Welcome to Eastern

Decisions about our health and healthcare are among the most personal choices we make in life. At Eastern Maine Medical Center, we understand the significance of these decisions. Our team of healthcare professionals offers hundreds of special skills, all coming together to provide the most satisfactory hospital experience possible. EMMC's staff is trained to respect your individuality, your privacy, and your dignity. Our goal is to always think of the patient first.

General Information

Visits from family and friends are an important part of the recovery process for patients. General visiting hours are from 1:00 pm to 8:00 pm daily, although some areas of the hospital have different policies regarding visitors depending on patient's special needs. Please check with a nurse or with our information desk if you have questions. And please be aware that patients have a right to request a restricted status. If a patient makes this request, EMMC may not confirm the patient's presence in our facility, or accept mail, flowers, or phone calls on his or her behalf.

Parking

Visitors are invited to use the EMMC parking garage, accessible either from the State Street emergency entrance or the main driveway, accessible from Hancock Street. The exit from the garage is at ground level on campus. There is no exit onto State Street.

Parking is also available for patients and visitors on both sides of the driveway. Look for the blue signs directing you patient and visitor parking.

In addition, EMMC offers free valet parking weekdays from 6:30 am to 6:00 pm. Simply drive up to either the main hospital entrance or the Webber Medical Building, and a member of our Courtesy Corps will meet you at the front door; your car will be returned to you there. Look for the blue signs that say Valet Parking.

No Tobacco Policy

The use of all tobacco products (cigarettes, cigars, pipes, and smokeless tobacco) is prohibited on all hospital-owned property and grounds.

Maine Medical Center

Mission

Eastern Maine Medical Center strives to provide excellent, compassionate primary and specialty healthcare services, and cooperates with others to promote the well being of the people of Maine. Our mission is to care for patients, families, communities, and one another.

Vision

Guided by the communities we serve, EMMC will set the standard for excellent, affordable care, from primary health services to intensive and specialty care. Outstanding service and quality will be our hallmark, with consideration for each individual.

Gift Shop

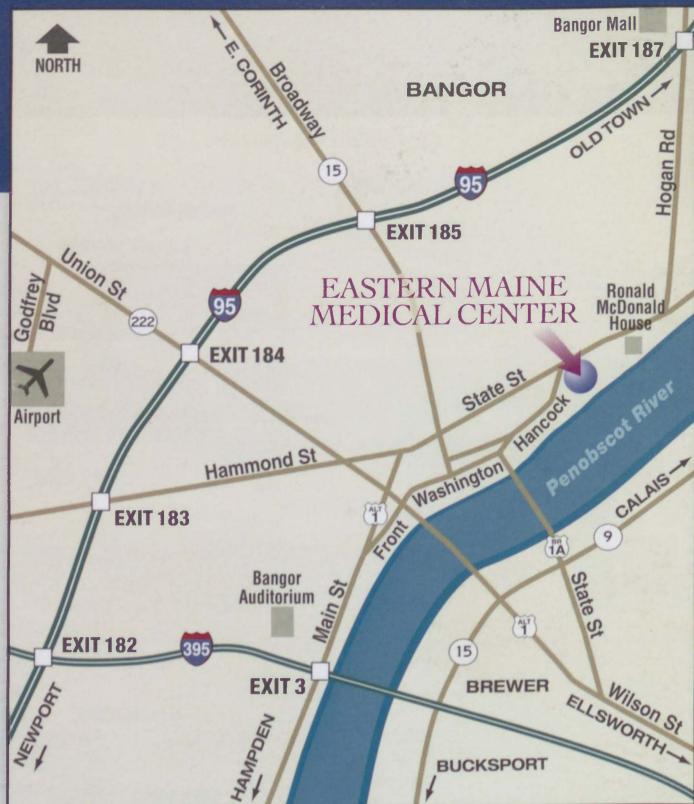

The EMMC Gift Shop, operated by our Auxiliary and volunteers, offers a varied selection of gifts, toiletries, cards, newspapers, magazines, books, and novelty items. The Gift Shop is open daily from 9:00 am until 8:00pm. Proceeds from the sale of Gift Shop items go directly to patient care through Auxiliary donations.

Riverside Inn

EMMC offers the added convenience of the Riverside Inn, a full-service hotel attached to the medical center. The inn's staff is well versed in the needs of patients or family members, who require lodging before or during hospitalization. Call 973-4100 to find out more about special rates for hospital guests.

Ronald McDonald House

The Ronald McDonald House is a short-term residence available for families of children who travel from a distance to Bangor for medical treatment. Adults and their families are accommodated on a day to day basis. Families are offered a warm and comfortable "home away from home" where they can maintain some of the normal routines of their lives. Call 942-9003 for more information regarding Ronald McDonald House.

Directions to Eastern Maine Medical Center

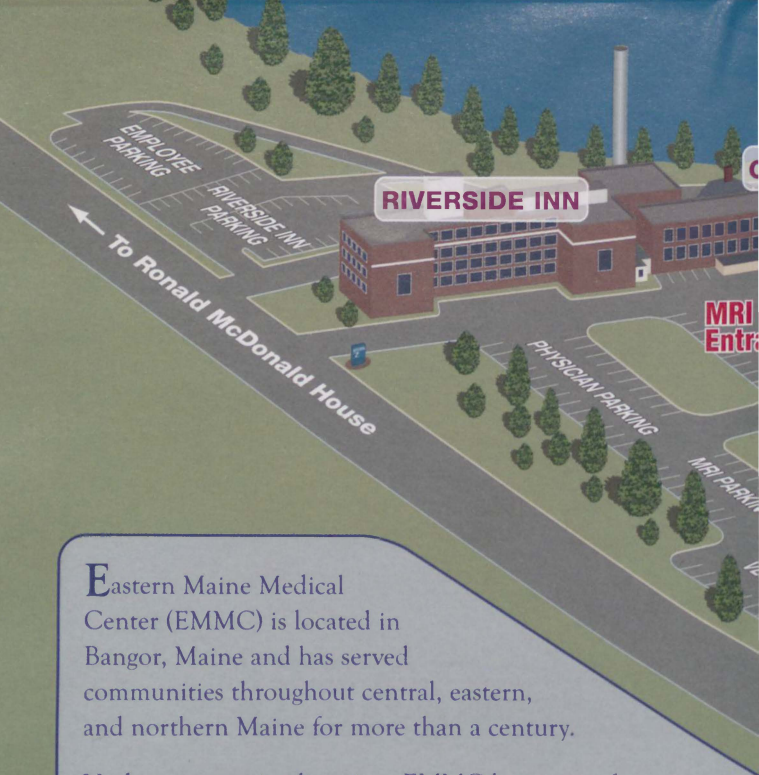

From I-95

Take the Hogan Road Exit (187) and follow Hogan Road south all the way to the river. Turn right on State Street and follow the river about a quarter of a mile. EMMC will be on your left. To get to the main entrance, pass the campus and take the first left beyond the parking lot (Hancock Street). Look for the driveway and sign on your left.

From Brewer

Use the new Penobscot River Bridge, at the intersection of State Street and Route 9 (of the three bridges that cross the river into Bangor, this is the one that is most upstream). Bear right at the end of the bridge onto Hancock Street. At the second traffic light is the entrance to EMMC.

Once on campus, patient and visitor parking is available in the lots on both sides of the main driveway and in the parking garage. EMMC also offers curbside valet parking right at the front door. (Please note that other than valet parking, there is no place to leave your car once you pass the parking garage).

Eastern Maine Medical Center (EMMC) is located in Bangor, Maine and has served communities throughout central, eastern, and northern Maine for more than a century.

Under community direction, EMMC has grown from a five-bed general hospital into a comprehensive, 411-bed medical center. EMMC and its medical staff of nearly 300 physicians provide three-quarters of the primary-care hospital services offered in the Bangor area, as well as specialty and intensive services in northern two-thirds of the state.

Our neighbors count on us as a resource for healthcare and health education, a source of support and assistance for area physicians and other health professionals, as a training ground for the health professionals of the future. We have outreach clinics to many local hospitals in the region, allowing us to assist and supporting the role of those hospitals in their communities.

Whoever they are, whatever their circumstances, Maine people deserve the best care at Eastern Maine Medical Center. We are committed to caring for everyone, including those who can't afford to pay. We stand ready, 24 hours a day. Because nothing should stand in the way of quality healthcare.
