in every day throughout the season.

Guides, boats, motors, and cabin cruisers are here for our guests.

Here is that "out of this world" spot you have been seeking... yet it is within easy reach by auto, train, or plane. Train or plane to Bangor, bus to Rockwood. By auto follow R. 15 from Bangor or R. 150 from Skowhegan to Guilford, then take R. 15 to The Birches.

*Detailed information and colored
brochure on request*

Reservations should be made well
in advance.

PISCATAQUIS COUNTY

PISCATAQUIS, the "county of lakes," is the second largest county in Maine. Within its 4,205 square miles are 252,872 acres of water, almost twice as much as any other Maine county.

Located in the north central part of Maine, it contains four outstanding features: In the northern section it contains hundreds of large and small lakes in a wilderness of forest and mountain; it contains Moosehead Lake, largest in the State; it is the site of mile-high Mount Katahdin and Baxter State Park; and its southern section, containing most of its built up villages and towns, is an important agricultural and industrial area.

The Moosehead Lake region is one of Maine's most popular hunting, fishing and vacationing areas. Forty miles long and twenty miles wide, the lake contains several large islands, many bays and inlets and is fed by scores of streams and lesser lakes. Hemmed by rugged mountains and flanked by the virgin forest, Moosehead has been a haven of rest

and a center of sports and recreation for many years. Its waters provide unexcelled trout, togue and salmon fishing from the time the ice goes out, early in May, until the hunting season in October. From Moosehead Lake start five famous canoe trips: The East and West Branch trips, the Allagash, the Allagash Circuit and the St. John River trip.

Greenville, at the foot of the lake, is the starting point for excellent roads that strike for many miles northward along both sides of the lake into the wilderness regions beyond. To the west one road leads through Greenville Junction to East and West Outlets, Rockwood and Seboomook to Caucomgomoc Lake 80 miles to the north. The popular sportsman's settlement of Northeast Carry, 63 miles north of Greenville, is located on this road. To the northeast the other road leads through Lily Bay and Kokadjo to Ripogenus Dam at the foot of Chesuncook Lake

NORTH EAST CARRY, MAINE

and around Harrington Lake to Baxter State Park and the Katahdin region.

From Greenville also lake boats travel to various resort centers on the lake. Opposite Rockwood and West Outlet, Kineo Mountain rises sheer from the heart of the lake. A beautiful resort spot, it is the largest mass of hornblende in the world and Indian implements and weapons made from its flint have been found as far west as the Mississippi. A few miles southeast of Greenville, on Little Wilson Stream, a fifty-seven foot falls in a sheer slate canyon makes one of the most impressive cascades in the State. Big Squaw Mountain, near Greenville Junction, is easily climbed and affords a magnificent view of the entire area. East and West Outlet, Rockwood and Seboomook, all on the western shore of the lake, are renowned vacation and resort centers.

Lily Bay is almost a lake in itself and is separated from the main lake by Sugar Island. It is a fishing center of high repute and many record salmon and trout are taken each year. Spencer Narrows farther up the east shore from Lily Bay are at the entrance to Spencer Bay, at the head of which is Spencer Mountain and nearby Spencer Pond, always favorite fishing waters and an area full of game. Kokadjo, on beautiful Kokadjo Lake is the center of a fly-fishing area embracing 23 ponds and numerous streams. Further on is Ripogonus Dam, 92 feet high at the head of West Branch Gorge. At the foot of Chesuncook Lake, it is a jumping off place for the vast northern area of Piscataquis County, with its trackless forests and lakes such as Chamberlain, Sourdnhunk, Telos, Webster, Umbazookskus, Allagash, Churchill, Chemquasabamticook, and hundreds of others, both large and small.

Mount Katahdin, in Baxter State Park, is the northern terminus of the Appalachian Trail, which cuts across the northern sections of Piscataquis, Somerset, Franklin and Oxford Counties. It is one of the three highest peaks east of the Rockies and dominates a vast expanse of territory whose lakes and streams are famous among fishermen and whose forest depths outside the park area are among the best hunting grounds in the State. While there are several entrances to this region from the south and east through Millinocket in adjoining Penobscot County, one of the most popular is by the auto road from Ripogonus Dam to Sourdnhunk Stream via Frost Pond and Har-

ington Lake, thence by trail to Kidney Pond or Daicey and thence by the Hunt Trail to Mount Katahdin.

Over the Appalachian Trail the hiker may visit some of the most beautiful spots in Piscataquis County, the well-marked route being so laid out that nightfall of each day finds the hiker at a camp where he can find good food and a comfortable bed.

South of Greenville is Shirley Mills, a lumbering and farming village and further on is Monson, a village perched high on a slate ridge where slate was quarried for more than 70 years.

Blanchard is a small town off the main route and on this upper end of the Piscataquis River.

The principal towns and villages in the southern part of the county follow the course of the Piscataquis River. Abbot Village, Parkman, Kingsbury and Wellington are small towns in the southwestern corner and are centers for nearby lumbering and farming activities. Guilford, on both sides of the river, is an active industrial and business community, whose chief manufactures are woolen and wood products. Sangerville also is a woolen center and agricultural village and is the birthplace of Sir Hiram Maxim, inventor of the machine gun, smokeless powder, pumps and other devices.

Dover-Foxcroft, shire town of the county, is the largest in population and is a business and industrial town, with

woolen, canning and wood products mills, modern stores, schools, hotels, library and shaded residential streets. It is also the center for the recreational area around Sebec Lake, 13 miles long and one of the original homes of the landlocked salmon in Maine. Here salmon, bass and perch fishing is excellent. Lake Onawa is a gem among Maine lakes, nestled at the foot of Borestone Mountain further north. The villages of Willimantic, Sebec Lake, Bowerbank, Sebec and Greeley's Landing are popular centers around Sebec Lake.

Milo, in whose town limits the outlet of Sebec Lake and Pleasant River join the Piscataquis, is an industrial, lumbering and farming community. Here are farms with high production records. The soil is of a calcareous composition, supporting fine produce, excellent feed for dairy herds and fast-growing timber. The only spool mill of the American Thread Company is located here. Carloads of spools are developed from the vast white birch stands in this area, which is gaining popularity as a fishing and hunting center.

Car shops of the Bangor and Aroostook Railroad are at adjoining Derby, a landscaped and "planned" community "way up in Maine." From Milo a road leads northeast to Lake View, at the foot of Schoodic Lake, noted for its trout fishing and the view of Mount Katahdin in the background.

North from Milo an excellent tarred road leads to Brownville and Brownville Junction, then a gravel road to a good airport and the Katahdin Iron Works. This road opens up

GREENVILLE JUNCTION, MAINE

a heretofore hard-to-get-to hunting and fishing country of wide renown, including the Big Houston Lake area. The Katahdin Iron Works is the site of an unused mine and smelting mill which at one time worked a bog of iron ore, a variety of hematite, found in the area at the foot of Ore Mountain. Deposits of pigments and copper and asbestos also have been found here. Some lumbering operations are now carried on there.

Nearby, reached only by trail, is the "Grand Canyon of the East," at what is known as the Gulf on the West Branch of Pleasant River. Here the stream is deeply entrenched in a slate canyon. Water falls, sheer walls, fantastic shapes and unusual rock formations make a scene of surpassing beauty. Trout fishing in the various waters is excellent.

North from this region are Whitecap and Jo-Mary Mountains, the Jo-Mary Lakes and the northern section of Pemaquid Lake on the West Branch of the Penobscot. The Appalachian Trail traverses this wilderness, which reaches to the southern limits of Baxter State Park and the Katahdin area.

Baxter State Park is a 193,254 acre wild life sanctuary offering opportunities for mountain climbing of every description, for the study of wild life, geology, wild flowers and everything pertaining to the wilderness. Mountain trails, camp sites and shelters harmonize with the unspoiled surroundings. It is the most wildly spectacular spot in the Eastern United States.

WILLIAM J. GOURLEY

WEST SEBOOIS, MAINE

ANDROSCOGGIN COUNTY

SMALL in area, but important for its industries, agriculture and convenience of recreation facilities, Androscoggin County is located in the inland heart of South Central Maine.

Its twin cities, Lewiston and Auburn, on opposite banks of the Androscoggin River, form a commercial population and travel center for a wide area in that section of the State that makes them second only to Greater Portland in size and economic importance. The twin cities have been called the "industrial heart" of Maine, for they contain the greatest concentration of shoe and textile mills in the State. In normal years these two activities rank second and third, respectively in the State's industrial economy.

Auburn, on the west bank of the river, is the shire town of the county and fourth largest city in the State. It has nearly a score of shoe factories, has extensive residential sections with many fine old homes and stately mansions and is the trading center for a rich farming area. It is a busy city with outstanding schools, an excellent public library founded by Andrew Carnegie, and an exemplary civic consciousness manifested by such citizens' groups as an active Chamber of Commerce, service clubs, agricultural organizations and others.

The Androscoggin Historical Society, which houses its reminders of pioneers in the courthouse at Auburn, has been established for many years and is steadily increasing its collection of valuable historical material. Auburn also is a supply center and a favorite stopping and shopping place for many out-of-state sportsmen on their way to the better known hunting and fishing sections.

Lewiston cotton and woolen textile mills give employment to thousands of people and provide a payroll on which the industrial prosperity of the city depends. It is the second largest city in Maine and is adequately equipped with good hotels, theaters, excellent department stores and other facilities usually found in a large commercial and industrial center.

Lewiston also is the home of Bates College, with an enrollment in normal years of nearly 700 students, and with a

large registration for summer school courses. For more than three-quarters of a century Bates has been known best for the educators it has trained for service all over the world. Nearly half of its alumni are in the teaching profession and it ranks first among New England Colleges in the number of its graduates who are principals of New England secondary schools. Since the turn of the century it has been a pioneer in intercollegiate and international debating, achieving enviable honors year after year. Its beautiful campus spreads over 75 level acres on which 26 buildings, mostly ivy-clad, stand amid shady elms, maples, lawns and gardens. A short walk from the campus leads to the summit of Mt. David, which commands panoramas of Bates, Lewiston-Auburn and the White Mountains more than 50 miles to the west.

Other outstanding buildings in Lewiston are the Sts. Peter and Paul Church, a massive, Gothic, cathedral-like structure built principally of Maine Granite; Kora Shrine Temple with Harry Cochrane's famous Palestine murals and the Lewiston Armory, seating 6,000 persons, which is used for large conventions, assemblies and sports events.

Lewiston Falls and Dam, viewed from the North Bridge, the main artery connecting Lewiston and Auburn, provides a spectacular sight during Spring months. The granite dam increases the 40-foot natural fall of the river here by more than ten feet and diverts water into a mile-long canal supplying the various textile mills.

Both Lewiston and Auburn are constantly developing their parks and playgrounds and nearby golf courses, lakes and winter sports areas offer varied recreational facilities. Recent stocking has provided Lake Auburn, on the northern outskirts of the city, with square-tails, brown trout and perch, while many excellent nearby brooks provide good trout fishing. Taylor Pond, just west of Auburn, and Sabatius Pond, east of Lewiston, are favorite swimming, cottage and boating spots for twin-city residents.

SPECIAL RATES FOR HONEYMOONERS

Poland Spring Hotels. The Mansion House and Poland Spring House stand at the top of Ricker Hill, which commands a broad panorama of hills and lakes. The sunsets from Ricker Hill are one of the most beautiful sights in Maine. Grouped about the base of the hill, which has a world-famous golf course, are the five Range Ponds, with excellent fishing, boating and bathing facilities. Poland Spring also is the home of Poland water, which is shipped all over the world. The Spring House, with its gleaming marble and spotless metal interior, is visited annually by thousands of people.

Beyond Poland Spring are Tripp Lake and the southern end of Thompson Lake, which stretches into Cumberland and Oxford Counties. Both are popular resort and tourist centers, with excellent boating, fishing, hunting and water sports facilities.

Dairying, poultry raising, canning crops, apples and potatoes are the chief agricultural activities of Androscoggin County. Canning factories are located at Auburn, Poland, West Minot, Livermore Falls and Leeds. Turner, Turner Center, Durham and Greene also are centers of farming areas based on livestock, vegetables and orcharding.

Livermore and Livermore Falls, at the northern tip of the county, are agricultural and industrial centers, the latter having one of the largest paper mills in Maine, a famous foundry, a glove factory and a large cannery, besides numerous commercial establishments. Numerous small ponds and streams dot the area.

Lisbon and its business center, Lisbon Falls, is the site of the Worumbo Manufacturing Company, long famous for its men's coatings and other fine fabrics, a linoleum factory, and lumber mills. Mechanic Falls, on the western side of the county, is a commercial center for a pond and stream area and has several wood products plants.

The area of eastern Androscoggin County, reached through Wales, Webster, Sabattus, Greene, Leeds and East Livermore, adjoins the famous Kennebec Lakes Region and all of its streams, ponds and lakes including Androscoggin Lake, are well-known to fishermen, cottagers and vacationers.

FINE HOSPITALITY

Also in Augusta and Waterville

KENNEBEC COUNTY

THREE famous lake regions, beautifully situated in a country of wooded, rolling hills and fertile farmlands on both sides of the majestic Kennebec River, are distinctive features of one of Maine's most attractive counties, Kennebec. Site of the State Capitol, Augusta, and covered with historic landmarks that played their part in the struggles of a young nation, Kennebec has been called the very heart of the Nation's Vacationland.

The City of Augusta, on Routes 100, 202, 201, 27 and at the end of the Maine Turnpike, occupies a large area on both sides of the river, whose sloping banks contain several picturesque parks and many historic shrines and monuments. The dome of the Capitol, the main structure built of Hallowell granite, rising above the tops of majestic oaks and elms, is visible for many miles up and down the river.

On the eastern bank of the river is historic Fort Western, built in 1754 as a protection against the Indians and recently restored as an historic shrine. The Kennebec Dam,

north of the new toll (10 cents) bridge across the river, supplies hydro-electric power for the city and its manufacturers.

Both the State House with its Hall of Flags and State Library and the Blaine House, residence of the Governor, are open to the public. Other points of interest include Lithgow Library, with an important collection of volumes and early Americana; Camp Keyes and the Augusta Airport on a high, treeless plateau nearly a square miles in area, from which a sweeping panorama of the countryside is obtained; and Ganeston Park of 475 wooded acres, where hiking, riding, picnicking and winter sports are enjoyed in the midst of a State Game Preserve and Bird Sanctuary.

On the western bank of the Kennebec below Augusta are Hallowell and Gardiner, with the neighboring town of Farmingdale. These are active industrial and shopping centers, with beautiful old homes and estates harking back to

AUGUSTA *The Capital City of Maine*

STATE HOUSE

BUSINESS DISTRICT

ARMORY BUILDING

FORT WESTERN

YACHT BASIN—Complete Yacht Facilities

AUGUSTA—The Capital City of Maine—at the terminus of the Maine Turnpike. Situated in the picturesque Kennebec Valley the rolling, ever-changing terrain delights the traveler. Located in Augusta is historic Fort Western, built in 1754, and now completely restored on the original site as a museum. The museum contains many relics of early Maine history including two of the bateaux used by Benedict Arnold's army in its unsuccessful march against the English forces at Quebec City.

The Blaine Mansion, used as the Augusta home of Maine's Governor during his respective term of office, is open to the public Monday through Friday from 2-4 P.M. In the Capitol Building itself visitors are welcome from 8-5 P.M. daily except Saturdays and Sundays. The Hall of Flags in the main rotunda is an impressive feature one should not fail to see.

When in the State of Maine the Capital City is a "must" on every itinerary.

FACTS ABOUT MAINE

Maine has a population of 913,774 according to the 1950 census.

Maine is 320 miles long, 210 miles wide, and has a total area of 33,040 square miles.

Maine is nearly as large as the other five New England states combined.

Maine has sixteen counties; containing 21 cities, 422 towns, 65 plantations, and 386 unorganized townships.

Maine's geographical location, topography, and climate make it an ideal region in which to live, work and play.

Maine is one of the most healthful, beautiful, and interesting states in the union.

Maine has 16,750,000 acres of forest land, 2,500 miles of indescribably beautiful coastline, 2,465 crystal-like lakes.

Maine's Aroostook County contains 6,453 square miles, an area greater than Connecticut and Rhode Island combined.

Maine raises one-seventh of the nation's potatoes; 75% of its blueberries.

Maine's highest elevation is Mt. Katahdin, 5,267 feet above sea level.

Maine is an agricultural state with approximately 50% of her people living in rural communities.

Maine farms number upwards of 42,000 with a total value of approximately \$230,000,000.

Maine's industries are well diversified.

Maine-made products embrace the list from checkers to warships, and from axes to yarns.

Maine has one factory using 5,000 cords of wood weekly, and another plant using 72,000 tons of coal annually.

Maine's toothpick production is about 170,000,000 a day.

Maine's cement plant, the only one in New England, produces 225,000 tons annually.

Maine produces 25% of all the feldspar used in America.

Maine has 19,865,000 acres of land surface and of this amount 16,783,000 acres are in timber and wood lots.

Maine's annual cut of lumber is approximately 500,000,000 feet.

Maine's annual cut of pulpwood is about 1,300,000 cords.

Maine claims America's first chartered city—York.

Maine has 61 public utility plants and 120 water power establishments.

Maine's lakes, mountains, seacoast, and other recreational assets make it a year round mecca for vacationists.

Maine is truly The Land of Remembered Vacations and the VACATIONLAND of the Nation.

the days when sailing vessels by the hundreds carried the name of the Kennebec region to all parts of the world. Into the towns below Augusta lead roads from the southwestern corner of the county, where the towns of Litchfield and West Gardiner are centers of a farming and small lakes region containing summer camps and fishing, boating and vacationing facilities.

Directly west of Augusta is the famous Winthrop Lakes region, comprising some 200 square miles of rolling, farm-dotted landscapes, which nature has filled with shimmering lakes and ponds, twenty of them joined by a network of murmuring streams. Larger lakes in this region include Cobbosseecontee, Annabessacook and Maranacook in the towns of Monmouth, Winthrop, Manchester, West Gardiner and Readfield. One town alone, Winthrop, has twelve lakes and ponds within its confines or on its borders.

Against the western edge of Kennebec County lies Androscoggin Lake, overlooked by Morrison Heights, in the town of Wayne, from which a broad panorama for many miles is obtainable. A host of other smaller lakes, almost too numerous to list, sing their captivating names to the visitor. Romantic Echo Lake, Flying Pond and Parker Pond, beautiful Torsey Pond, historic Cochnewagen, Tacoma, Pocasset, Minnehonk, Little "Cobbossee" Lakes,

(Continued on Page 73)

SOMERSET COUNTY

(Continued from Page 59)

cause of the confluence of the waters of Dead River which has flowed down from the hills and lakes of Franklin County to join those of the Kennebec which have come from Moosehead Lake through the East and West Outlets.

The Forks, Troutdale on Lake Moxie, Indian Pond, reached via Tarratine, Long Pond, Lake Parlin and Jackman sections are fishing and hunting sections of renown. The lakes have an abundance of trout, landlocked salmon and togue and the woods abound with partridge, woodcock, deer, and bear. Pierce Pond, Mount Coburn, Spencer Lake and the Dead River region also are great hunting and fishing areas. From Jackman, Big Wood Lake, Attean Lake, Holeb Pond and the waters of Moose River are favorites with hunters, fishermen and campers.

Jackman is known as "the Switzerland of Maine" because of the background of many mountain ranges in the region.

At Jackman Route 15 extends to Rockwood on the western shore of Moosehead Lake, largest in Maine, and thence south to Greenville, crossing West and East Outlets to the southern shore of Moosehead.

The northern third of Somerset County is traversed by a private road now open to the public from Rockwood to Pittston Farm and on into Quebec. In this region, Penobscot Lake, Canada Falls, Seboomook Lake and Seboomook lie in a vast forest, lake and wilderness region reaching north to the St. John Ponds and Baker Lake. These latter are the headwaters of the mighty St. John River, which forms much of the northern boundary of Maine with Canada.

Vacation in the Famous BELGRADE LAKES Region

The perfect vacation spot from May through October. Seven beautiful lakes, inter-connected with silvery streams, providing excellent fishing for brook trout, landlocked salmon, brown trout, bass, white perch and pickerel.

Modern hotels, motels, boarding camps, housekeeping and overnight accommodations available in the region.

The Belgrade Chain of Lakes are the pride of Maine. Easy access to churches of all denominations, unique restaurants, gift shops, summer theatres, golf courses and excellent shopping centers.

Recreational facilities include tennis, shuffleboard, water skiing, bathing, boating, square dancing, horseback riding, hayrides, badminton, horseshoes, croquet, basketball and softball.

For information, please write:

The Belgrade Lakes Region, Inc.

BELGRADE

MAINE

along with Lovejoy, Dexter, Berry, Wilson, Horseshoe, Pleasant, Sanborn, Jamies, Shed, Carleton and Narrow Ponds, all share in the scenic glories of the Winthrop Lakes Region. Kents Hill, Fayette, Mount Vernon and Vienna, all in the northwestern part of the county, are shopping and business centers for their rich agricultural, recreational and lumbering region.

North of Augusta, through the towns of Sidney, Belgrade, Oakland and Rome is the famous Belgrade Lakes Region with five of the seven lakes of the chain inside Kennebec County. Great Lake is the largest, spreading out at the center of the group. Around it are the other isle-dotted lakes, including Long, Salmon, McGrath, East and Messalonskee.

The Belgrade Lakes Region has long been famous for its smallmouthed bass fishing and the size and quantity of these fishes make these waters a topic of conversation among the Nation's anglers. Native landlocked salmon and trout and other lake and stream fish make good catches commonplace.

Within easy motoring distance of the shopping centers at Waterville and Augusta, the Belgrade Lakes region offers

a wide range of accommodations from hotels and camps to simple housekeeping cottages.

Waterville, in Northern Kennebec County, is an elm-shaded city of homes, large industries and a modern commercial center. It is a city rich in historic associations dating back to the time when the Indians had a village there and across the river in Winslow. It is also the site of Colby College, established in 1818, which has been relocated on a beautiful 500 acre campus on Mayflower Hill.

Modern hotels, department stores, theaters and other urban facilities make Waterville a convenient shopping place for the traveling public and from it main highways radiate to the surrounding section of the State. Textiles, lumber, fiber board and garments predominate in its industrial activities. The famed "Hathaway" Shirts are manufactured here. Northeast of Waterville are the farming centers of Winslow, Albion, Benton and Clinton, all in an area where wooded hills and many streams are conducive to good hunting and fishing.

In Eastern Kennebec County is the China Lake area, containing the towns of Vassalboro, with the well known Oak

In the heart of the Belgrade Lakes Region. Individual house-keeping cottages with all modern conveniences. Excellent salmon and bass fishing—swimming—beach—recreation for the entire family. Boats, motors, guides available. Relax and be just plain lazy for a most restful and healthful vacation.

Write for detailed information

Bea and Bill Volinsky, Props. Tel. HOpkins 5-2204 Oakland 1, Maine

Grove Seminary for Girls and the Natanis Wild Life Sanctuary; China, Windsor, Chelsea, Randolph and Pittston.

Two and a half miles below Randolph, on the Wiscasset Road, a bronze marker designates the site of Major Cornburn's shipyard, where were built the boats used by Benedict Arnold in his famous march to Quebec.

China Lake is the largest of this chain of lakes and ponds and contains some of Maine's most beautiful landlocked salmon and small mouth black bass. Three Mile Pond and Webber Pond, smaller but none the less beautiful, peacefully ripple in the woodlands on this coastal side of the Kennebec.

Thus, with its three great lakes regions, the Belgrades, Winthrops and China, and its location on the mighty Kennebec River, with a host of tributary streams, Kennebec County justifies its title of "The Heart of Vacationland." The extensive scope of its accommodations, its excellent roads and its highly-developed recreational facilities make Kennebec truly the County of Vacations.

SAGADAHOC COUNTY

SAGADAHOC COUNTY, next eastward along the coast from Cumberland County, is the smallest in area in the State, yet it is somewhat typical of Maine coastal counties from here on eastward, which feature rugged peninsulas jutting far out into the coastal sea area, with many inlets and innumerable small bays and harbors where yachts and other motor and sailing craft find snug havens.

The central portion of Sagadahoc County contains Merrymeeting Bay, so named because it is the junction of the Kennebec, Androscoggin, Cathance, Abagadasset and Eastern Rivers. It is world-famous for its duck hunting and water-fowling.

Along the shores of Merrymeeting Bay are hundreds of cottages, farms and summer homes where vacationers and duck hunters annually visit for sport and relaxation. West and north of the Bay are the farming towns and shopping centers of Topsham, Bowdoin, Bowdoinham and Richmond

and the industrial town of Pejepscot, with a large pulp and paper mill. Bowdoinham, in the center of the Merrymeeting Bay Area, is a popular rendezvous for sportsmen and a trading center.

The City of Bath, further south along the Kennebec, is famous as the site of the Bath Iron Works, whose destroyers rate among the best in the service of the U. S. Navy. Famous yachts, fishing boats and other craft built in peacetime years have made the name of this company famous throughout the shipbuilding world. Bath is also a commercial and business center for the county and roads lead from it down to the many resorts and vacation centers along the coast on both sides of the mouth of the Kennebec.

Route 209 below Bath passes through Winnegance, a suburb of Bath, where a tide mill until recent years was used to power a lumber mill. Phippsburg is a village center for a picturesque area of rugged coast, sand dunes and

ROCK GARDENS INN and Cottages

RELAX... ENJOY
COASTAL SCENERY

Imagine a delightful cottage shaded by towering pines... You, your family, and vacation friends are relaxed... You watched the lobstermen haul their traps. And in a few minutes you'll eat this delicacy on a picnic by the shore. The salt air beside the pool, on a boat trip or a walk through the woods makes big appetites.

All cottages have open fireplaces and automatic heat for enjoyable vacations in the beautiful foliage month of September. American plan. \$10 to \$18 daily.

Our free folder has all the colors you will see.

wooded knolls. From it lead the roads to the Sebasco Estates, West Point, Small Point, Parker Head and Popham Beach.

This whole area is a favorite picnicking and vacationing territory, rich in early American history and before that a favorite summering place of the Indians, who left many of their relics scattered around. Boating, bathing, and deep sea fishing combine with golfing, riding and other land sports to make this section an attractive resort area. The remnants of old forts and the earliest of American settlements at the mouth of the Kennebec add to the historic interest of the region.

From Woolwich, across the river from Bath, Route 127 runs down across a group of heavily wooded islands forming the eastern side of the mouth of the Kennebec and with Sheepscot Bay and River on its easterly side. Here are Arrowsic, Georgetown, Five Islands and Robinhood, small farming and fishing villages with many cottages and shore outing spots where small boats put in from the neighboring coastal region.

At Georgetown is the Reid State Park. Major features are picnic areas, bath houses, Mile Beach and a six-acre impounded salt water lagoon, suitable for bathing and canoeing, in the Griffith's head area.

Phipps Point, overlooking beautiful Hockamock Bay, is the site of numerous fine summer homes. It was the birthplace of the great adventurer for whom it was named. Sir William Phipps was at one time Provincial Governor and was the first American knighted at the English court in recognition for having brought treasure taken from old Spanish galleons sunk in the Caribbean Sea.

Many small islands, some of them privately-owned, lie off this section of the coast and numerous artists and sculp-

tors of note annually summer in this region. Five Islands has an excellent harbor and has been the frequent rendezvous of the Boston and other yacht clubs. Bay Point and MacMahan Island also are favorites of summer visitors.

ALWAYS SOMETHING DOING IN MAINE

Your visit to Maine will be even more enjoyable if you plan to take in some of the many special events held each year.

During the Spring and Summer season such activities as Music Festivals and Folk Dances, Country Fairs and Auctions, Art Shows and Crafts Exhibits, Industry Displays, Food Festivals such as the famed Maine Seafoods Festival and the Maine Broiler Day, Historical Observances, 'Straw Hat' Summer Playhouses, Water Pageants, Horse Racing and countless others will be found from one end of the State to the other.

Fall is the time for Autumn Foliage Festivals and Tours, Harvest Feasts, Sulky Racing and Old Time Country Fairs. An active Winter program of Skiing and Winter Carnivals is in progress during the months of December through March.

Anytime is a good time to Come to Maine—you will always be welcome and you always will find something doing in the Pine Tree State.

LINCOLN COUNTY

WITH its coastal terrain jutting lacy fingers of wooded headlands and islands into the Atlantic and its inland regions composed of rolling farm lands and pine and spruce bordered lakes and streams, Lincoln County has become one of Maine's best known vacationing areas.

In early times one of the favorite locales of Indians, traders, settlers and pirates, its coastal towns and inland lakes are today the goal of thousands of summer visitors and vacationers, many of whom own their own cottages and camps, and nearly all of whom return year after year to the bracing coastal spots or the canoeing and fishing relaxation of the lakes and small rivers.

From U. S. Route One, which cuts across the county from Wiscasset to Waldoboro, a network of excellent roads leads both to the coastal villages and resorts and northward through a farming and lake country where streams, brooks and ponds cut through the dense forests.

Wiscasset, on the westerly edge of the county, is the shire town and lies on the west bank of the wide Sheepscot

River. Its beautiful old homes, mostly built by shipping merchants and sea captains, make it one of the most charming towns along the Maine coast. It is the rendezvous of artists and writers who have been fascinated by its interesting atmosphere and the historical associations of its show places. The Lincoln County Museum adjoining the Old County Jail (1809) and the Old Pownalborough Court House (1760) have been restored and are open during the summer months. From Wiscasset roads lead north to Dresden, on the East Bank of the Kennebec, and to Alna, Head Tide and Whitefield, all on the Sheepscot River and villages of a large farming and camping area where small lakes and wooded streams make fishing and canoeing attractive sports.

Across the river is North Edgecomb, with its historic old fort and the famous Marie Antoinette House, which legend says was built for the royal personage who never occupied it.

BOOTHBAY HARBOR REGION CHAMBER OF COMMERCE

Boothbay Harbor, Maine

DISCOVER THE BOOTHBAY HARBOR REGION!

Route 27 leaves Route 1 at this point and winds down through the Boothbay Harbor Region. South on this Route is the village of Edgecomb, where a part of Captain Kidd's treasure is reputedly buried.

Continuing south on 27 to Boothbay, site of a popular summer playhouse, the route leads to Boothbay Harbor, hub of a busy summer resort region, with excellent facilities for fishing, bathing, yachting and boat trips. Fine hotels, guest houses, cabins, good restaurants, gift shops and stores accommodate every need of the visitor. Spruce Point, east of the harbor, is a secluded resort area, as are the communities of Southport, West Southport and Newagen, these latter on an island connected by a short drawbridge over

Townsend Gut. This island is heavily wooded and a delightfully cool summer haven.

East of Boothbay Harbor is East Boothbay, picturesque boat building village on the Damariscotta River and Linekin Bay, with popular Ocean Point at its seaward tip. Here at East Boothbay, a century-old tide mill between the bay and the mill pond is still in use. This pleasant little village has long been famous for the many pleasure yachts, fishing vessels and naval craft built by local craftsmen in the many boat yards of the region.

→ Squirrel Island is one of the oldest resorts in this section

County's lakes and ponds are popular spots for bass, sal-
mon and trout fishing.

The twin towns of Newcastle and Damariscotta furnish
the shopping and banking center of the county. Both are
pleasant little villages of many fine homes and unusual his-
torical aspects and both are centers of small boat building.
Here also each Spring may be seen the annual run of the
alewives, when tens of thousands of the fish fight their way
up the river to the spawning grounds in the Damariscotta
Lake region. Nearby are the famous Indian shell heaps,
where successive generations of Indians tossed the shells
from their summer encampments.

South from Damariscotta roads lead to the eastern area
of Lincoln County jutting out to sea. One road branches to
Walpole, South Bristol and Christmas Cove, so named by
Capt. John Smith in 1614. Another leads past Pemaquid
and Biscay Ponds to the shores of Muscongus Bay and
Pemaquid Point, Pemaquid, Pemaquid Beach, New Harbor
and Pemaquid Point, all in the town of Bristol, are little
fishing and resort villages on one of the boldest headlands
on the coast. The old round fort at Pemaquid Beach, a
reproduction of the tower of Fort William Henry and the
fine old fort house take one back to Indian times, when
three other forts rose and fell on the same spot. The fort is

JO and JOHN BANIS

SNUG HARBOR INN

MEDOMAK, MAINE

now a museum containing relics of the colonial times. It is open to the public during the summer months.

Close by is scenic Pemaquid Light, located on a high promontory, overlooking the waters of Muscongus Bay and is easily accessible by automobile. Round Pond, sloping down to a small cove on Muscongus Bay and nearby Loud's Island are picturesque for their fishing and boating activities.

North along the shore of Muscongus Bay are Medomak and Bremen, on the Medomak River, both of them fishing and resort villages, and Waldoboro, a commercial and small industry center. Deep-sea fishing and fly-fishing for mackerel and pollack are popular with visitors and residents alike. Striped bass and large tunas also are caught in nearby waters. At Bremen, on Route 32, just outside of Waldoboro, the "Old German Meeting House," built by the early settlers of the region, is open for visitors. On Hog Island, off Bremen is the Audubon Nature Camp, where people from all over the United States come to study at the Todd Wild Life Sanctuary. The National Audubon Society is here engaged in a program for the preservation of wild life.

North Whitefield, Coopers Mills and Somerville, in the northern part of the county, are inland villages of rural attractiveness, with several nearby lakes and ponds.

Lincoln County, though small in area, is one of the most beautiful of Maine's coastal counties with many miles of ocean peninsulas and bays easily reached by good highways and an inland region of lakes and ponds where fishing, hunting and vacationing are available in abundance.

Monhegan Island

TRAILING
YEW INN

Eric C. Jensen, Mgr.

KNOX COUNTY

MOUNTAINS, lakes and seacoast, plus its location on the western side of Penobscot Bay, Maine's maritime scenic wonderland, give Knox County the natural advantages which have made it for many years a favorite resort area for vacationers and tourists.

Along its broken shoreline, studded with innumerable coves, bays and inlets and on the many large islands standing well out into broad Penobscot Bay, the large summer estates of famous families and modern hotels look out upon the picturesque fishing villages, neat homes and cozy cottages of a year-round and summer population that has come to love that section of the State with an attachment that only close association with nature's wonders can bring.

Knox County is rich, too, in its historical interests, for here generations of farming and fishing folks are rooted, as well as the descendants of sailing and shipping families who still keep the traditions and mementos of a day when the clipper ship and the schooner ruled the waves.

U. S. Route No. One enters Knox County from Waldoboro and from it branch many excellent lateral roads curving scenically through tall stands of pine and spruce to the coastal resorts and past rolling fields and meadows into the farming and lake regions.

From Waldoboro and South Warren, Routes 220 and 97 traverse the peninsula formed by Muscongus Bay and the Georges River, leading to the resort areas and islands of Friendship and Cushing. Cushing has many summer cottages along the Georges River, which here is an inlet by the sea, and many interesting Indian relics are found annually.

Friendship is one of the most charming unspoiled seaport towns in Maine, the birthplace of the famous Friendship sloop and the home of typical coastal people. Deep sea fishing, casting and trolling for the various salt water species, such as mackerel, cunner, pollock and silver hake, shore clambakes and picnics are popular pastimes.

Warren, the center of a fine farming region, is also an interesting small industrial community. Thomaston is noted historically as the home of General Henry Knox, Washington's chief of staff and Secretary of War, and a reproduction of his beautiful mansion, Montpelier, is one of the show places of Maine and open to the public. Thomaston also is the site of the largest cement and limestone plant in New England.

Rockland is the shire city and trading center for the county, with modern hotels, stores and banks. Its fine harbor is the port of call for all kinds of craft and from it steamers

KNOX COUNTY

ply between the mainland and the islands in Penobscot Bay. Fishing, shipbuilding, shipping and limestone quarrying are important in its industrial activities. Here, too, is the birthplace of the late Edna St. Vincent Millay and a cultural and civic consciousness among the residents that finds expression in numerous clubs, societies and organizations. During the war it was an important center of Coast Guard activity.

At Rockland is new Farnsworth Art Museum, with a year-round schedule of exhibits and programs adding greatly to the historic lore and culture of the area. Here also is held the annual Maine Seafoods Festival.

From Rockland and Thomaston main highways lead southward to the shore areas fronting on the southwestward side of Penobscot Bay, a resort area containing outstanding hotels, summer estates, cottages and fishing villages. Owl's Head, South Thomaston, Spruce Head, St. George, Long Cove, Tenants Harbor and Port Clyde are picturesque fishing and resort villages in the coves and inlets along the shore and small boats ply between them and the islands off shore.

North of Rockland is Glen Cove, another vacationing center, and Rockport, with a V-shaped waterfront on Goose River that has been landscaped by Mrs. Mary Louise Zimbalist.

North of Rockport is Camden, one of the loveliest of all Maine coastal towns, where towering mountains rise almost from the ocean's edge to a height of more than 1,500 feet. These Camden Hills, Mount Battie, Megunticook, Bald and Ragged, were marvelled at by Champlain and Capt. John Smith because of their beautiful setting on the shores of Penobscot Bay. Here a State Park recreation area has been developed, containing picnic and camping sites, nature trails and ski trails. Citizens of Camden started this development with the Camden Bowl, in which events are held both Summer and Winter. Eventual size of the park will be nearly 6,000 acres between Lake Megunticook and the seashore. The Sagamore Picnic Area, just off Route No. One and on the seashore contains 20 acres and already is rated as one of the finest in New England.

Not only have the year-round and summer residents of Camden taken particular interest in landscaping, both in

MAINE INDUSTRY

Workers in Maine's many diversified industries are considered as one of the finest labor groups in the Nation and the quality of products bearing the distinctive "Made in Maine" label is known throughout the World.

Many of the State's industrial plants welcome visitors and some provide conducted tours for interested parties wishing to see how these name brands are produced.

Also, several maintain factory showrooms where Maine manufactured goods may be purchased.

the town and along the surrounding shore and countryside but in the Summer baskets of flowers decorate the lamp-posts in the business section and create an atmosphere of beauty and charm that is found nowhere else in the world. A notable group of musicians also make their summer homes in Camden and the beautiful Bok Amphitheater, seating 1,500 persons in a landscaped setting of trees, shrubs and plants and the remodelling and redecorating of the Camden Opera House, also have been special projects of Mrs. Zimbalist.

Among the larger islands in Penobscot Bay reached by both from Rockland and other Knox County towns are North Haven and Vinalhaven, both fashionable resort islands, Matinicus and Criehaven, whose primitive charm are well-known to lovers of nature.

Inland Knox County, with its network of lakes, streams and farmlands, contains the towns of Union, Washington, Appleton and Hope. Here are farming and orcharding communities in a region of lakes, streams and mountains, with excellent fishing, canoeing, hiking and mountain climbing. Appleton is the center of the apple region and also has a State Fish Rearing Station. Megunticook Lake, Crawford Pond, Seven Tree Pond, Sennebec Lake and Washington Pond are but a few of the many bodies of water that dot this area like gems.

CAMDEN-ROCKPORT CHAMBER OF COMMERCE, CAMDEN, MAINE

WALDO COUNTY

ON the western shores of Penobscot Bay and the mouth of the Penobscot River, stretching from the blue Camden Hills to the head of ice-free winter navigation at Winterport, Waldo County in south central Maine comprises an area of 749 square miles extending back into an inland farm and lake country bordered by Knox, Hancock, Lincoln, Kennebec, Somerset and Penobscot Counties.

Focal point in the county is the City of Belfast, a famous seaport town and hub of a network of roads radiating to all sections of the county. On the seaward side, Belfast is likewise a hub for small boat traffic from the islands to the east and southeast in Penobscot Bay and thus serves as a shopping and commercial center for an area within a great land and sea circle from the city center.

Along the shores of the bay and river are a series of other seaport, fishing and resort towns, while back from the coast is a large farming, lake and mountain region, where apples, potatoes, vegetable raising, poultry farming and dairying combine with lumbering and resort activities to

provide a healthy, economic livelihood for Waldo County residents. Its shoreside quarries have provided granite for paving blocks and buildings in some of the largest cities of the Country.

U. S. Route One enters Waldo County from Camden, skirting the shore through Lincolnville and Northport, both favorite resort towns for surrounding areas. From Lincolnville a ferry services Islesboro, largest island on this section of the coast with an exclusive summer colony and yachting center that make it the richest town in the county. An auxiliary road from Camden, Route 137, follows the northern side of Megunticook Lake to Lincolnville Center and Belfast, passing through a beautiful countryside area.

Belfast is situated on a side-hill sloping gradually to the shores of Belfast Bay and the Passagassawaukeag River, its highest point commanding a sweeping view over the island-studded waters of Penobscot Bay. Many fine old mansions sheltered by stately trees recall the days of past mercantile

Address: **HERSOM'S CAMPS, BURNHAM, MAINE**

Mrs. Joseph H. Cooney

and seafaring glory. A 15-acre city park is directly on the shores of the Bay and has modern facilities for trailers, camping, swimming and other activities. Its quiet streets and nearness to all forms of recreational opportunities make it a center for visitors in this section of the State.

Belfast also is the southern terminus of the famous Belfast-Moosehead Lake Railroad, bisecting the county to Burnham Junction, where it connects with the Maine Central Railroad. New shoe factories now are important to the economic stream of the area. The important poultry industry in this section is highlighted by an annual Maine Broiler Day. Belfast, one of the centers of the State's rapidly growing broiler industry has become known as the "Broiler Capital of Maine."

North of Belfast is Searsport, home of many sea captains and ocean shipping point for the Bangor and Aroostook Railroad. Its wartime shipping record has been important. Here also is the Penobscot Marine Museum, the most valuable of its kind in the State.

Stockton Springs, with its nearby Fort Point, a charming retreat for tourists, and Prospect, on the western approach to the Waldo-Hancock Bridge over the Penobscot, are village centers for nearby summer estates and resorts. In Prospect is Fort Knox, a massive structure of Mt. Waldo granite, commanding one of the most beautiful views on the Penobscot River. On the road to Frankfort are the surface quarries of Mt. Waldo, where countless tons of fine granite have been cut out of the mountainside. Frankfort is a riverside town, once an important seaport, over-shadowed by Mt. Waldo, from whence has come much of the finely-polished granite for government buildings in Washington, New York's Church of St. John the Divine and Boston's New England Mutual Building, to name only a few.

Winterport is an historic town of many fine homes, including the Blaisdell homestead, built in 1789 and designed by Christopher Wren, famous English architect. As the head of winter navigation on the Penobscot it was once an important shipbuilding community and seaport and these activities still are carried on to a limited extent.

One of the main roads leading into Belfast from the west is Route 3 from Augusta. This traverses the Waldo County towns of Palermo, Montville, Liberty, Searsmont and Belmont. Belmont's Tilden Pond is a popular summer resort, while Lake Quantabacook between Searsmont and North Searsmont offers many cottages and charming scenery in every direction. Nearby is the country home of the late Ben Ames Williams where he wrote many of his famous novels. Liberty, on Georges Lake, is the site of the 5,310-acre St. George State Park, located also in adjoining Montville. Palermo is near Sheepscot Lake, making it an ideal place to fish, rest and enjoy life in the open.

Waldo, Brooks, Knox, Morrill, Freedom, Thorndike, Unity, Troy and Burnham are on Route 137 and connecting roads and in an area serviced by the historic and unique Belfast and Moosehead Lake Railroad. All are inland towns that have river, lakes, streams and groves that appeal to those in search of recreation and rest. Winnecook Lake (Unity Pond), bordering on Unity, Burnham and Troy, is one of the best black bass and brown trout fishing waters in this section of Maine.

Swanville is located on Swan Lake, noted for its salmon fishing and offers fine accommodations for tourists. Monroe and Jackson are farming and lumbering communities where tourists may rest at farm homes and enjoy the delicious foods that Maine women always seem to know how to cook best.

MAY and JOE PENDERGAST, Props.

BURNHAM, MAINE

HANCOCK COUNTY

IT was inevitable in the scheme of things that when the scenic wonderland that is the State of Maine was fashioned, there would be one region that would stand out above all others in majesty and beauty. Such has been the tribute accorded to Hancock County.

Capped by the wild grandeur of Mount Desert Island, termed by Henry Van Dyke "the most beautiful island in the world," this far-flung coastal area of islands, bays, beaches and bold headlands reaching from Castine on Penobscot Bay to Schoodic Point on the east for nearly a century has drawn thousands of summer visitors from all parts of the world.

The U. S. Terminus of the Canadian National R. R. Ferry "Bluenose" is located at Bar Harbor. The Ferry operates daily during the summer from here to Yarmouth, N. S. and on a curtailed schedule year-round.

This archipelago of islands, island-sheltered waterways and lake-like bays presents a panorama of majestic beauty and infinite scenic variety that defies description. On Mount Desert Island alone eighteen beautiful mountains literally rise out of the sea, with twenty-six lakes and ponds in the valleys between. On all sides evergreen forests stretch to the sea, or to the sheer cliffs where the sometimes wild surf flings ocean spray high into the air. In its center deep Somes Sound forms the only natural fjord on the whole Atlantic Coast.

Twenty-two square miles of Mount Desert and Schoodic Point, across the entrance to Frenchman's Bay, form famous Acadia National Park, the first National Park east of the Mississippi and the only one on the coast north of Florida. Land and sea, woodland, lake and mountain—all are represented here in remarkable concentration. It has

become the home of land and water birds of many species and deer and beaver have become numerous and are often in evidence.

Motor roads of great beauty traverse the park and surrounding areas and connect with Bar Harbor on the North and Seal Harbor and Northeast Harbor, resorts on the southern shore. Rising from the Bar Harbor road, a marvel of highway engineering winds a hard-surfaced road to the summit of Cadillac Mountain (1,528), the highest point on the eastern coast, where a parking overlook commands a breath-taking view of the surrounding ocean, islands and countryside.

Free camping grounds, a nature guide service with varied daily programs, museums such as at Sieur de Monts Spring and at Islesford on Little Cranberry Island, and adequate information facilities are but a few of the many aids to the visitor and tourist. Outside of the park area, at Bar Harbor and the various villages on the island, such as Seal Harbor, Northeast Harbor, Southwest Harbor, Somesville, Manset, Seawall, McKinley, Tremont, Bernard, West Tremont, Seal Cove, Center and Pretty Marsh are accommodations ranging from high-class summer hotels to rooming houses, cottages and restaurants.

Schoodic Point, a part of Acadia National Park although across the entrance to Frenchman's Bay, juts further into the open sea than any other point of mainland on the Atlantic Coast. From it a magnificent rock headland rises over 400 feet, commanding an unbroken view eastward to the Bay of Fundy and westward to the Mount Desert Mountains. Schoodic Point is reached from the delightful resort towns of Winter Harbor, Birch Harbor and Prospect

BAR HARBOR, MAINE

Harbor on a scenic state and park road that follows the shore line.

Ellsworth is the shire town and trading center for Hancock County and the railroad terminus for Bar Harbor and other Mount Desert Island resorts. From it excellent roads lead to all parts of the county. It is a city of gracious old homes and attractive modern business buildings, many of the latter built after the great fire in 1933 which wiped out the Main Street section. Union River flows through the center of the city and from the bridge a 60-foot falls is visible.

One of Ellsworth's show places open to the public is the famous Black Mansion, with priceless colonial antiques and furniture, rare books, dishes and glassware. It was donated to the county as an historic shrine and summer teas are held in the garden.

From Ellsworth Route 172 leads through the picturesque village of Surry to beautiful Bluehill, home of the famous Rowantrees Pottery and birthplace of Mary Ellen Chase; thence to Bluehill Falls with its Indian Shell Heaps, and to Brooklin, Sedgwick and Sargentville to Deer Isle and Stonington. This trip loops around one of the most beautiful and interesting jagged peninsulas on the Maine coast, skirting lovely Bluehill Bay. It is an unspoiled summer resort area with many fine summer estates and cottages. Deer Isle and Stonington are special favorites of tourists and summer residents because of their primitive beauty and scenic charms, as is also Long Island in Bluehill Bay.

Along Eggemoggin Reach and the Penobscot Bay side of the Peninsula are Herricks, Cape Rosier, Brooksville, Harborside and Castine, villages with attractive homes and noted as summer resort centers with marvelous views west-

ward across Penobscot Bay. The Brooksvilles, South, West and North are picturesque in their rural simplicity and popular with summer visitors. From the road along Caterpillar Hill, Route 176, is a marvelous panoramic view.

Castine is rich with history and romantic associations through the Indian, French and Revolutionary Wars. Some of its old houses with famous doorways date back as far as 1765. It is the site of the Maine Maritime Academy. Penobscot, North Castine and Orland are attractive villages of historic interest attracting their annual quota of summer visitors. At East Orland, on the shore of Alamoosook Lake is a U. S. Fish Hatchery for the propagation of salmon and trout, with which the lakes of Hancock County abound.

Bucksport, on the east bank of the Penobscot opposite Prospect, is the site of the Bucksport Division of St. Regis Paper Company, one of the most modern paper plants in the world, now specializing in fine printing paper and magazine stock.

Dedham, Otis and Lucerne-in-Maine on Phillips Lake are on the road into Hancock County from Bangor, traversing lake and stream territory which includes Branch and Green Lakes, both popular fishing and boating areas.

East from Ellsworth are Trenton, Lamoine, Hancock, Sullivan, Sorrento and Gouldsboro, all along the shores of Frenchman's Bay and famous as fishing and resort centers.

North of Ellsworth roads lead to an extensive inland lake region which includes Graham, Spectacle, Niatous and a host of lesser lakes and ponds interlaced with streams and brooks where sportsmen can find more than enough of bass, pickerel, trout and landlocked salmon. This area is served by such towns and villages as Franklin, Eastbrook, Waltham, Mariaville, Amherst and Aurora, through which connecting roads open up a large fishing and hunting region that is among the best in the state.

For Your Protection . . .

WASHINGTON COUNTY

WASHINGTON COUNTY, on Maine's and the Nation's easternmost border, aptly has been called the Sunrise County of the U. S. A. Although its coastal region was one of the first to be explored and settled in Maine, its 2,628 square miles, consisting mostly of woods, lakes and streams, contain extensive areas where the human foot has but infrequently trod. As a result it contains some of the most notable hunting and fishing territory in the State, with deer, bear, small game and game birds in profusion and sport fish of unusual size up to the king of all rod and reel fighters, the Atlantic salmon.

With an abundance of forest, fisheries, agricultural lands and waterpower, Washington County is an area rich in raw materials and yet with tremendous room for developments. It is the center of the sardine canning industry in the United States; its broad coastal plains produce enormous quantities of the world's best blueberries. Its fertile soil is the basis for extensive potato, livestock and poultry raising; and lum-

bering, pulp and paper have been important industries for many decades.

Calais and Eastport are the only cities in the county, which also contains forty-four organized townships.

Calais is situated in the beautiful St. Croix River Valley, with an international bridge across the river to St. Stephen, N. B. Collaboration between the two communities is world-famous, with an interchange of trade, commerce and essential municipal service. For travel information, visit the Maine Information Center, located opposite the Customs Station at the International Bridge. Calais is a trading and manufacturing center for the area, as well as a transportation hub. It has several small hotels and tourist homes, fine retail stores and it taps an extensive and famous recreational area of large lakes, forests and streams.

PICKEREL
PERCH**

The U. S. Weather Bureau officials rate the summer climate in this area as the finest in the Nation and the winter temperature the same as Boston.

Clockwise on the road-circle from Lubec to Eastport are West Lubec, North Trescott, Whiting, with a famous old church and cemetery; Dennysville, on the swiftly flowing Dennys River, famous for its Atlantic salmon; West Pembroke and Pembroke, with sardine and blueberry canning plants; and Perry, where a stone monument marks the exact midway point between the Equator and North Pole. Off-shore in the St. Croix River is St. Croix Island, now an International Shrine, where De Monts and Champlain and their company spent the winter of 1604.

Robbinston also is on Route One between Perry and Calais and is at the mouth of the St. Croix River. The rocks and sandy beaches in this area are tinged with red, creating a striking colorama.

Inland from Route One, State Highway 191 cuts north-south from Baring to East Machias, skirting the southern end of Meddybemps Lake, Cathance Lake, Rocky Lake and Hadley Lake. It passes through the villages of Meddybemps, Grove, Cooper and Jacksonville. Offshoots go through Charlotte and Ayers to West Pembroke; and through Marion to Dennysville. These roads traverse a lake and forest country, where Atlantic salmon come up the coastal streams and lake salmon, trout and togue fish are spectacular. In this region also is the great Moose-

PENOBSCOT COUNTY

PENOBSCOT COUNTY, is a great diversified farming, industrial and recreational county in East Central Maine, bisected by Maine's largest river, the Penobscot, and containing the third largest city in the State, Bangor.

Hub of the County is Bangor, "Queen City" of Maine, and the commercial and financial center for the northern and eastern section of the State. Sixty miles from the sea at beautiful Penobscot Bay, it is the head of ocean navigation on the Penobscot.

The site of Bangor, at the junction of Kenduskeag Stream and the Penobscot, was an important Indian rendezvous before Champlain landed there in 1604 in his search for the fabulous city of Norumbega.

Today Bangor is a beautiful city of modern stores, hotels and offices, with stately residences on wide, shaded streets and with scenic parks and parkways.

Although Bangor is primarily a commercial center, there are numerous diversified industries both there and across

the river in Brewer, the products including pulp, paper, wood products, wood tools, machinery, snowplows, stoves, furnaces, building material, metal products, brick, cigars, fish, meat and agricultural packs, clothing, mattresses, sportsmen's equipment and furs.

The Bangor Salmon Pool, opposite beautiful Grotto Cascade Park with a 45-foot cascade, is known throughout the world.

Southwest and northwest of Bangor main highways fan out into a rolling hill and lake country where fertile farm lands yield rich harvests of potatoes, hay, fruit, poultry, dairy and cannery products. Many towns in this region contain small industries based on wood products, woolens, leather and metal products. Such towns include Hampden, Newburg, Dixmont, Hermon, Carmel, Etna, Plymouth, Glenburn, Kenduskeag, Levant, Stetson, Hudson, Corinth, Exeter, Corinna, Bradford, Charleston, Garland and Dex-

JASPER HAYNES

P. O. Millinocket, Maine

ter. Newport, on the western border of the county, is on the shores of Sebasticook Lake, famous for its bass fishing, and is an important resort center as well as a large wood products plant.

Brewer, across the river from Bangor, is the site of the Eastern Manufacturing Company's pulp and paper plant and has numerous lesser industries. Orrington, Holden, Edgington and Clifton, also on the east side of the river are rural centers for agriculture and wood products plants, besides containing several ponds and streams for vacationing.

Immediately north of Bangor are Veazie, Orono, with the 500-acre campus of the University of Maine and Old Town, small manufacturing city and site of the Indian Reservation which is the home of the remaining members of the Penobscot Tribe, a fragment of the once powerful Abnaki Nation.

Northeast of Old Town the towns of Milford, Greenfield, Costigan, Greenbush, Passadumkeag, Lowell, Burlington, Olamon, Enfield and Lincoln lead to many fishing waters and big game sections of eastern Penobscot County and the northern sections of Hancock and Washington Counties. From Lincoln Route 6 runs eastward to Vanceboro on the New Brunswick border through Lee, Springfield, Carroll and Topsfield.

Sysladobsis Lake (usually called Lower Dobsis) is reached from Springfield over a good secondary road to the shores of the lake, which is at the northwest end of the famous Grand Lakes chain.

Winn and Mattawamkeag, also on the east side of the Penobscot above Lincoln, are gateways to some of the best bass and trout fishing waterways in the State. In this eastern section of the county are the agricultural and lumbering communities of Prentiss, Drew, Kingman and Webster Plantation.

Northwest of Old Town, on the west side of the big river, are the farming and lumbering communities of Alton, Argyle, LaGrange, Edinburg, Maxfield and Howland.

Maine Invites You

North of Howland is Sebobeis on South Branch Lake and a lake, stream and mountain country extending to Sebobeis Lake in Piscataquis County. Here also are Woodville and Chester, farming, lumbering and summer camp communities on the west bank of the Penobscot.

From Mattawamkeag Route 157 leads northwest to the lumber, pulp and manufacturing towns of Medway, East Millinocket and Millinocket, where are located the big mills of the Great Northern Paper Company. These towns are also the gateways to Norcross, departure point for the Twin, Pemadumcook, Nahmakanta, Jo-Mary and Millinocket Lakes of the West Branch Chain and the Katahdin area, while the East Branch region of the Penobscot is reached through Medway to Grindstone, Stacyville, Sherman Station, Mt. Chase and Patten to Shin Pond. From Shin Pond northward is the large lake-studded area of Penobscot County which includes Mattagamom (Grand), Scraggly, Snowshoe, Grand and Sebobeis Lakes and several mountains.

WASHINGTON COUNTY

(Continued from Page 101)

horn national wildlife sanctuary, with headquarters at Baring.

Another side road along the southern shore between East Machias and Lubec passes through Cutler, with one of the most beautiful small harbors in the United States.

Westward from East Machias to the Hancock County Line, the coast of Washington County is indented with many deep bays, whose peninsulas and islands make it one of the most rugged and picturesque sections of the Maine coast. Machias Bay, Starboard, at the coastal tip of Machiasport, Roque Bluffs, Englishman's Bay, Chandler's Bay, Jonesport, West Jonesport, Beals, Addison, Pleasant Bay, Harrington, Ripley Neck, Milbridge, Wyman on Narraguagus Bay, Pigeon Hill Bay, Petit Manan Point, Dyer Bay, Dyer Neck and Steuben—all are names and places in this entrancing coastal area where lumbering, fishing and the recreational industry are an important means of livelihood in a setting of grandeur and beauty.

Slightly inland the larger towns of Machias, county seat and shopping center, Jonesboro, Centerville, Whitneyville, Columbia Falls, Harrington and Cherryfield are villages on rivers which cut into the coastal plain. Cherryfield, on the Narraguagus River; Harrington on a coastal river and the center of forty-six different trout fishing streams; Columbia Falls, on the Pleasant River; and Whitneyville on the Ma-

Bangor, Maine*

chias River all are centers for the "king of game fish," the Atlantic salmon.

From Cherryfield starts beautiful "Cherryfield Woods Road," State Route 193, which follows the Narraguagus River north through Deblois to Beddington. Here Route 9 cuts across the center of Washington County from west to east. This is the famous "Air Line" road, well known by deer hunters and fishermen, tapping the Mopang Lakes, Pleasant River, Machias River, Chain Lakes, Crawford Lake and Pocomoonshine Lakes areas, with their villages of Wesley, Pokey, Crawford, Alexander and Baileyville, where Route 9 joins U. S. Route One between Baring and Woodland.

Cutting across the center of the county, the famous Grand Lakes chain reaching up into Penobscot County contains togue, trout, salmon, pickerel and other game fish, making it the Mecca annually for thousands of sportsmen. Connecting Grand Lake and Big Lake is Grand Lake Stream, a three mile stretch of rapid water known to all experienced fishing enthusiasts.

North of Calais is Woodland, site of the St. Croix Paper Company; Princeton, gateway to the Grand Lakes area; Waite and Talmadge, in the heart of a great hunting and fishing area; Topsfield, Brookton, Eaton and Danforth, all on U. S. Route One traversing the northeastern section of the county. Vanceboro is the gateway to the Spednic and Chiputneticook Lakes area.

AROOSTOOK COUNTY

AROOSTOOK COUNTY, largest of Maine's sixteen counties, is bounded by Canada on the West, North and East, and covers a land area of 6,453 square miles. Slightly more than 20 per cent of Aroostook County is under cultivation, but she earns her distinction as the "Potato Empire of the World." Each summer, Aroostook takes on a picturesque beauty that is unmatched, with acres of vari-colored potato blossoms, fields of grain, clover, oats, peas and herds of cattle all in mother nature's natural setting. Aroostook has never known a drought and her farm lands are rich and green.

Aroostook is the home of the largest deposits of manganese on the North American Continent. Traces of gold, uranium, copper, molybdenum, antimony and limestone have been found throughout her length and breadth, with the actual quantities available still unknown.

Aroostook is rapidly becoming a four-season vacationland. Fishing, camping, hiking and canoe trips start in the spring and expand into swimming, water skiing, golfing and boating. The fall finds fishing and hunting, with the winter months popular for smelt fishing and skiing.

Geographically and commercially, Aroostook is divided into four areas. Main highways enter Aroostook from the south at Macwahoc on Route 2 and at Weston on Route 1. From Macwahoc, Route 2 follows the course of Molunkus Stream to Island Falls.

Island Falls is a commercial center for farming, lumbering and potato processing and serves as a central point for nearby resorts. It is located adjacent to the falls of the west branch of the Mattawamkeag River. Northeast of Island Falls is the Pleasant Lake area, one of Theodore Roosevelt's favorite hunting and fishing spots.

Northeast, the road passes through Dyer Brook, Merrill, Smyrna Mills, Oakfield, Ludlow and New Limerick to Houlton. Nearby lakes and streams produce bass, pickerel, brown trout, salmon and white perch. The many lumbering areas provide excellent partridge, deer and black bear ranges.

Alternate Route 2 passes through some of the longest uninterrupted sets of forest in Maine, broken only by Reed, Haynesville, Glenwood and Linneus. This route traverses a mountain, lake and stream region with Wyttopitlock Lake and Stream and the East and West branches of the Mattawamkeag. A natural setting for the hunter, fisherman and camper.

Route 1 from Weston is a most picturesque route, passing through such towns as Orient, Amity, Cary and Hodgdon to Houlton.

Routes 1, 2 and Alternate 2 all converge at Houlton, the capital of Aroostook and the commercial and distribution center for the southern part of the county. Houlton is the first of five major ports of entry into Canada.

Route 1 leaves Houlton on an excellent highway to Littleton, Monticello and Bridgewater. All are potato growing communities with some diversification into lumber, cattle and grain. Some of the finest hunting, fishing and camping facilities are located in this area. From Bridgewater, Route 1 enters Mars Hill. A community named after a mountain which overlooks the whole town.

At Mars Hill, Route 1 divides into Route 1 and Alternate Route 1. Alternate Route 1 takes you to Easton Center, Fort Fairfield and Caribou.

Route 1 leads directly to Presque Isle, Aroostook's only City, surrounded by some of the most fertile farm lands in the County. Presque Isle serves as the vacation center for many of the nearby vacation areas, with Aroostook State Park, a 430 acre spot for boating, swimming, water skiing, camping, nature trails and skiing located nearby. Presque Isle has a brand new Country Club located 4½ miles from the City on the Parkhurst Siding Road.

Presque Isle is home to a huge U. S. Air Force Guided Missile Base and a terminus for Northeast Airlines.

Route 1 continues north from Presque Isle to Caribou, where it joins Alternate 1. Caribou is Aroostook's largest

town, located on the banks of the Aroostook River as is Fort Fairfield and Presque Isle.

Caribou is one of Maine's most rapidly growing communities, serving as the commercial center for Caribou Air Force Station, several Nike Guided Missile Stations and located a short distance from the largest bomber base in the Northeast.

Route 89 from Caribou leads to Limestone, a potato center. Midway between Caribou and Limestone is Loring Air Force Base. A huge sprawling base with half of its installations underground.

Fort Fairfield, the third member of the triangle is the second major port of entry into Canada and also a very large potato shipping point. It is also the home of the Aroostook Valley Country Club.

Route 1 from Caribou leads North to Van Buren, the third Canadian port of entry. North of Van Buren it travels through Keegan, Lille, Grand Isle and St. David to Madawaska, the northernmost point in Maine and the home of Fraser Paper Company, Ltd., makers of bond paper, magazine stock, soda straws and the largest supplier of waxed bread wrap stock in the Country. It is Aroostook's fourth point of entry into Canada.

From Van Buren the road travels through Frenchville to the terminus of Route 1 in the United States at Fort Kent. Fort Kent is Aroostook's fifth port of entry into Canada, a short distance from the Province of Quebec.

From Quebec, south on Route 11 on Aroostook's scenic highway. Route 11 at Fort Kent is the terminus for the most popular and famous canoe trip in the world, the Allagash canoe trip.

The Aroostook Scenic Highway winds its way through Soldier Pond, Wallagrass and Eagle Lake, passing by and overlooking some of the legendary lakes in the Fish River

AROOSTOOK COUNTY

Chain. The thoroughfare located between Eagle Lake and Winterville is the jumping off spot to the Red River Country. A wooded paradise, supplemented with mirror lakes and turbulent streams which in the past had been known strictly for hunting and fishing, has in the last few years, come to the forefront with water sports of all kinds.

From Winterville the highway goes to Portage, center of the Fish River Country. Portage is located some twenty miles from Fish River Lake, which can be reached only by boat or plane. It has provided thrills for many dignitaries throughout the United States.

From Portage, south to Ashland, is perhaps the largest lumbering community in Aroostook. It is from here the American Realty Road begins, a fifty mile stretch of good gravel road leading into the heart of one of the largest tracts of wooded wonderland left in the U. S. In recent years, the Canadian woodsmen and their chain saws can be heard in the distance as they reach in from the West and the two roads grow closer together.

Traveling south again, such regions as Masardis and Oxbow are reached, past replicas of giant woods' operations, now a sportsmen's adventure land.

From the Oxbow, again traveling south past Oak Hill, Knowles Corner, Moro and Hershey, where the road leaves Aroostook passing into Patten.

The whole Aroostook Scenic Highway is dotted with picnic sites and camping grounds provided by the State, in addition to resort facilities at Ashland, Portage, St. Froid, Eagle Lake and other Fish River or Red River areas.
